VIA EMAIL

Honorable Sherri L.Golden, Secretary New Jersey Board of Public Utilities 44 South Clinton Avenue, 1st Floor P.O. Box 350 Trenton, NJ 08625-0350

Re: IN THE MATTER OF THE PETITION OF NEW JERSEY NATURAL GAS COMPANY FOR APPROVAL OF THE COST RECOVERY ASSOCIATED WITH ENERGY EFFICIENCY PROGRAMS BPU DOCKET NO. GR24060380

Dear Secretary Golden:

Enclosed for filing please find the Petition of New Jersey Natural Gas Company for approval of the cost recovery associated with its Energy Efficiency Programs.

Copies of the petition, including the supporting Schedules, are also being emailed to the New Jersey Division of Rate Counsel and the Division of Law.

In accordance with the Order issued by the Board in connection with I/M/O the New Jersey Board of Public Utilities' Response to the COVID-19 Pandemic for a Temporary Waiver of Requirements for Certain Non-Essential Obligations, BPU Docket No. EO20030254, Order dated March 19, 2020, this document is being electronically filed. No paper copies will follow.

Kindly acknowledge receipt of this filing by return email acknowledgement.

Respectfully submitted,

Andrew K. Dembia Regulatory Affairs Counsel

IN THE MATTER OF THE PETITION OF NEW JERSEY NATURAL GAS COMPANY FOR APPROVAL OF THE COST RECOVERY ASSOCIATED WITH ENERGY EFFICIENCY PROGRAMS

PETITION

BPU DOCKET NO.GR24060380

TO: THE HONORABLE COMMISSIONERS OF THE NEW JERSEY BOARD OF PUBLIC UTILITIES

New Jersey Natural Gas Company ("NJNG" or the "Company") respectfully petitions the New Jersey Board of Public Utilities (the "Board" or "BPU") pursuant to Board Orders issued on June 21, 2013, in Docket No. GO12070640 ("June 2013 Order"), on July 22, 2015 and June 29, 2016, in Docket No. GO14121412 ("July 2015/June 2016 Orders"), on September 17, 2018 in Docket No. GO18030355 ("September 2018 Order"), on March 3, 2021 in Docket Nos. QO19010040 and GO20090622 ("Triennium 1") and on April 30, 2024 in Docket No. GO20090622 (Triennium 1 Extension Order") as well as N.J.S.A. 48:3-98.1, stating as follows:

1. NJNG is a corporation duly organized under the laws of the State of New Jersey and is a public utility engaged in the sale, distribution and transportation of natural gas subject to the jurisdiction of the Board. The Company's principal business office is located at 1415 Wyckoff Road, Wall Township, New Jersey 07719. 2. Communications and correspondence relating to this filing should be sent to:

Mark G. Kahrer, Senior Vice President, Regulatory Affairs and Andrew K. Dembia, Esq., Regulatory Affairs Counsel New Jersey Natural Gas Company 1415 Wyckoff Road, P.O. Box 1464 Wall, N.J. 07719 <u>mkahrer@njng.com</u> adembia@njng.com

3. NJNG proposes to increase the current after-tax Energy Efficiency ("EE") rate for the Programs established from 2013-2018 from \$0.0247 per therm to \$0.0258 per therm for recovery of The SAVEGREEN Program ("SAVEGREEN") program costs approved in the June 2013 Order, the July 2015 Order, the June 2016 Order, and the September 2018 Order ("Energy Efficiency Programs Established 2013-2018 rate"), and increase the current after-tax rate for the Triennium 1 Program from \$0.0247 to 0.0319 per therm for recovery of SAVEGREEN program costs approved in the March 2021 Order ("Triennium 1") effective October 1, 2024. The total proposed after-tax EE rate will increase from \$0.0494 to \$0.0577 per therm. The overall bill of the typical residential heating customer using 100 therms per month will increase by \$0.83, or 0.6%.

4. On January 19, 2009, NJNG filed a petition with the Board in Docket Nos. EO09010056 and EO09010057 seeking approval to initially develop and implement a number of economic stimulus programs that were to be made available to NJNG customers over the next twelve to sixteen months to promote energy efficiency and conservation while stimulating the state's economy ("EE filing"). At the same time, the Company sought Board approval for an associated cost recovery rider mechanism. The programs proposed were designed to complement and supplement then-existing aspects of New Jersey's Clean Energy Program ("NJCEP") in an attempt to encourage higher levels of customer participation in NJNG's service territory. The NJNG proposals did not duplicate or eliminate any of the NJCEP programs; they aimed instead to increase customer awareness, enhance participation in and support utilization of NJCEP efforts throughout the State. It was intended that this approach would avoid duplicative administrative structures and spur additional economic activity within the State while contributing to the reduction of energy consumption in New Jersey.

5. In the July 2009 Order, the Board approved the initial EE Programs for NJNG to be operated through SAVEGREEN and also approved the recovery of costs incurred by adopting the terms of the Stipulation entered into among NJNG, BPU Staff and the New Jersey Division of Rate Counsel ("Rate Counsel")¹(hereinafter referred to as the "Parties"). Accordingly, NJNG was authorized to establish a cost recovery rate through which it can recover or return to customers all deferred SAVEGREEN costs, including rebate costs, customer incentive payments, customer financing costs and associated reasonable and prudent incremental operation and maintenance ("O&M") expenses ("Program Costs"). It was agreed by the Parties that such Program Costs are subject to recovery pursuant to the terms of NJNG's Tariff Rider F ("Rider F").

6. As part of the then authorized cost recovery mechanism, the Company was authorized to amortize for recovery its initial SAVEGREEN investments in customer rebates, incentive payments and customer financing over a four (4) year period on a straight line basis, with the return on the unamortized investments based upon the Company's adjusted overall weighted average cost of capital ("WACC"), inclusive of income taxes as authorized by the BPU in NJNG's then most recent base rate case in 2007-2008, BPU Docket No. GR07110889. NJNG computes the return component of its costs, in addition to the amortization of its investments, by deducting

¹ Rate Counsel was formerly designated as New Jersey Department of the Public Advocate, Division of Rate Counsel.

the applicable deferred income taxes related to the amortization of rebates, incentives and financing costs over a four-year period for book purposes and over a one-year period for tax purposes.

7. Subsequently, NJNG submitted additional petitions with the BPU seeking approval to continue the energy-efficiency programs through SAVEGREEN with modifications addressing market changes, customer responses and contractor input. The June 2013, July 2015, June 2016, September 2018, and March 2021 Orders adopted the terms of Stipulations entered into among the Parties. As such, NJNG is authorized to amortize for recovery of its SAVEGREEN investments in customer rebates, incentive payments and customer financing over two (2), three (3), five (5), seven (7), nine (9) and ten (10) year periods on a straight-line basis, with the return on the unamortized investments based upon the Company's stipulated overall WACC, inclusive of income taxes as authorized by the BPU. NJNG computes the return component of its costs, in addition to the amortization of rebates, incentives and financing costs over a two-year, three-year, five-year, seven-year nine-year and ten-year period for book purposes and over a one-year period for tax purposes.

8. Based on the terms of the June 2013 Order, the July 2015, the June 2016, the September 2018 Order, and the March 2021 Order, NJNG is to submit an annual SAVEGREEN cost recovery filing to establish future Rider F rates. This filing is being made coincident with, but separate from NJNG's annual Basic Gas Supply Service filings and includes updates to the SAVEGREEN investment levels, operating costs, and reconciled rate recoveries to actual cost results.

9. Attached hereto and made a part of this Petition are the following Schedules providing the information listed in the Minimum Filing Requirements approved in the July 2009

4

Order, and updated in the March 2021 Order, with information provided for the SAVEGREEN Program.

Schedule NJNG-1	Information on NJNG's direct FTE employment impacts.
Schedule NJNG-2	Rate Change and Monthly revenue requirement calculation for programs
	established 2013-2018.
Schedule NJNG-2A	Rate Change and Monthly revenue requirement calculation for programs
	established 2021-present.
Schedule NJNG-3	Actual clause revenues, by month and by rate class.
Schedule NJNG-4	Monthly beginning and ending clause deferred balances and the average
	deferred balance, net of tax, for the reconciliation period.
Schedule NJNG-5	Interest rate used for over/under deferred balance recoveries.
Schedule NJNG-6	Interest expense to be charged or credited each month.
Schedule NJNG-7	Budgeted versus actual SAVEGREEN Program Costs.
Schedule NJNG-8	Budget versus actual EE program Revenues
Schedule NJNG-9	Monthly journal entries for regulatory asset and deferred O&M expenses
	for the SAVEGREEN Program for the reconciliation period.
Schedule NJNG-10	Supporting details for all administrative costs related to the SAVEGREEN
	Program included in the revenue requirement.
Schedule NJNG-11	Carrying cost used for the unamortized costs of the SAVEGREEN Program.
Schedule NJNG-12	Number of participants in each SAVEGREEN program.
Schedule NJNG-13	Estimated demand and energy savings for each SAVEGREEN program.
Schedule NJNG-14	Estimated emissions reductions for each SAVEGREEN program.
Schedule NJNG-15	Testimony supporting the annual true-up petition
Schedule NJNG-16	Public Notice
Schedule NJNG-17	For programs that provide incentives for conversion of energy utilization to
	natural gas from other energy sources (e.g., converting from electric to gas
	furnaces), the number of such projects; estimate of the increase in annual
	gas demand and energy associated with these projects; and the avoided use
	of electricity and/or other fuels.

