

New Jersey Natural Gas Advantage

For Your Home & Business

Enjoy Nature's Wonders at Ocean Fun Days!

The ocean is the biggest backyard we have ... so join us for the **11th annual Ocean Fun Days** to explore the wonders of the Jersey Shore. A close look at the life it contains will leave you wide-eyed in amazement!

This **FREE** day of family-oriented activities with an eco-friendly focus will educate, excite and inspire you. Learn firsthand from marine scientists, researchers and environmentalists how to protect our natural resources. With nearly 50 exhibitors participating, **Ocean Fun Days** provides interactive activities designed to help you appreciate the New Jersey coastline. So, roll up your pant legs and take a seining lesson, help your little one hoist a rod at the youth fishing clinic or attend the beachcombing 101 workshop. Plus enjoy hands-on exhibits, nature tours, coastal crafts, workshops, face painting and so much more.

Saturday, May 17, Seaside Park

Attention to Safety: Inspect Your Piping

NJNG owns and maintains the natural gas pipelines and the service lines that lead up to your natural gas meter. However, safety does not stop at the meter. It is the homeowner's responsibility to inspect and maintain the pipes from the outlet of the natural gas meter to your natural gas appliances and equipment. These pipes can include fuel lines – both inside and outside your home or business – and buried lines that lead to outdoor appliances (such as a grill) or remote structures. Follow these safety tips to help prevent possible damage to your property:

Have a licensed professional locate and inspect the buried natural gas lines that originate from your meter and lead to your natural gas appliances and equipment. And keep a copy of the diagram for future use.

Periodically inspect for leaks, corrosion and damage to your pipes and equipment. When necessary, have a licensed professional immediately make repairs.

State LAW requires that all excavators – including homeowners, business owners and contractors – MUST call 811 or 800-272-1000 for a free markout of underground public utility lines at least three business days prior to any digging.

An NJNG contractor will mark out the service line that comes from the natural gas main to your meter. However, customer installed lines such as fuel lines to natural gas grills, pool heaters and sprinkler systems, invisible fencing or low-voltage lighting, are not marked by our contractor. So, before you dig near buried pipes, use caution and hand locate the pipes in advance and then dig by hand.

At NJNG, attention to safety is our top priority – make it yours too! For more information about natural gas safety, visit My Safety at njng.com.

And checkout the enclosed insert for additional information.

Need to Restore Natural Gas Service to Your Summer Property?

With the first signs of spring ... chances are you want to get your summer home or business ready before the Memorial Day weekend. Plan ahead and contact us to schedule an appointment to restore natural gas service to your summer home or business. It's not too early. Remember, we receive many seasonal requests (especially for the Memorial Day and Fourth of July holidays) and schedule appointments in the order we receive them. So, contact us 10 business days in advance. Visit njng.com, login (or register) at My Account and click on the "Stop, Start Service" tab. If you prefer, give us a call at 800-221-0051.

Light Up Your Life with ENERGY STAR®!

Now that it's lights out for Edison's incandescent light bulb, we want to help you take the guesswork out of what to replace it with. So we're bringing back our Energy-Efficient Lighting Fair!

Created by ENERGY STAR® partner TechniArt, in conjunction with New Jersey's Clean Energy Program™ (NJCEP), the lighting fair will take place on Thursday, June 5, 2014, from 10 a.m. to 3 p.m., at NJNG headquarters, 1415 Wyckoff Road, Wall Township. This event is free and open to the public. The lighting fair provides the opportunity to purchase a wide range of ENERGY STAR-qualified CFL and LED bulbs, fixtures and other energy-saving products at deeply discounted prices. This year, the "monster combo" special, which retails for more than \$100 and contains 15 energy-efficient products, including dimmable LEDs, is available for the specially marked price of only \$10. The combo special is limited to one per person; however, attendees can purchase an additional one on behalf of a friend or family member who is a New Jersey resident.

The TechniArt team will offer hands-on demonstrations that provide education and information about ENERGY STAR lighting. And members of The SAVEGREEN Project®, NJNG's energy-efficiency program, will let you know about NJCEP and NJNG's energy-efficiency rebates and incentives.

To preview the product selection and gather information ahead of time, go to the Save Energy & Money section of njng.com and click on Special Offers & Rebates.

See you there.

How To Reach Us

Call us:

Toll-free: 800-221-0051

People with hearing and speech impairments (TTY/TDD): 800-223-0024

Report a natural gas leak: 800-GAS-LEAK (800-427-5325)

Call before you dig: 811 or 800-272-1000

E-mail us: customerservice@njng.com
