NEW JERSEY NATURAL GAS

SUSTAINABILITY

Advancing a Cleaner Energy Future

Energy Assistance Days are Right Around the Corner

This fall, NJNG's Energy Assistance team will be coming to a location near you to provide personal guidance on energy assistance programs. Visit njng.com/energyassistance and stay tuned for next month's issue for more information.

Manage Your Account Your Way!

With My Account, managing your NJNG account is easier than ever with a variety of self-service options:

- Ditch paper bills and sign up for *e-bill* get instant notifications when your bill's ready and check it anytime, anywhere
- Flexible payment options such as Apple Pay®, Google Pay® and Venmo®
- Billing and payment history for up to 30 months
- Insight into 12 months of your energy usage
- And more!

We know you're busy — make your life easier and create your online account at njng.com for service at your fingertips.

Local Schools Bring Sustainability To Life

NJNG's Champions of Sustainability contest provides the opportunity for educators and students to demonstrate ways they can make their schools more sustainable. We recently checked in on some of our 2024 Champions of Sustainability contest winners to see how their projects were coming along.

Veterans High School in Brick constructed an outdoor garden, aquaponic and hydroponic systems and a greenhouse to grow produce for local food banks.

Ocean Township Intermediate School transformed their atrium into an indoor Friendship Garden with a Buddy Bench to foster an inclusive and sustainable environment.

Congratulations to our 2025 Champions of Sustainability contest winners Brick Township High School, Elms Elementary School in Jackson and Central Regional High School in Bayville. We look forward to seeing your progress throughout the year.

Understanding Your Natural Gas Bill

Your natural gas bill is made up of several components. The price of your natural gas service is reflected as "This Service Period Gas Charges" in the Bill Calculation section of your bill. NJNG determines what you owe (gas charges) each month by multiplying the BGS (Basic Gas Supply) and DEL (Delivery) rates by the total therms (billable unit of natural gas) you used, then adding the customer charge. The total makes up the natural gas charges in the service period, which is regulated by the New Jersey Board of Public Utilities.

Billing or Service Telephone Nun REPORTING GAS LEAKS BILL CALCULATION 80.1 Therms X .3672 BGS 29.41 80.1 Therms X 1.2684 DEL 🗼 101.60 Residential Customer Charge 12.00 THIS SERVICE PERIOD GAS CHARGES \$126.07 BILL CALCULATION THIS SERVICE PERIOD GAS CHARGES Please return this portion w 00-0000-0000-00 Make checks payable to NJNG. The BGS (Basic Gas Supply) * the BGS portion of your bill is the cost of the natural gas supply passed directly to customers. This means the price we pay is the price you pay — unless you've selected a third-party supplier. The BGS price represents the "price to compare" with third-party supplier offers. If you purchase your natural gas from a third-party supplier, charges appear as GAS on your NJNG bill.

The DEL (Delivery) charge is for the delivery of natural gas to your home or business and maintenance of our distribution system. It also includes charges for societal benefits programs related to environmental and energy-efficiency initiatives.

The Residential Customer Charge offsets a portion of billing, meter reading and related equipment.

*Note the BGS portion of your bill covers your natural gas usage. NJNG makes no profit on the sale of natural gas itself and directly passes the costs to the customer as mandated by law. Visit the Regulatory Info section of njng.com for historical rates.

Here's a tip you can use — rotate your ceiling fan counterclockwise for a cooler, more energy-efficient summer. Doing this pushes air down to generate a cool breeze, allowing you to slightly raise your thermostat, maintain your comfort and help reduce cooling costs. Just remember to turn off the fan when you leave the room!