Schedule NJNG-18	In overlapping territories Company shall provide number of projects in
	progress and completed.
Schedule NJNG-19	Red-lined and proposed (clean) Tariff Pages
Schedule NJNG-20	Net impact of the proposed rate changes

10. Based on the foregoing and the information provided in the attached schedules, NJNG proposes to increase the current after-tax Energy Efficiency Programs Established 2013-2018 rate of \$0.0247 per therm to \$0.0258 and increase the current after tax Energy Efficiency Triennium 1 Program rate of \$0.0247 per therm to \$0.0319, effective October 1, 2024. The total current after-tax EE rate of \$0.0494 per therm is proposed to increase to \$0.0577 per therm.

11. NJNG has served notice and a copy of this Filing, together with a copy of the annexed exhibits being filed herewith, upon Rate Counsel and upon the Division of Law.

WHEREFORE, NJNG requests that the Board issue an Order:

- Approving the Company's continued recovery of the SAVEGREEN Program Costs for all the Programs established 2013-2021 as shown in the attached schedules covering the investments approved in, the June 2013 Order, the July 2015, the June 2016 Order, the September 2018 Order, and the March 2021 Order;
- 2. Approving the actual investments and operation and maintenance expenses as prudent and reasonable;
- 3. Approving NJNG's request to increase the current after tax Energy Efficiency Programs Established 2013-2018 rate of \$0.0247 per therm to \$0.0258, and increase the current after tax Energy Efficiency Triennium 1 Program rate of \$0.0247 per therm to

6

\$0.0319 effective October 1, 2024. The resulting total after-tax EE rate for Rider F will increase from \$0.0494 per therm to \$0.0577 per therm effective October 1, 2024; and

4. Granting such other relief as the Board deems just, reasonable and necessary.

Respectfully submitted,

NEW JERSEY NATURAL GAS COMPANY

Schedule NJNG 2A Page 1 of 11

NEW JERSEY NATURAL GAS COMPANY

The monthly revenue requirement calculation for the period October 1, 2023, through September 30, 2025, is detailed in the attached spreadsheets. The information includes actual financial information through March 31, 2024, and estimated data for the period April 1, 2024, through September 30, 2025. For programs established 2013 to 2018 the information is included in pages 2-9 of Schedule NJNG-2 and for the Triennium 1 Program the information is included in pages 2-11 of Schedule NJNG-2A.

Please see Schedule NJNG-2 for programs established 2013-2018 and Schedule NJNG-2A for the Triennium 1 Program monthly SAVEGREEN TM Program deferred balances for the period October 1, 2023, through September 30, 2025. The information includes actual financial information through March 31, 2024, and estimated data for the period April 1, 2024, through September 30, 2025.

Please see Schedule NJNG-2 for programs established 2013-2018 and Schedule NJNG-2A for the Triennium 1 Program interest rate used for the over/under SAVEGREEN[™] Program deferred balances for the period October 1, 2023, through September 30, 2025. The information includes actual financial information through March 31, 2024, and estimated data for the period April 1, 2024, through September 30, 2025.

Please see Schedule NJNG-2 for programs established 2013-2018 and Schedule NJNG 2A for the Triennium 1 Program, which details the interest expense for the over/under SAVEGREEN[™] Program deferred balances for the period October 1, 2023, through September 30, 2025. The information includes actual financial information through March 31, 2024, and estimated data for the period April 1, 2024, through September 30, 2025.

Please see Schedule NJNG-1 showing budgeted versus actual EE Program costs by the following categories: administrative (all utility costs), marketing/sales, training, rebates/incentives, including inspections and quality control, program implementation (all contract costs), evaluation, and any other costs for both programs established, 2010-2018 and the Triennium 1 Program.

Please see the below schedule showing budgeted versus actual EE Program revenues for the time period of April 1, 2023, to March 31, 2024.

Month/Year	Budgeted Revenues	Actual Revenues
Apr-23	\$483,166.81	\$483,166.81
May-23	\$329,289.29	\$329,289.29
Jun-23	\$253,944.76	\$253,944.76
Jul-23	\$233,551.30	\$248,168.62
Aug-23	\$226,259.62	\$224,608.75
Sep-23	\$227,578.63	\$227,025.89
Oct-23	\$850,928.08	\$760,136.69
Nov-23	\$1,675,812.76	\$1,807,024.87
Dec-23	\$2,636,351.26	\$2,182,444.61
Jan-24	\$3,195,871.78	\$2,811,118.72
Feb-24	\$2,765,316.08	\$2,386,568.72
Mar-24	\$2,213,225.33	\$1,753,292.64

The Journal Entries to record the monthly accounting activity for the SAVEGREEN™ Program established 2010 – 2018 and the Triennium 1 Program are attached.

Please see Schedule NJNG-2 for programs established 2013-2018 and Schedule NJNG 2A for the Triennium 1 Program administrative costs associated with the SAVEGREEN[™] Program. The schedules include (1) the actual Program investments, rebates and O&M expenses as of March 31, 2024, and (2) the estimated Program investments, rebates and O&M expenses for the period April 1, 2024, through September 30, 2025.

The carrying costs associated with the unamortized deferred asset balances for the SAVEGREEN[™] Program established 2013-2018 and the Triennium 1 Program are detailed in Schedules NJNG-2 and NJNG-2A, respectively.

The number of participants included in the SAVEGREEN™ Program is detailed in Schedule NJNG-13.

The estimated demand and energy savings associated with the SAVEGREEN[™] Program are detailed in the attached spreadsheet.

¹ - Behavioral participants and annual savings data is available through February 29, 2024 (11-Month Period). Participants/savings data for March 31, 2024 activity would be available mid-May 2024.

² - During February and March 2024, NJNG had two legacy projects (Engineered Solutions) close. Those participants and savings are reflected in the table data above.

The estimated emission reductions associated with the SAVEGREEN™ Program are detailed in Schedule NJNG-13.

DIRECT TESTIMONY OF JUDY DESALVATORE MANAGER - REVENUE REQUIREMENTS

Q. PLEASE STATE YOUR NAME, CURRENT POSITION AND BUSINESS ADDRESS?

A. My name is Judy DeSalvatore and I am the Manager – Revenue Requirements for
 New Jersey Natural Gas Company ("NJNG" or the "Company"). My business
 address is 1415 Wyckoff Road, Wall, New Jersey 07719.

6 Q. PLEASE DESCRIBE YOUR EDUCATION AND BUSINESS EXPERIENCE.

7 A. I received a Bachelor of Science degree in Early Childhood Education with a minor 8 in Psychology from Trenton State College. In September 1989, I accepted a 9 position in the Customer Service Department at NJNG. Over a 34-year career I 10 have supervised various departments within the NJNG company. In 2006, I was 11 promoted to the position of Supervisor of Revenue Billing in which I oversaw the revenue billing processes and account support work. I also was responsible for 12 13 ensuring that customers received accurate and timely bills. In 2012, I accepted the position of Supervisor-Meter Reading. This entailed overseeing all aspects of the 14 15 meter reading process for Monmouth and Ocean Counties. In 2016, I accepted the position of Supervisor of Revenue Integrity in Customer Service. In this position, 16 17 I managed the workload for the Gas Transportation department, ensuring all 18 processes involving energy choice enrollments, billing, EDI data exchange, and 19 event billing were completed accurately and timely and in accordance with the NJNG tariff. In 2018, I was promoted to Manager of Revenue Requirements. My 20 21 responsibilities include testifying and supporting the Regulatory Affairs department 22 in the preparation of all cost recovery filings.

Q. HAVE YOU PREVIOUSLY TESTIFIED IN STATE REGULATORY PROCEEDINGS?

A. Yes. I have submitted Direct Testimony in NJNG's Societal Benefits Charge filing
in New Jersey Board of Public Utilities ("BPU") Docket No. GR21091145,
GR22060371 and GO23060340.

1 Q. WHY ARE YOU FILING TESTIMONY IN THIS PROCEEDING?

A. In the March 3, 2021, BPU approval of NJNG's The SAVEGREEN® Project
("SAVEGREEN") filing, BPU Docket Nos. Q019014000 and G020090622
("Triennium 1 Program"), a Minimum Filing Requirement ("MFR") required
testimony for recovery of the associated revenue requirement for this program.
While the testimony is required for the most recent SAVEGREEN program, I am
also supporting the revenue requirement associated with the SAVEGREEN
Programs approved by the BPU from 2013 through 2018 ("2013-2018 Programs").

9 Q. WHAT ARE YOUR RESPONSIBILITIES WITH RESPECT TO THIS 10 PROCEEDING?

A. My testimony and the associated schedules support the rate impact and revenue
 requirement needed to recover the costs of all NJNG's energy-efficiency programs
 approved by the BPU through NJNG's SAVEGREEN program, specifically the
 programs approved by the BPU from 2013 to 2021.

15 Q. ARE YOU SUPPORTING ANY SCHEDULES THAT ACCOMPANY THIS 16 FILING?

17 A. Yes. I am sponsoring the MFR schedules included with this filing.

18 **Q.** PLEASE BRIEFLY DESCRIBE THESE MFRS.

A. The MFRs are applicable to the entirety of the SAVEGREEN program, i.e., 2010 20 2018 and the Triennium 1 Program unless specifically stated otherwise.

