Meter Reading Alert

At NJNG, we now read most natural gas meters on a monthly basis, eliminating the need to read your own meter to avoid an estimated bill. But, we still need unhindered access to your meter at all times. As spring brings new growth and plantings, remember to keep the area surrounding your meter free of overgrown plants, debris and other obstructions that could corrode the meter and cause a possible natural gas leak. Be cautious when mowing your lawn or operating other equipment around your meter.

Never tie anything – including a dog leash, a guy wire or ground wire – to a meter or its piping as this may cause a hazardous condition. Do not lean ladders or any metal objects against the meter. Also, for the safety of our meter readers, please be certain that your dog is restrained. These precautions will allow for safe, easy access for our meter readers or other technicians in case of an emergency.

If you feel your natural gas meter is in an unsafe location, such as too close to a driveway or under a deck, call us at 1-800-221-0051 for an assessment.

Thank You for Supporting the Gift of Warmth

Over the years, thanks to the generosity of our customers, shareowners and employees, we have been able to help more than 17,800 families in our community stay warm during the winter through the NJNG Gift of Warmth fund. The fund assists with heating costs for those facing financial hardship, sometimes the result of illness or unemployment.

One hundred percent of every dollar donated goes directly to these families in need and NJNG matches your donation dollar-for-dollar, up to a total of \$80,000. To donate, simply indicate on the form below which option you prefer – a one-time or recurring monthly contribution. You may enclose a check or have the donation added to your NJNG bill.