21 MFR-NJNG-1 – Employment Impact

- 22 The SAVEGREEN program currently has a staff of 46 full time equivalents.
- 23 Staffing by market segment is as follows:
 - 22 employees primarly serve the residential program
 - 8 employees primarily serve the commercial program
 - 15 employees support all sectors and/or perform functions related to reporting or evaluation, measurements, and verification.
 - 1 employee primarly serves the multi-family program
- 29 30

24

25

26

27 28

1

<u>MFR-NJNG-2 and 2A – SAVEGREEN Revenue Requirement</u>

These schedules illustrate the direct investments and On-Bill Repayment Program 2 ("OBRP") incentives monthly for the 2013-2018 and Triennium 1 Program. The 3 SAVEGREEN revenue requirement components vary with the type of incentive 4 5 provided to customers. The direct investments result in revenue requirements 6 including return on net investment, income taxes and amortization expense. The applicable revenue requirement incorporates reductions for accumulated deferred 7 income taxes attributable to timing differences between the tax and book 8 9 amortization expense. For energy-efficiency OBRPs, the revenue requirements include return on net investment and income tax expense, but not amortization 10 expense, given that over time, customers repay the financing received from the 11 12 Company. Additionally, the Company includes operations and maintenance 13 ("O&M") expense associated with the energy-efficiency programs in SAVEGREEN revenue requirements. 14 The determination of SAVEGREEN revenue requirements in this filing is consistent with prior BPU approvals of NJNG 15 SAVEGREEN programs cost recovery filings. 16

17

MFR-NJNG-3 – Actual Revenues

18 These schedules show the actual revenues by month and rate class for both the

- 19 2013-2018 and the Triennium 1 Program. Actual information is shown for the
- 20 period July 1, 2023, through March 31, 2024.
- 21 MFR-NJNG-4 Deferred Balances
- These schedules provide the monthly beginning and ending deferred balances for
 both the 2013-2018 and Triennium 1 Program.

24

1 MFR-NJNG-5 – Interest

- 2 NJNG uses its monthly commercial paper rate for any over/under collection of
- 3 revenues. If NJNG has no commercial paper in a specific month, it utilizes the last
- 4 month's rate. These schedules provide the calculation of the monthly interest for
- 5 both the 2013-2018 and Triennium 1 Program. These schedules are included in
- 6 MFR-NJNG-2 for each program.

7 MFR-NJNG-6 - Interest Rate Used

8 MFR-NJNG-2 contains the specific interest rate used on a monthly basis.

9 MFR-NJNG-7 – Budget versus Actual

- 10 These schedules provide a comparison of total actual costs versus the estimated
- approved costs for both the 2010-2018 and Triennium 1 Program.

12 MFR-NJNG-8 – Schedule showing Budgeted versus Actual Energy Efficiency

13 ("EE") Program Revenues

- 14 This schedule shows budgeted revenues for the Triennium1 Program at the time of
- 15 filing as compared to the actual revenues collected.

16 MFR-NJNG-9 – Journal Entries

- 17 This schedule contains the accounting journal entries, where applicable, for all
- 18 transactions in the SAVEGREEN program.

19 MFR-NJNG-10 – Administrative Cost Support

- This schedule contains supporting information for the administrative costs
 associated with the 2018 and Triennium1 Program.
- 22 MFR-NJNG-11 Carrying Cost
- 23 Incorporated into MFR-NJNG-2 is NJNG's carrying cost for the unamortized costs
- for programs established 2013–2018 and MFR-NJNG-2A for the Triennium 1

- 1 Program. The rate to be charged is from the Company's most recent base rate case,
- 2 BPU Docket No. GR21030679's weighted average cost of capital ("WACC").

3 MFR-NJNG-12 – Participants

- 4 This MFR illustrates the number of participants in both the 2010-2018 and
- 5 Triennium 1 Program.

6 MFR-NJNG-13 – Demand and Energy Savings

- 7 This schedule provides the demand and energy savings for both the 2010-2018 and
- 8 Triennium 1 Program.

9 MFR-NJNG-14 – Emissions Reductions

- 10 This schedule provides the emission reductions for both the 2010-2018 and
- 11 Triennium 1 Program.

12 MFR-NJNG-15 - Testimony supporting the annual true-up petition

13 My Direct Testimony, in the instant document, supports the annual true-up petition.

14 MFR-NJNG-16 Public Notice

- 15 This schedule includes a draft public notice of the proposed rates and associated
- 16 customer impacts.
- 17 MFR-NJNG-17 Conversion Incentives
- 18 This schedule provides the conversion incentives from other energy sources to
- 19 natural gas.

20 MFR-NJNG-18 – Overlapping Territories

- 21 This schedule provides the number of projects in progress and completed with dual
- 22 fuels in overlapping territories.

23 MFR-NJNG-19 – Tariff

24 These schedules include proposed clean and redline tariff pages.

1 MFR-NJNG-20 – Net Impact This schedule contains the net impact of the proposed rate changes to customers. 2 3 Q. PLEASE DESCRIBE THE FACTORS THAT MOST STRONGLY 4 INFLUENCE THE LEVEL OF REVENUE REQUIREMENTS 5 ASSOCIATED WITH THE SAVEGREEN PROGRAMS. 6 The unit investment costs of the individual program measures and the number of A. 7 participants are the two factors that most significantly affect the level of 8 SAVEGREEN revenue requirements associated with these programs. In addition, 9 the length of time over which the investments are amortized and the incremental O&M costs necessary to implement the energy-efficiency programs influence total 10 11 revenue requirements. PLEASE DESCRIBE THE TIME PERIOD FOR AMORTIZATION 12 Q. OF THE TRIENNIUM 1 PROGRAM INVESTMENTS IN ENERGY-13 **EFFICIENCY.** 14 Consistent with the BPU's June 10, 2020, Clean Energy Act Order, the Company A.

A. Consistent with the BPU's June 10, 2020, Clean Energy Act Order, the Company is amortizing the Triennium1 Program direct investments provided to customers over ten (10) years for each respective program beginning with the month that the investment is recorded. For tax purposes, the investments will be recognized as an expense and amortized over one year. The timing difference between book and tax amortization periods is properly recognized in the calculated revenue requirements through deferred tax reductions associated with the programs.

Q. WHAT IS THE PROPOSED REVENUE REQUIREMENT ASSOCIATED WITH THE SAVEGREEN PROGRAMS?

- A. The revenue requirement for the 2013-2018 programs is \$17.8 million, and for the
- 25 Triennium 1 Program, the revenue requirement is \$21.9 million.

1	Q.	WHAT ARE THE PROPOSED AFTER-TAX RATES FOR
2		CUSTOMERS?
3		The Company is proposing to increase the current after-tax Energy Efficiency
4		Programs Established 2010-2018 rate of \$0.0247 to \$0.0258 per therm and increase
5		the current after-tax Energy Efficiency Triennium 1 Program rate from \$0.0247 to
6		\$0.0319 per therm effective October 1, 2024. The resulting proposed after-tax total
7		EE rate in Rider "F" will increase by \$0.0083 from \$0.0494 to \$0.0577 per therm.
8	Q.	WHAT IS THE PROPOSED AFTER-TAX RATE IMPACT TO
9		CUSTOMERS?
10		The proposed rates will result is a \$0.83, or 0.6 percent increase to the total monthly
11		100 therm bill for residential heat customers.
12	Q.	DOES THIS CONCLUDE YOUR TESTIMONY?

13 A. Yes, it does. I reserve the right to supplement my testimony should the need arise.

NOTICE TO NEW JERSEY NATURAL GAS CUSTOMERS In the Matter of the Petition of New Jersey Natural Gas Company for Approval of the Cost Recovery Associated with the Energy Efficiency Programs

DOCKET NO. GR24060380

NOTICE OF FILING AND PUBLIC HEARINGS

TO OUR CUSTOMERS:

PLEASE TAKE NOTICE that on May 31, 2024, New Jersey Natural Gas ("NJNG" or the "Company") filed a petition with the New Jersey Board of Public Utilities ("Board") seeking approval to implement a change to its Energy Efficiency ("EE") Rider F through which it recovers costs associated with EE Programs ("Programs") offered through the Board-approved SAVEGREENTM Program. The current Programs provide a broad range of EE offerings for residential, commercial, and industrial customers, including special resources for low to moderate income customers. The Programs include discounted energy saving measures, grants, financing opportunities, technical assistance, and other resources to help address barriers to saving energy and making investments in energy efficiency improvements more accessible for all customers. Pursuant to Board Orders dated June 21, 2013 (GO12070640), July 22, 2015, and June 29, 2016 (Docket No. GO14121412), September 17, 2018 (Docket No. GO18030355), March 3, 2021(Docket Nos. QO19010040 and GO20090622), and April 30, 2024, (Docket No. GO20090622-"Triennium 1 Extension Order") NJNG is authorized to recover all reasonable and prudent costs associated with the SAVEGREENTM programs. The approved and proposed costs include funds for grants, customer incentives and the associated incremental operations and maintenance expenses, along with associated carrying costs.

Rider F is applied in a manner consistent with existing components and processes of the Board-approved Societal Benefits Charge applicable to all jurisdictional throughputs. The current after-tax EE charge for natural gas customers is \$0.0494 per therm, including New Jersey Sales and Use Tax ("SUT"). The Company has requested that the Board approve an increase of \$0.0011 per therm to the "EE Programs Established 2013-2018" component and an increase of \$0.0072 per therm to the "EE Triennium 1 Program component for a total increase of \$0.0083 per therm effective October 1, 2024. If approved, the after-tax EE charge will increase to \$0.0577 per therm, including SUT. The change results in an overall increase of \$0.83, or 0.6 percent, on a typical 100-therm residential bill.

	Present	Present	Proposed	Proposed
		(Incl. Sales and		(Incl. Sales and
		Use Tax)		Use Tax)
EE Programs Established	\$0.0232	\$0.0247	\$0.0242	\$0.0258
2013-2018				
EE Triennium 1	\$0.0232	\$0.0247	\$0.0299	\$0.0319
Total EE	\$0.0464	\$.0494	\$0.0541	\$0.0577

The proposed statewide charges for natural gas customers are as follows:

The impact of the Company's filing, requested to be effective on October 1, 2024, or as of the effective date of the final Board Order in this proceeding, on a typical residential customer (both heat and non-heat), a typical general service small customer and a typical general service large customer on a monthly basis is estimated to be as follows based on the usage levels shown below:

		To	tal Bill		
	Therm	Monthly Bill	Proposed		
	Level	as of	Monthly Bill as of	Net	Percent
Customer Type	(Usage)	May 1, 2024	October 1, 2024	Increase	Increase
Residential Heat Sales	100	\$150.04	\$150.87	\$0.83	0.6%
Residential Non-Heat					
Sales	25	\$44.43	\$44.64	\$0.21	0.5%
General Service Small	100	\$170.13	\$170.96	\$0.83	0.5%
General Service Large	1,200	\$1,645.40	\$1,655.36	\$9.96	0.6%

The Board has the statutory authority to establish the EE rate at levels it finds just and reasonable pursuant to *N.J.S.A.* 48:2-21. Therefore, the Board may establish the new rate at levels other than those proposed by NJNG and the impact on a customer's bill may vary from the information provided above.

PLEASE TAKE FURTHER NOTICE that due to the COVID-19 Pandemic, virtual public hearings will be conducted on the following date and times so that members of the public may present their views on the Company's filing.

VIRTUAL PUBLIC HEARINGS Date: August X, 2024 Hearing Times: 4:30 pm and 5:30 pm

LOCATION Zoom Virtual Webinar Join: https://us06web.zoom.us/j/2458136397?pwd=VUJpK1V0aDYxZDIIZUIwaElOWDFRZz09 Meeting ID: 245 813 6397 Passcode: 819208 Dial-In Number: +1 646 876 9923

Members of the public may present their views on the petition during the virtual public hearings by dialing the tollfree telephone number, followed by entering the listed passcode when prompted, or by joining the Zoom Virtual Webinar.

Representatives of the Company, Board Staff, and the New Jersey Division of Rate Counsel will participate in the virtual public hearings.

Members of the public are invited to participate and express their views on the Petition by utilizing the Zoom Virtual Webinar link or the Dial-In Number set forth above. All comments will become part of the final record in this proceeding to be considered by the Board. In order to encourage full participation in this opportunity for public comment, please submit any requests for accommodations, such as interpreters or listening assistance, 48 hours prior to the above hearing to the Board Secretary at <u>board.secretary@bpu.nj.gov</u>.

The Board is also accepting written and electronic comments. Comments may be submitted directly to the specific docket number listed above using the "Post Comments" button on the Board's Public Document Search tool at https://publicaccess.bpu.state.nj.us/. Comments are considered public documents for purposes of the State's Open Public Records Act. Only documents that are intended to be public should be submitted using the "Post Comments" button on the Board's Public Document Search tool. Any confidential information should be submitted in accordance with the procedures set forth in N.J.A.C. 14:1-12.3. In addition to hard copy submissions, confidential information may also be filed electronically via the Board's e-filing system or by email to the Secretary of the Board, Sherri L.Golden. Please include "Confidential Information" in the subject line of any email. Instructions for confidential effling are found on the Board's webpage at https://www.nj.gov/bpu/agenda/efiling/. Emailed and/or written comments may also be submitted to:

Sherri L. Golden, Secretary of the Board 44 South Clinton Ave., 1st Floor PO Box 350 Trenton, NJ 08625-0350 Phone: 609-913-6241 Email: board.secretary@bpu.nj.gov

- 1. For programs that provide incentives for conversion of energy utilization to natural gas from other energy sources (e.g., converting from electric to gas furnaces), please see the attached spreadsheet with the following information:
 - i. the number of such projects;
 - ii. an estimate of the increase in annual gas demand and energy associated with these projects; and
 - iii. the avoided use of electricity and/or other fuels.

Natural Gas Conversion Participation in SAVEGREEN Programs July 1, 2013 through June 30, 2015 (RGGI-3)

¹ - As a result of the integration between iEPM and Oracle during November 2022, the Intake Processors stopped entering Rebates for Heat and Hot Water into JDEdwards where the conversion code for oil, electric, and propane would have been captured. As of April 2024, those conversion fields have been made mandatory in iEPM in order to capture the conversion data.

- 1. In areas where gas and electric service territories overlap, the Company shall provide:
 - i. The number of projects in progress and completed.
 - a. For each project, identify which utility is the lead utility providing program services and the partner utility with whom the services were coordinated.

Please see the attached spreadsheet with the requested information.

Clean Tariff Sheets

Seventh Revised Sheet No. 51 Superseding Sixth Revised Sheet No. 51

SERVICE CLASSIFICATION - RS

RESIDENTIAL SERVICE

<u>AVAILABILITY</u>

This service is available to any residential Customer in the territory served by the Company using gas for any domestic purpose. This rate is applicable to individually-metered apartments and to rooming and boarding houses where the number of rental bedrooms is not more than twice the number of bedrooms used by the Customer.

Gas delivered under this schedule may not be used for other than domestic purposes except when such use is incidental to domestic use.

CHARACTER OF SERVICE

Firm gas service where Customer may either purchase gas supply from the Company's Rider "A" for Basic Gas Supply Service ("BGSS") or from a Third Party Supplier.

MONTHLY RATES

Customer Charge:

Customer Charge per meter per month	\$11.00
<u>Delivery Charge:</u>	
Residential Heating	
Delivery Charge per therm	\$0.9697
Residential Non-Heating	
Delivery Charge per therm	\$0.9164
BGSS Charge:	

BGSS Charge per therm for Sales Customers

See "Rate Summaries" at the end of this Tariff

These rates are inclusive of all applicable taxes and riders and are subject to adjustment for all other applicable riders, taxes, assessments or similar charges lawfully imposed by the Company. See Rate Summaries at the end of this Tariff for a summary of components incorporated in these rates.

Date of Issue:, 2024Issued by:Mark G. Kahrer, Senior Vice President
Wall, NJ 07719

Effective for service rendered on and after October 1, 2024

Filed pursuant to Order of the Board of Public Utilities entered in Docket No.

Seventh Revised Sheet No. 53 Superseding Sixth Revised Sheet No. 53

SERVICE CLASSIFICATION – DGR

DISTRIBUTED GENERATION SERVICE - RESIDENTIAL

AVAILABILITY

This service is available to any residential customer using distributed generation technologies including, but not limited to, microturbines and fuel cells to generate electricity for domestic purposes.

CHARACTER OF SERVICE

Firm gas service where Customer may either purchase gas supply from the Company's Rider "A" for Basic Gas Supply Service ("BGSS") or from a Third Party Supplier.

MONTHLY RATES

<u>Customer Charge:</u> Customer Charge per meter per month	\$11.00
<u>Delivery Charge:</u> November - April	\$0.4404
May - October	\$0.3871
<u>BGSS Charge:</u> BGSS Charge per therm for Sales Customers	See "Rate Summaries" at the end of this Tariff

These rates are inclusive of all applicable taxes and riders and are subject to adjustment for all other applicable riders, taxes, assessments or similar charges lawfully imposed by the Company. See Rate Summaries at the end of this Tariff for a summary of components incorporated in these rates.

<u>MINIMUM MONTHLY CHARGE</u>

The minimum monthly charge shall be the Customer Charge. Where service is taken for less than one month, the minimum charge will be prorated.

BALANCING CHARGE ADJUSTMENTS

The Balancing Charge is included in the Delivery Charge and is subject to adjustment in the Company's annual BGSS proceeding. All revenues derived from this Charge will be credited to the BGSS. See Rider "A" for the current Balancing Charge.

Seventh Revised Sheet No. 55 <u>Superseding Sixth Revised Sheet No. 55</u>

<u>SERVICE CLASSIFICATION – GSS</u>

GENERAL SERVICE - SMALL

AVAILABILITY

This service is available to any Customer in the entire territory served by the Company who uses less than 5,000 therms annually and uses gas for all purposes other than residential service and interruptible service. Where the Customer uses the Cooling, Air Conditioning and Pool Heating service ("CAC") under Special Provision I.2, the Company may, upon application by the Customer, meter the space heating and CAC use separately. Street Lighting Service also will be supplied under this schedule (Special Provision II.1).

CHARACTER OF SERVICE

Firm gas service where Customer may either purchase gas supply from the Company's Rider "A" for Basic Gas Supply Service ("BGSS") or from a Third Party Supplier.

MONTHLY RATES

<u>Customer Charge:</u> Customer Charge per meter per month	\$42.00
<i>Delivery Charge:</i> Delivery Charge per therm	\$0.8606
PCSS Charges	

BGSS Charge:

BGSS Charge per therm for Sales Customers

See "Rate Summaries" at the end of this Tariff

These rates are inclusive of all applicable taxes and riders and are subject to adjustment for all other applicable riders, taxes, assessments or similar charges lawfully imposed by the Company. See Rate Summaries at the end of this Tariff for a summary of components incorporated in these rates.

MINIMUM MONTHLY CHARGE

The minimum monthly charge shall be the Customer Charge.

Where service is taken for less than one month, the minimum charge will be prorated.

BALANCING CHARGE ADJUSTMENTS

The Balancing Charge is included in the Delivery Charge and is subject to adjustment in the Company's annual BGSS proceeding. All revenues derived from this Charge will be credited to the BGSS. See Rider "A" for the current Balancing Charge.

<u>SERVICE CLASSIFICATION - GSS</u>

GENERAL SERVICE - SMALL (continued)

SPECIAL PROVISIONS

I. Applicable to All Customers Under This Service Classification

1. Annual Review

The Company shall review, at least once a year, each GSS Customer's annual usage based on the most recent twelve (12) months of billing information to determine if the General Service – Large ("GSL") Service Classification is applicable to the Customer. If the Customer's normalized annual usage is greater than or equal to 5,500 therms, the customer will be switched to GSL prospectively.

2. Air Conditioning and Pool Heating

Upon separate application, GSS Customers who have installed and are using gas air conditioning and/or pool heating equipment will be billed on the above Monthly Rates and will be billed a credit of (\$0.4821) per therm for all monthly consumption of gas for services rendered between May 1 and September 30 of each year. This credit is the difference between the delivery charge for service rendered between May 1 and September 30 of each year under this Special Provision of \$0.3785 per therm, which includes \$0.1096 per therm margin, all appropriate riders, taxes, assessments and surcharges, and the delivery charge for Service Classification GSS.

Commercial Air Conditioning and Pool Heating ("CAC") customers will be separately metered, except, at the Company's sole discretion, existing Customers may use the same meter for their cooling, air conditioning or pool heating load and their space heating load as long as there is minimal base load during the period air conditioning rates are in effect.

Where a CAC Customer uses gas under this service classification in a direct-fired chiller/heater and the heating load is metered through the same meter as the cooling, air conditioning or pool heating load, and further, where the gas used for heating is billed separately, the GSS Customer Charge shall be waived, provided the Customer pays the Customer Charge under its heating service in all twelve (12) months of the year.

3. Veterans' Organization Service

Pursuant to N.J.S.A 48:2-21.41, when natural gas service is delivered to a customer that is a Veterans' Organization, serving the needs of veterans of the armed forces, the customer may apply and be eligible for billing under this Special Provision.

a. Each customer shall be eligible for billing under this Special Provision upon submitting an Application for Veterans' Organization Service under this Service Classification and by qualifying as a "Veterans' Organization" as defined by N.J.S.A. 48:2-21.41 as "an organization dedicated to serving the needs of veterans of the armed forces that: is chartered under federal law, qualifies as a tax exempt organization under paragraph (19) of subsection (c) of section 501 of the federal Internal Revenue Code of 1986, 26 U.S.C. s.501 (c)(19), or that is organized as a corporation under the 'New Jersey Nonprofit Corporation Act,' N.J.S.15A:1-1 et seq." Under N.J.S.A. 48: 2-21.41, a qualified Veterans' Organization shall be charged the residential rate for service delivered to the property where the Veterans' Organization primarily operates, if the residential rate is lower than the commercial rate for service at that property.

Wall, NJ 07719

Seventh Revised Sheet No. 57 Superseding Sixth Revised Sheet No. 57

SERVICE CLASSIFICATION - GSS

GENERAL SERVICE - SMALL (continued)

The Customer shall furnish satisfactory proof of eligibility of service under this Special Provision to the Company. Once proof of eligibility is determined by the Company, service under this Special Provision shall begin with the next billing cycle following receipt of the Application.

b. The Customer will continue to be billed on this Service Classification. At least once annually, the Company shall review eligible customers' Customer Charges and Delivery Charges under this Special Provision for all relevant periods. If the comparable Customer Charges and Delivery Charges under Service Classification Residential Service (RS) are lower than the charges under their current Service Classification, a credit in the amount of the difference will be applied to the Customer's next bill.

4. Metering

An Automated Meter Reading (AMR) device will not be required for this service. However, the Company reserves the right to install an AMR device at its own expense. Should the Company decide to install an AMR, the Customer shall furnish the necessary infrastructure to support the AMR, including, but not limited to, an electrical supply and phone line, or data plan, for the operation of the device, in an area acceptable to the Company.

When a remote meter reading device is requested by the Customer, it shall be installed at the Customer's expense if the installation is deemed feasible by the Company.

Should the Company decide to install an AMR or a Customer request an AMR, the installation shall be in accordance with Paragraph 6.10 of the Standard Terms and Conditions.

II. Applicable to All Customers Purchasing Gas Supply Under Rider "A" BGSS

1. Street Lighting Service

Street Lighting Service is not subject to Rider "I" of this Tariff. The delivery charge per therm for Street Lighting Service is \$0.8001 per therm.

III. Applicable to All Customers Purchasing Gas Supply from a Third Party Supplier

1. Additional Requirements

Service is subject to the terms and conditions of the Third Party Supplier Requirements section of this Tariff (Service Classification – TPS) and Section 10 of the Company's Standard Terms and Conditions.

TERMS AND CONDITIONS

Service is subject to the Company's Standard Terms and Conditions of this Tariff.

Date of Issue:, 2024Issued by:Mark G. Kahrer, Senior Vice PresidentWall, NJ 07719

Effective for service rendered on and after October 1, 2024

Seventh Revised Sheet No. 58 <u>Superseding Sixth Revised Sheet No. 58</u>

<u>SERVICE CLASSIFICATION - GSL</u>

GENERAL SERVICE - LARGE

AVAILABILITY

This service is available to any Customer in the entire territory served by the Company who uses greater than or equal to 5,000 therms annually and uses gas for all purposes other than residential service and interruptible service. Where the Customer uses the Cooling, Air Conditioning and Pool Heating service ("CAC") under Special Provision I.4, the Company may, upon application by the Customer, meter the space heating and CAC use separately.

CHARACTER OF SERVICE

Firm gas service where Customer may either purchase gas supply from the Company's Rider "A" for Basic Gas Supply Service ("BGSS") or from a Third Party Supplier.

MONTHLY RATES

<u>Customer Charge:</u> Customer Charge per meter per month	\$104.00
<i>Demand Charge:</i> Demand Charge per therm applied to HMAD	\$3.41
<u>Delivery Charge:</u> Delivery Charge per therm	\$0.6389
BGSS Charge:	

BGSS Charge per therm for Sales Customers

See "Rate Summaries" at the end of this Tariff

These rates are inclusive of all applicable taxes and riders and are subject to adjustment for all other applicable riders, taxes, assessments or similar charges lawfully imposed by the Company. See Rate Summaries at the end of this Tariff for a summary of components incorporated in these rates.

<u>MINIMUM MONTHLY CHARGE</u>

The minimum monthly charge shall be the Customer Charge and the Demand Charge.

Where service is taken for less than one month, the minimum charge will be prorated.

BALANCING CHARGE ADJUSTMENTS

The Balancing Charge is included in the Delivery Charge and is subject to adjustment in the Company's annual BGSS proceeding. All revenues derived from this Charge will be credited to the BGSS. See Rider "A" for the current Balancing Charge.

BPU No. 11 - Gas

Superseding Sixth Revised Sheet No. 59 SERVICE CLASSIFICATION - GSL

GENERAL SERVICE - LARGE (continued)

SPECIAL PROVISIONS

I. Applicable to All Customers in this Service Classification

1. Determination of Demand

The highest monthly average daily usage (HMAD) that occurs in any billing period will be used to calculate the Demand Charge. The HMAD shall be determined based upon the Customer's highest normalized average daily usage for a month in the most recent twenty-four (24) month period. Estimated data may be used when actual data is not available. At least once a year, the Company shall review and modify, if necessary, each GSL customer's HMAD based upon the most recent twenty-four (24) months of billing information. Any modification will be on a prospective basis. The Company reserves the right to determine the HMAD for any Customer by actually metering daily usage.

2. <u>Metering</u>

An Automated Meter Reading (AMR) device with daily meter reads will not be required for this service. However, the Company reserves the right to install an AMR if it believes such a device will provide a more accurate HMAD than the <u>Determination of Demand</u> set forth above. Should the Company decide to install an AMR, the Customer shall furnish the necessary infrastructure to support the AMR, including, but not limited to, an electrical supply and phone line, or data plan, for the operation of the device, in an area acceptable to the Company.

When a remote meter reading device is requested by the Customer, it shall be installed at the Customer's expense if the installation is deemed feasible by the Company.

Should the Company decide to install an AMR or a Customer request an AMR, the installation shall be in accordance with Paragraph 6.10 of the Standard Terms and Conditions.

3. Annual Review

The Company shall review, at least once a year, each GSL customer's annual usage based on the most recent twelve (12) months of billing information to determine if the General Service - Small ("GSS") Service Classification is applicable to the Customer. If the Customer's normalized annual usage is less than or equal to 4,500 therms, the Customer will be switched to GSS prospectively.

4. Air Conditioning and Pool Heating

Upon separate application, GSL Customers who have installed and are using gas air conditioning and/or pool heating equipment will be billed on the above Monthly Rates and will be billed a credit of (\$0.2604) per therm for all monthly consumption of gas for services rendered between May 1 and September 30 of each year. This credit is the difference between the delivery charge for service rendered between May 1 and September 30 of each year under this Special Provision of \$0.3785 per therm which includes \$0.1096 per therm margin, all appropriate riders, taxes, assessments and surcharges, and the delivery charge for Service Classification GSL.

Commercial Air Conditioning and Pool Heating ("CAC") Customers will be separately metered, except, at the Company's sole discretion, existing Customers may use the same meter for their cooling, air conditioning or pool heating load and their space heating load as long as there is minimal base load during the period air conditioning rates are in effect.

SERVICE CLASSIFICATION - FT

FIRM TRANSPORTATION SERVICE

AVAILABILITY

This service is available to any customer who would otherwise qualify for service under Service Classifications GSS, GSL, IS, or NGV. The Company may require the Customer to provide to the Company's satisfaction, proof of a firm gas supply having marketable title of gas with firm transportation capacity to the Company's distribution systems.

MONTHLY RATES

<u>Customer Charge:</u>	
Customer Charge per meter per month	\$350.00
Demand Charge:	
Demand Charge per therm applied to MDQ	\$2.50
Delivery Charge:	
Delivery Charge per therm	\$0.2213

These rates are inclusive of all applicable taxes and riders and are subject to adjustment for all other applicable riders, taxes, assessments or similar charges lawfully imposed by the Company. See Rate Summaries at the end of this Tariff for a summary of components incorporated in these rates.

MINIMUM MONTHLY CHARGE

The minimum monthly charge shall be the Customer Charge and the Demand Charge.

Where service is taken for less than one month, the minimum charge will be prorated.

SERVICE CLASSIFICATION - DGC

DISTRIBUTED GENERATION SERVICE - COMMERCIAL

<u>AVAILABILITY</u>

MONTHI V RATES

This service is available to any commercial customer using distributed generation technologies including, but not limited to, microturbines and fuel cells.

CONDITIONS PRECEDENT

If the Customer is served by a Third Party Supplier, the Third Party Supplier assumes the responsibility for all delivery requirements. The Company may require the Customer to provide, to the Company's satisfaction, proof of a firm gas supply having marketable title of gas with firm transportation capacity to the Company's distribution systems. The Customer is responsible for payment of any costs if additional facilities, exclusive of metering facilities, are necessary to provide service. The Company reserves the right to limit new customers served under this service, if it determines that service expansion is detrimental to existing firm customers. The Customer must demonstrate that qualifying electric generation equipment has been installed at its location.

<u>MONTHLI KATES</u>	DGC-Balancing	DGC-FT
<u>Customer Charge:</u> Customer Charge per meter per month	\$104.00	\$104.00

NATURAL GAS VEHICLE SERVICE

AVAILABILITY

This service is available to any residential or commercial customer for the purpose of fueling natural gas vehicles at Company owned and operated compressed natural gas ("CNG") re-fueling facilities ("Company facilities") and at separately metered Customer owned and operated CNG re-fueling facilities ("Customer owned facilities").

CONDITIONS PRECEDENT

The Customer must sign a service agreement which sets forth the vehicles to be served to be eligible for this service.

DEFINITION OF TERM USED HEREIN

"GGE" is the Gasoline Gallon Equivalent for converting a price per therm of natural gas to a price per gallon of gasoline. The GGE shall be determined in accordance with local standards.

CHARACTER OF SERVICE

Firm sales gas service where Customer who uses Company facilities purchases gas supply pursuant to the Company's Rider "A" for Basic Gas Supply Service ("BGSS"). Firm sales or transportation gas service where Customer who uses Customer owned facilities purchases gas supply pursuant to the Company's Rider "A" for BGSS or from a Third Party Supplier, respectively.

LICENSING, PERMITS AND LEGAL REQUIREMENTS

Customers installing CNG re-fueling facilities on their premises must meet all applicable licensing, permitting and other legal requirements associated with owning and operating CNG refueling facilities. The failure of the customer to comply with this provision may result in the Company suspending or terminating gas service to such facilities without further liability.

SERVICE CLASSIFICATION - CNG

COMPRESSED NATURAL GAS

AVAILABILITY

This service is available to any customer who would otherwise qualify for service under Service Classifications RS, GSS, GSL, FT, IS, or NGV and who will utilize natural gas for the purpose of fueling natural gas vehicles at Company owned compressed natural gas re-fueling facilities operated by the Customer on its property ("Host Customer").

Availability of this Service Classification is subject to the terms and conditions approved in BPU Docket No. GR11060361. This Service Classification is closed.

CONDITIONS PRECEDENT

The Host Customer must sign an Agreement with the Company. The Host Customer must provide assurance that it will use initially at least twenty (20) percent of the re-fueling facility's capacity. The Host Customer must agree to provide the general public with reasonable access to a re-fueling facility for purposes of fueling the general public's natural gas vehicles.

DEFINITION OF TERM USED HEREIN

"GGE" is the Gasoline Gallon Equivalent for converting a price per therm of natural gas to a price per gallon of gasoline. The GGE shall be determined in accordance with local standards.

CHARACTER OF SERVICE

Firm gas service where Host Customer may purchase gas supply pursuant to the Company's Rider "A" for Basic Gas Supply Service ("BGSS"), from the Company through a contract, or from a Third Party Supplier.

<u>RIDER "F"</u>

ENERGY EFFICIENCY - EE

AVAILABILITY

Applicable to the following service classifications:

RS	Residential Service	ED	Economic Development
DGR	Distributed Generation Residential	EGS	Electric Generation Service
GSS	General Service - Small	NGV	Natural Gas Vehicle
GSL	General Service - Large	IS	Interruptible Service
FT	Firm Transportation	IGS	Incremental Gas Service
DGC	Distributed Generation Commercial	CNG	Compressed Natural Gas

In accordance with P.L. 2011, c. 9, societal benefits charges pursuant to section 12 of P.L. 1999, c.23 (C.48:3-60), or any other charge designed to recover the costs for societal, energy efficiency, conservation, environmental or renewable energy programs, are not applicable to natural gas delivery service or commodity that is used to generate electricity that is sold for resale. Natural gas used to generate electricity that is sold for resale. Natural gas used to generate electricity that is sold for resale by customers served under the above Service Classifications is exempt from costs associated with the Energy Efficiency (*"EE"*) Rider and shall not be billed for such charges. In order to qualify for this exemption, a customer who uses natural gas to generate electricity for resale must complete an Annual Certification form, provided by the Company, to certify the percentage of natural gas used at the customer's New Jersey generation facilities during the previous calendar year to generate electricity that was sold for resale. For a new customer or a customer with less than twelve months of usage history, estimates supported by engineering and operational plans may be used to determine the percentage of natural gas used to generate electricity sold for resale.

The EE rate is for recovering authorized expenditures related to the energy-efficiency programs as approved in BPU Docket Nos. GO12070640, GO14121412, and GO18030355, collectively referred to as "Energy Efficiency Programs Established 2013-2018", and GO20090622 ("Triennium 1 Program").

DETERMINATION OF THE EE

The Company shall file an annual request with the Board for implementation of an EE charge, which shall be applicable to customers on all service classifications to which Rider "F" applies. The EE recovery year is intended to run from October 1st to September 30th of each year.

Date of Issue:, 2024Issued by:Mark G. Kahrer, Senior Vice President
Wall, NJ 07719

Fourth Revised Sheet No. 173 Superseding Third Revised Sheet No. 173

RIDER "F"

ENERGY EFFICIENCY – EE (continued)

I. Determination of the Rate

The EE rate shall have two components, an Energy Efficiency Programs 2013-2018 rate and a Triennium 1Program rate, which shall be derived in the following manner:

- 1. An estimate shall be made of the total annual cost related to the programs. This rider will include only expenses for energy-efficiency programs approved by the Board for Energy Efficiency Programs 2013-2018 and Triennium 1Program unless modified further by Board Order.
- 2. An estimate shall be made of the total annual volume of prospective jurisdictional sales of gas (in therms) to NJNG's sales and transportation customers.
- 3. The prospective costs for Energy Efficiency Programs 2013-2018 and Triennium 1 Program (per paragraph (1)) shall separately be adjusted upward or downward to the extent of the amount of any prior under-recovery or over-recovery to determine the total costs to be recovered and then shall be divided by the estimated total volume of prospective sales (per paragraph (2)), to determine the per unit cost recovery rate. The result shall be carried for four (4) decimal places.

II. Tracking the Operation of the EE

The Company shall calculate carrying costs on the average monthly balances of under-or over-recovery of deferred costs based upon the Company's monthly commercial paper rate. The carrying cost calculation shall be based on the net of tax beginning and end average monthly balance. The carrying costs shall accrue on a monthly basis and shall be rolled into the balance at the end of each EE recovery year.

In accordance with P.L., 1997 c. 162, the charges applicable under this Rider include provision for the New Jersey Sales and Use Tax ("SUT"), and when billed to customers exempt from this tax, as set forth in Rider "B", shall be reduced by the amount of such tax included therein.

The EE rate shall be credited/collected on a per therm basis within the Delivery Charge for all service classifications to which Rider "F" applies. The EE rate is as set forth below:

Energy Efficiency Programs Established 2013-2018	\$0.0258
Triennium 1 Program	\$0.0319
EE	<u>\$0.0577</u>

Customer, DEL, and BGS charges are presented on customer bills for Firm Sales Gas Service. Customer and DEL charges are presented on customer bills for Firm Transport Gas Service **Red-lined Tariff Sheets**

<u>SeventhSixth</u> Revised Sheet No. 51 Superseding SixthFifth Revised Sheet No. 51

SERVICE CLASSIFICATION - RS

RESIDENTIAL SERVICE

<u>AVAILABILITY</u>

This service is available to any residential Customer in the territory served by the Company using gas for any domestic purpose. This rate is applicable to individually-metered apartments and to rooming and boarding houses where the number of rental bedrooms is not more than twice the number of bedrooms used by the Customer.

Gas delivered under this schedule may not be used for other than domestic purposes except when such use is incidental to domestic use.

CHARACTER OF SERVICE

Firm gas service where Customer may either purchase gas supply from the Company's Rider "A" for Basic Gas Supply Service ("BGSS") or from a Third Party Supplier.

MONTHLY RATES

Customer Charge: \$11.00 Customer Charge per meter per month \$11.00 Delivery Charge: Vertice Residential Heating Vertice Delivery Charge per therm \$0.96149697 Residential Non-Heating Vertice Delivery Charge per therm \$0.90819164 BGSS Charge: Vertice

BGSS Charge per therm for Sales Customers

See "Rate Summaries" at the end of this Tariff

These rates are inclusive of all applicable taxes and riders and are subject to adjustment for all other applicable riders, taxes, assessments or similar charges lawfully imposed by the Company. See Rate Summaries at the end of this Tariff for a summary of components incorporated in these rates.

Date of Issue:March 25, 2024Issued by:Mark G. Kahrer, Senior Vice President2024Wall, NJ 07719

SERVICE CLASSIFICATION – DGR

DISTRIBUTED GENERATION SERVICE - RESIDENTIAL

<u>AVAILABILITY</u>

This service is available to any residential customer using distributed generation technologies including, but not limited to, microturbines and fuel cells to generate electricity for domestic purposes.

CHARACTER OF SERVICE

Firm gas service where Customer may either purchase gas supply from the Company's Rider "A" for Basic Gas Supply Service ("BGSS") or from a Third Party Supplier.

MONTHLY RATES

<u>Customer Charge:</u> Customer Charge per meter per month	\$11.00
<u>Delivery Charge:</u> November - April	\$0.4 <u>3214404</u>
May - October	\$0. 3788<u>3871</u>
<u>BGSS Charge:</u> BGSS Charge per therm for Sales Customers	See "Rate Summaries" at the end of this Tariff

These rates are inclusive of all applicable taxes and riders and are subject to adjustment for all other applicable riders, taxes, assessments or similar charges lawfully imposed by the Company. See Rate Summaries at the end of this Tariff for a summary of components incorporated in these rates.

<u>MINIMUM MONTHLY CHARGE</u>

The minimum monthly charge shall be the Customer Charge. Where service is taken for less than one month, the minimum charge will be prorated.

BALANCING CHARGE ADJUSTMENTS

The Balancing Charge is included in the Delivery Charge and is subject to adjustment in the Company's annual BGSS proceeding. All revenues derived from this Charge will be credited to the BGSS. See Rider "A" for the current Balancing Charge.

BPU No. 11 - Gas

<u>SeventhSixth</u> Revised Sheet No. 55 Superseding SixthFifth Revised Sheet No. 55

SERVICE CLASSIFICATION – GSS

GENERAL SERVICE - SMALL

AVAILABILITY

This service is available to any Customer in the entire territory served by the Company who uses less than 5,000 therms annually and uses gas for all purposes other than residential service and interruptible service. Where the Customer uses the Cooling, Air Conditioning and Pool Heating service ("CAC") under Special Provision I.2, the Company may, upon application by the Customer, meter the space heating and CAC use separately. Street Lighting Service also will be supplied under this schedule (Special Provision II.1).

CHARACTER OF SERVICE

Firm gas service where Customer may either purchase gas supply from the Company's Rider "A" for Basic Gas Supply Service ("BGSS") or from a Third Party Supplier.

MONTHLY RATES

BGSS Charge:

Customer Charge: Customer Charge per meter per month

Delivery Charge:

Delivery Charge per therm

See "Rate Summaries" at the end of this Tariff

\$42.00

\$0.85238606

These rates are inclusive of all applicable taxes and riders and are subject to adjustment for all other applicable riders, taxes, assessments or similar charges lawfully imposed by the Company. See Rate Summaries at the end of this Tariff for a summary of components incorporated in these rates.

<u>MINIMUM MONTHLY CHARGE</u>

The minimum monthly charge shall be the Customer Charge.

BGSS Charge per therm for Sales Customers

Where service is taken for less than one month, the minimum charge will be prorated.

BALANCING CHARGE ADJUSTMENTS

The Balancing Charge is included in the Delivery Charge and is subject to adjustment in the Company's annual BGSS proceeding. All revenues derived from this Charge will be credited to the BGSS. See Rider "A" for the current Balancing Charge.

Effective for service rendered on and after **April** October 1,

<u>SERVICE CLASSIFICATION - GSS</u>

GENERAL SERVICE - SMALL (continued)

SPECIAL PROVISIONS

I. Applicable to All Customers Under This Service Classification

1. Annual Review

The Company shall review, at least once a year, each GSS Customer's annual usage based on the most recent twelve (12) months of billing information to determine if the General Service – Large ("GSL") Service Classification is applicable to the Customer. If the Customer's normalized annual usage is greater than or equal to 5,500 therms, the customer will be switched to GSL prospectively.

2. Air Conditioning and Pool Heating

Upon separate application, GSS Customers who have installed and are using gas air conditioning and/or pool heating equipment will be billed on the above Monthly Rates and will be billed a credit of (\$0.4821) per therm for all monthly consumption of gas for services rendered between May 1 and September 30 of each year. This credit is the difference between the delivery charge for service rendered between May 1 and September 30 of each year under this Special Provision of \$0.378502 per therm, which includes \$0.1096 per therm margin, all appropriate riders, taxes, assessments and surcharges, and the delivery charge for Service Classification GSS.

Commercial Air Conditioning and Pool Heating ("CAC") customers will be separately metered, except, at the Company's sole discretion, existing Customers may use the same meter for their cooling, air conditioning or pool heating load and their space heating load as long as there is minimal base load during the period air conditioning rates are in effect.

Where a CAC Customer uses gas under this service classification in a direct-fired chiller/heater and the heating load is metered through the same meter as the cooling, air conditioning or pool heating load, and further, where the gas used for heating is billed separately, the GSS Customer Charge shall be waived, provided the Customer pays the Customer Charge under its heating service in all twelve (12) months of the year.

3. Veterans' Organization Service

Pursuant to N.J.S.A 48:2-21.41, when natural gas service is delivered to a customer that is a Veterans' Organization, serving the needs of veterans of the armed forces, the customer may apply and be eligible for billing under this Special Provision.

a. Each customer shall be eligible for billing under this Special Provision upon submitting an Application for Veterans' Organization Service under this Service Classification and by qualifying as a "Veterans' Organization" as defined by N.J.S.A. 48:2-21.41 as "an organization dedicated to serving the needs of veterans of the armed forces that: is chartered under federal law, qualifies as a tax exempt organization under paragraph (19) of subsection (c) of section 501 of the federal Internal Revenue Code of 1986, 26 U.S.C. s.501 (c)(19), or that is organized as a corporation under the 'New Jersey Nonprofit Corporation Act,' N.J.S.15A:1-1 et seq." Under N.J.S.A. 48: 2-21.41, a qualified Veterans' Organization shall be charged the residential rate for service delivered to the property where the Veterans' Organization primarily operates, if the residential rate is lower than the commercial rate for service at that property.

<u>Seventh</u>Sixth Revised Sheet No. 57 Superseding SixthFifth Revised Sheet No. 57

SERVICE CLASSIFICATION - GSS

GENERAL SERVICE - SMALL (continued)

The Customer shall furnish satisfactory proof of eligibility of service under this Special Provision to the Company. Once proof of eligibility is determined by the Company, service under this Special Provision shall begin with the next billing cycle following receipt of the Application.

b. The Customer will continue to be billed on this Service Classification. At least once annually, the Company shall review eligible customers' Customer Charges and Delivery Charges under this Special Provision for all relevant periods. If the comparable Customer Charges and Delivery Charges under Service Classification Residential Service (RS) are lower than the charges under their current Service Classification, a credit in the amount of the difference will be applied to the Customer's next bill.

4. Metering

An Automated Meter Reading (AMR) device will not be required for this service. However, the Company reserves the right to install an AMR device at its own expense. Should the Company decide to install an AMR, the Customer shall furnish the necessary infrastructure to support the AMR, including, but not limited to, an electrical supply and phone line, or data plan, for the operation of the device, in an area acceptable to the Company.

When a remote meter reading device is requested by the Customer, it shall be installed at the Customer's expense if the installation is deemed feasible by the Company.

Should the Company decide to install an AMR or a Customer request an AMR, the installation shall be in accordance with Paragraph 6.10 of the Standard Terms and Conditions.

II. Applicable to All Customers Purchasing Gas Supply Under Rider "A" BGSS

1. Street Lighting Service

Street Lighting Service is not subject to Rider "I" of this Tariff. The delivery charge per therm for Street Lighting Service is \$0.79188001 per therm.

III. Applicable to All Customers Purchasing Gas Supply from a Third Party Supplier

1. Additional Requirements

Service is subject to the terms and conditions of the Third Party Supplier Requirements section of this Tariff (Service Classification – TPS) and Section 10 of the Company's Standard Terms and Conditions.

TERMS AND CONDITIONS

Service is subject to the Company's Standard Terms and Conditions of this Tariff.

NEW JERSEY NATURAL GAS COMPANY

<u>BPU No. 11 - Gas</u>

<u>SeventhSixth</u> Revised Sheet No. 58 Superseding SixthFifth Revised Sheet No. 58

SERVICE CLASSIFICATION - GSL

GENERAL SERVICE - LARGE

AVAILABILITY

This service is available to any Customer in the entire territory served by the Company who uses greater than or equal to 5,000 therms annually and uses gas for all purposes other than residential service and interruptible service. Where the Customer uses the Cooling, Air Conditioning and Pool Heating service ("CAC") under Special Provision I.4, the Company may, upon application by the Customer, meter the space heating and CAC use separately.

CHARACTER OF SERVICE

Firm gas service where Customer may either purchase gas supply from the Company's Rider "A" for Basic Gas Supply Service ("BGSS") or from a Third Party Supplier.

MONTHLY RATES

<u>Customer Charge:</u> Customer Charge per meter per month	\$104.00
<u>Demand Charge:</u> Demand Charge per therm applied to HMAD	\$3.41
<u>Delivery Charge:</u> Delivery Charge per therm	\$0. <u>63066389</u>
BGSS Charge:	

BGSS Charge per therm for Sales Customers

See "Rate Summaries" at the end of this Tariff

These rates are inclusive of all applicable taxes and riders and are subject to adjustment for all other applicable riders, taxes, assessments or similar charges lawfully imposed by the Company. See Rate Summaries at the end of this Tariff for a summary of components incorporated in these rates.

<u>MINIMUM MONTHLY CHARGE</u>

The minimum monthly charge shall be the Customer Charge and the Demand Charge.

Where service is taken for less than one month, the minimum charge will be prorated.

BALANCING CHARGE ADJUSTMENTS

The Balancing Charge is included in the Delivery Charge and is subject to adjustment in the Company's annual BGSS proceeding. All revenues derived from this Charge will be credited to the BGSS. See Rider "A" for the current Balancing Charge.

BPU No. 11 - Gas

<u>Superseding SixthFifth</u> Revised Sheet No. 59 SERVICE CLASSIFICATION - GSL

GENERAL SERVICE - LARGE (continued)

SPECIAL PROVISIONS

I. Applicable to All Customers in this Service Classification

1. Determination of Demand

The highest monthly average daily usage (HMAD) that occurs in any billing period will be used to calculate the Demand Charge. The HMAD shall be determined based upon the Customer's highest normalized average daily usage for a month in the most recent twenty-four (24) month period. Estimated data may be used when actual data is not available. At least once a year, the Company shall review and modify, if necessary, each GSL customer's HMAD based upon the most recent twenty-four (24) months of billing information. Any modification will be on a prospective basis. The Company reserves the right to determine the HMAD for any Customer by actually metering daily usage.

2. <u>Metering</u>

An Automated Meter Reading (AMR) device with daily meter reads will not be required for this service. However, the Company reserves the right to install an AMR if it believes such a device will provide a more accurate HMAD than the <u>Determination of Demand</u> set forth above. Should the Company decide to install an AMR, the Customer shall furnish the necessary infrastructure to support the AMR, including, but not limited to, an electrical supply and phone line, or data plan, for the operation of the device, in an area acceptable to the Company.

When a remote meter reading device is requested by the Customer, it shall be installed at the Customer's expense if the installation is deemed feasible by the Company.

Should the Company decide to install an AMR or a Customer request an AMR, the installation shall be in accordance with Paragraph 6.10 of the Standard Terms and Conditions.

3. Annual Review

The Company shall review, at least once a year, each GSL customer's annual usage based on the most recent twelve (12) months of billing information to determine if the General Service - Small ("GSS") Service Classification is applicable to the Customer. If the Customer's normalized annual usage is less than or equal to 4,500 therms, the Customer will be switched to GSS prospectively.

4. Air Conditioning and Pool Heating

Upon separate application, GSL Customers who have installed and are using gas air conditioning and/or pool heating equipment will be billed on the above Monthly Rates and will be billed a credit of (\$0.2604) per therm for all monthly consumption of gas for services rendered between May 1 and September 30 of each year. This credit is the difference between the delivery charge for service rendered between May 1 and September 30 of each year under this Special Provision of \$0.378502 per therm which includes \$0.1096 per therm margin, all appropriate riders, taxes, assessments and surcharges, and the delivery charge for Service Classification GSL.

Commercial Air Conditioning and Pool Heating ("CAC") Customers will be separately metered, except, at the Company's sole discretion, existing Customers may use the same meter for their cooling, air conditioning or pool heating load and their space heating load as long as there is minimal base load during the period air conditioning rates are in effect.

NATURAL GAS VEHICLE SERVICE

AVAILABILITY

This service is available to any residential or commercial customer for the purpose of fueling natural gas vehicles at Company owned and operated compressed natural gas ("CNG") re-fueling facilities ("Company facilities") and at separately metered Customer owned and operated CNG re-fueling facilities ("Customer owned facilities").

CONDITIONS PRECEDENT

The Customer must sign a service agreement which sets forth the vehicles to be served to be eligible for this service.

<u>DEFINITION OF TERM USED HEREIN</u>

"GGE" is the Gasoline Gallon Equivalent for converting a price per therm of natural gas to a price per gallon of gasoline. The GGE shall be determined in accordance with local standards.

CHARACTER OF SERVICE

Firm sales gas service where Customer who uses Company facilities purchases gas supply pursuant to the Company's Rider "A" for Basic Gas Supply Service ("BGSS"). Firm sales or transportation gas service where Customer who uses Customer owned facilities purchases gas supply pursuant to the Company's Rider "A" for BGSS or from a Third Party Supplier, respectively.

LICENSING, PERMITS AND LEGAL REQUIREMENTS

Customers installing CNG re-fueling facilities on their premises must meet all applicable licensing, permitting and other legal requirements associated with owning and operating CNG refueling facilities. The failure of the customer to comply with this provision may result in the Company suspending or terminating gas service to such facilities without further liability.

GSL	General Service - Large	IS	Interruptible Service
FT	Firm Transportation	IGS	Incremental Gas Service
DGC	Distributed Generation Commercial	CNG	Compressed Natural Gas

In accordance with P.L. 2011, c. 9, societal benefits charges pursuant to section 12 of P.L. 1999, c.23 (C.48:3-60), or any other charge designed to recover the costs for societal, energy efficiency, conservation, environmental or renewable energy programs, are not applicable to natural gas delivery service or commodity that is used to generate electricity that is sold for resale. Natural gas used to generate electricity that is sold for resale by customers served under the above Service Classifications is exempt from costs associated with the Energy Efficiency ("EE") Rider and shall not be billed for such charges. In order to qualify for this exemption, a customer who uses natural gas to generate electricity for resale must complete an Annual Certification form, provided by the Company, to certify the percentage of natural gas used at the customer's New Jersey generation facilities during the previous calendar year to generate electricity that was sold for resale. For a new customer or a customer with less than twelve months of usage history, estimates supported by engineering and operational plans may be used to determine the percentage of natural gas used to generate electricity sold for resale.

The EE rate is for recovering authorized expenditures related to the energy-efficiency programs as approved in BPU Docket Nos. GO10030225, GR11070425, GO12070640, GO14121412, and GO18030355, collectively referred to as "Energy Efficiency Programs Established 20130-2018", and GO20090622 ("Triennium 1Energy Efficiency Programs Established 2021-Present").

DETERMINATION OF THE EE

The Company shall file an annual request with the Board for implementation of an EE charge, which shall be applicable to customers on all service classifications to which Rider "F" applies. The EE recovery year is intended to run from October 1st to September 30th of each year.

Date of Issue: November 18, 20241 Issued by: Mark G. Kahrer, Senior Vice President 1, 202<mark>4</mark>

<u>Fourth</u>Third Revised Sheet No. 173 <u>Superseding ThirdSecond</u> Revised Sheet No. 173

<u>RIDER "F"</u>

ENERGY EFFICIENCY – EE (continued)

I. Determination of the Rate

The EE rate shall have two components, an Energy Efficiency Programs 201<u>30</u>-2018 rate and an <u>Triennium</u> <u>1Energy Efficiency</u> Programs Established 2021 Present rate, which shall be derived in the following manner:

- An estimate shall be made of the total annual cost related to the programs. This rider will include only expenses for energy-efficiency programs approved by the Board for Energy Efficiency Programs 201<u>3</u>0-2018 and <u>Triennium 1</u>Energy Efficiency-Programs Established 2021-Present unless modified further by Board Order.
- 2. An estimate shall be made of the total annual volume of prospective jurisdictional sales of gas (in therms) to NJNG's sales and transportation customers.
- 3. The prospective costs for Energy Efficiency Programs 201<u>30</u>-2018 and Energy Efficiency Triennium 1 Programs Established 2021 Present (per paragraph (1)) shall separately be adjusted upward or downward to the extent of the amount of any prior under-recovery or over-recovery to determine the total costs to be recovered and then shall be divided by the estimated total volume of prospective sales (per paragraph (2)), to determine the per unit cost recovery rate. The result shall be carried for four (4) decimal places.

II. Tracking the Operation of the EE

The Company shall calculate carrying costs on the average monthly balances of under-or over-recovery of deferred costs based upon the Company's monthly commercial paper rate. The carrying cost calculation shall be based on the net of tax beginning and end average monthly balance. The carrying costs shall accrue on a monthly basis and shall be rolled into the balance at the end of each EE recovery year.

In accordance with P.L., 1997 c. 162, the charges applicable under this Rider include provision for the New Jersey Sales and Use Tax ("SUT"), and when billed to customers exempt from this tax, as set forth in Rider "B", shall be reduced by the amount of such tax included therein.

The EE rate shall be credited/collected on a per therm basis within the Delivery Charge for all service classifications to which Rider "F" applies. The EE rate is as set forth below:
