Trenton, NJ 08625-0350

Re: IN THE MATTER OF THE PETITION OF NEW JERSEY NATURAL GAS
COMPANY FOR THE ANNUAL REVIEW AND REVISION OF SOCIETAL
BENEFITS CHARGE FACTORS FOR REMEDIATION YEAR 2024
BPU Docket No. GR24090772

Dear Secretary Golden:

Enclosed herewith for filing, please find the petition of New Jersey Natural Gas Company ("NJNG") for the Annual Review and Revision of its Societal Benefits Charge ("SBC") Factors.

In accordance with the Order issued by the Board in connection with I/M/O the New Jersey Board of Public Utilities' Response to the COVID-19 Pandemic for a Temporary Waiver of Requirements for Certain Non-Essential Obligations, BPU Docket No. EO20030254, Order dated March 19, 2020, this document is being electronically filed. No paper copies will follow.

Copies of this Petition, including the supporting exhibits and testimonies, also are being served electronically upon the New Jersey Division of Rate Counsel and the Division of Law.

Kindly acknowledge receipt of this filing via return email.

Respectfully submitted,

A handwritten signature in blue ink that reads 'Andrew K. Dembia'. The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.

Andrew K. Dembia
Regulatory Affairs Counsel

**STATE OF NEW JERSEY
BOARD OF PUBLIC UTILITIES**

IN THE MATTER OF THE PETITION)	
OF NEW JERSEY NATURAL GAS)	PETITION
COMPANY FOR THE ANNUAL REVIEW)	
AND REVISION OF SOCIETAL BENEFITS)	BPU DOCKET NO. GR24090772
CHARGE FACTORS FOR)	
REMEDATION YEAR 2024)	

**TO: THE HONORABLE COMMISSIONERS OF
THE NEW JERSEY BOARD OF PUBLIC UTILITIES**

New Jersey Natural Gas Company (“Petitioner”, “NJNG” or the “Company”) hereby requests that the New Jersey Board of Public Utilities (the “Board” or “BPU”) approve, pursuant to N.J.S.A. 48:2-21, the Company’s filing related to its Societal Benefits Charge (“SBC”) factors. The factors included in this filing are the Remediation Adjustment (“RA”) rate and the New Jersey Clean Energy Program (“NJCEP”) rate. The Company is requesting in this filing that the Board: (1) increase the Company’s per therm after-tax RA rate; (2) increase the NJCEP per therm after-tax rate; and (3) approve the remediation expenditures incurred by the Company through June 30, 2024 (“Remediation Year 2024”), to be effective April 1, 2025, or as of the effective date of the Board Order in this proceeding.

1. Petitioner is a corporation duly organized under the laws of the State of New Jersey and is a public utility engaged in the sale, distribution and transportation of natural gas subject to the jurisdiction of the Board. Petitioner's principal business office is located at 1415 Wyckoff Road, Wall, New Jersey 07719.

2. Communications and correspondence relating to this Petition should be sent to:

Mark G. Kahrer, Senior Vice President - Regulatory Affairs
Andrew K. Dembia, Esq., Regulatory Affairs Counsel
New Jersey Natural Gas Company
1415 Wyckoff Road, P.O. Box 1464
Wall, New Jersey 07719

MKahrer@njng.com
ADembia@njng.com

3. The SBC was established within the Electric Discount and Energy Competition Act (“EDECA”), N.J.S.A. 48:3-49 et seq., for the recovery by natural gas and electric utilities of costs associated with Manufactured Gas Plant (“MGP”) remediation, consumer education, assistance to low-income customers including the USF, and renewable and energy-efficiency programs now provided through the NJCEP.

4. Pursuant to a Board Order dated March 30, 2001, approving the Stipulation in Docket Nos. GX99030121 and GO99030123 (the “Unbundling Order”), NJNG received approval to implement and assess an SBC as a non-by-passable charge applicable to the Company’s customers.¹

5. This Petition (Exh. P-1) is accompanied and supported by the following Pre-filed Direct Testimonies and Exhibits that are attached hereto and made part of this Petition:

Exh. P-2 Direct Testimony of William Lindner – Director, Environmental Services – Remediation Activities

Exh. P-3 Direct Testimony of Marianne Harrell – Manager, Rates and Tariff – Proposed Revenue Increases for the RA and NJCEP factors

Exh. P-4 Redlined NJNG Gas Service Tariff sheets

Exh. P-5 SBC rate impacts on NJNG's customers

Exh. P-6 Proposed form of Public Notice

¹ Pursuant to legislation signed into law on January 28, 2011, N.J.S.A. 48:3-60.1, natural gas commodity and delivery service charges for natural gas that is used to generate electricity for resale are not to include SBC charges.

Additional information responsive to the fifteen (15) minimum filing requirements (“MFRs”) for RA filings, approved by the BPU in Docket No. GR04121565, will be provided at a later date under separate cover.

6. As part of the settlement of the Company’s base rate case in BPU Docket No. GR91081383J, and subsequently approved in the Unbundling Order noted above, the Board approved and established the RA clause as the cost recovery method by which the Company is permitted to recover its actual Remediation Costs, on a deferred basis, over a rolling-seven year period. Remediation Costs include all investigation, testing, land acquisition if appropriate, remediation and/or litigation costs and expenses, and other liabilities specifically relating to MGP facility sites, disposal sites, or sites to which material may have migrated, as a result of the earlier operation or decommissioning of MGP sites.

7. On June 27, 2024, in BPU Docket No. QO24040223, the Board established each utility’s level of expenditures for the statewide NJCEP for July 2024 through June 2025. NJNG’s annual funding obligation is approximately \$20.05 million.

8. The Company proposes to increase the current after-tax per therm RA rate of \$0.0262 to \$0.0296 as well as the current after-tax per therm NJCEP rate of \$0.0325 to \$0.0348. The combined increase of \$0.0057 will increase the overall bill of the average residential sales heating customer using 80.1 therms per month by \$0.46, or 0.37%. A typical residential sales heating customer using 100 therms per month will see an increase of \$0.57, or 0.38%.

9. The Company also requests the approval of the remediation expenditures incurred by the Company for Remediation Year 2024. The Company requests these rates and expenditures be approved effective April 1, 2025, or as of the effective date of the Board Order in this proceeding.

10. Due to the COVID-19 Pandemic, NJNG has electronically served notice and a copy of this filing, together with a copy of the annexed exhibits and supporting schedules being filed herewith, upon the New Jersey Division of Rate Counsel and the Department of Law and Public Safety. Copies of this Petition and supporting exhibits and schedules will also be sent electronically to the persons identified on the service list provided with this filing. Moreover, copies of the Company's filing will be available on the Company's website at: www.njng.com.

WHEREFORE, NJNG respectfully requests that the Board:

1. Approve as of April 1, 2025, or as of the effective date of the Board Order in this proceeding, NJNG's request to increase its RA Factor;
2. Approve as of April 1, 2025, or as of the effective date of the Board Order in this proceeding, NJNG's request to increase its NJCEP Factor;
3. Approve Remediation Year 2024 costs through June 30, 2024 as just and reasonable;
4. Grant final approval of the Company's proposals included in this Petition; and
5. Grant such other relief, as the Board deems just, reasonable and necessary.

Respectfully submitted,

NEW JERSEY NATURAL GAS COMPANY

By: 

Andrew K. Dembia, Esq.

VERIFICATION

MARK G. KAHRER of full age, being duly sworn according to law, on his oath
deposes and says:

1. I am Senior Vice President, Regulatory Affairs for New Jersey Natural Gas Company,
the Petitioner in the foregoing Petition.

2. I have read the annexed Petition, along with the Schedules and Exhibits attached
thereto, and the matters and things contained therein are true to the best of my knowledge and belief.

Mark G. Kahrer
Senior Vice President, Regulatory Affairs

Sworn and subscribed to
before me this 30th day
of September 2024

ANDREW K. DEMBIA, Esq.
ATTORNEY AT LAW
STATE OF NEW JERSEY

NEW JERSEY NATURAL GAS COMPANY

**DIRECT TESTIMONY OF WILLIAM LINDNER DIRECTOR OF
ENVIRONMENTAL SERVICES**

1 **Q. PLEASE STATE YOUR NAME, CURRENT POSITION AND BUSINESS**
2 **ADDRESS.**

3 **A.** My name is William Lindner. I am the Director - Environmental Services (“ES”)
4 for New Jersey Natural Gas Company (“NJNG” or the “Company”). My business
5 address is 1415 Wyckoff Road, Wall, New Jersey 07719.

6 **Q. PLEASE DESCRIBE YOUR EDUCATION AND BUSINESS EXPERIENCE.**

7 **A.** I have a Bachelor’s degree in Geology from Rutgers University. I have a Master’s
8 degree in Environmental Policy from NJIT. In February 2023, I was hired by NJNG
9 as the Director of Environmental Services. Prior to that, I worked for 33 years at
10 the New Jersey Department of Environmental Protection (“NJDEP”). I worked for
11 17 years (1990 -2007) as a contaminant hydrogeologist within the Site Remediation
12 program. I oversaw the remediation of many types of contaminated sites,
13 including: Two Texas Eastern Gas Pipeline Compressor Stations and various
14 associated valve stations, PSE&G coal gas sites, Superfund Sites and hundreds of
15 other contaminated sites throughout NJ. In 2008, I became a project manager in the
16 Office of Brownfield Reuse where I oversaw the remediation and redevelopment
17 of several Brownfield Development Areas (BDAs) throughout the state. In 2013, I
18 was selected by the Deputy Commissioner to oversee a team of 25 DEP staff
19 reassigned to Superstorm Sandy Recovery. My team reviewed 18,000
20 Reconstruction, Rehabilitation, Elevation and Mitigation (RREM) Program

1 applications from homeowners and small businesses which allowed them to
2 proceed in reconstruction. In 2016, I returned to the newly named Office of
3 Brownfield and Community Revitalization and became the Administrator of the
4 Office before leaving NJDEP in 2023 to work at NJNG.

5 **Q. WHAT ARE YOUR PRIMARY DUTIES AND RESPONSIBILITIES AS**
6 **NJNG'S DIRECTOR OF ENVIRONMENTAL SERVICES?**

7 **A.** As the Director of Environmental Services for NJNG, I develop department
8 initiatives and strategies in support of corporate policies to ensure that the Company
9 is aligned with its commitment to environmental responsibility. I provide
10 leadership and direction to my staff to implement and oversee environmental
11 programs, properly manage the remediation of NJNG manufactured gas plant
12 ("MGP") sites, and to comply with all applicable State, Federal and local
13 environmental laws, regulations, and guidance. I develop and manage my
14 department's operating budget, which includes ongoing remedial activities at each
15 of the Company's former MGP sites and oversee the preparation of environmental
16 liability cost estimates for external reporting purposes. On behalf of the Company,
17 I participate as a member of trade organizations and discussion forums focused on
18 work related to NJNG operations, and I develop and maintain relationships with
19 state regulators and local stakeholders to establish good working relationships
20 relative to the remediation of the Company's MGP sites. I also negotiate contracts
21 for necessary services, and work with the Legal and Purchasing departments to
22 ensure contracts are properly written, cost effective, protective of the Company,
23 and appropriately executed.

1 **Q. HAVE YOU TESTIFIED PREVIOUSLY IN REGULATORY**
2 **PROCEEDINGS?**

3 **A.** No.

4 **Q. WHAT IS THE PURPOSE OF YOUR TESTIMONY IN THIS**
5 **PROCEEDING?**

6 **A.** The purpose of my testimony is to: (1) provide a general overview of the
7 Company's on-going MGP remediation program; (2) identify and describe the
8 general nature and categories of expenses incurred by the Company through June
9 30, 2024 ("Remediation Year 2024"); and (3) provide a brief history of the
10 Company's former MGP sites and report on key developments relating to ongoing
11 remediation activities at those sites.

THE COMPANY'S MGP REMEDIATION PROGRAM

Q. PLEASE EXPLAIN THE NJDEP'S ROLE IN MGP SITE REMEDIATION.

A. The enactment of the Site Remediation Reform Act ("SRRA") in 2009 established the LSRP program, which transferred the primary oversight responsibility for environmental investigations and cleanups from the NJDEP to LSRPs. An LSRP is an experienced, private-sector environmental professional, licensed by the State of New Jersey and hired by Responsible Parties ("RPs") to direct and oversee environmental investigations and remedial actions in accordance with applicable NJ regulations and guidance. The SRRA also established a 26-point code of conduct for LSRPs, with the highest priority being protection of public health, safety, and the environment. The 13-member Site Remediation Professional Licensing Board oversees the issuance of licenses and monitors the conduct and performance of LSRPs.

Regarding the remediation of the Company's MGP sites (i.e., Aberdeen, Atlantic Highlands, Berkley, Freehold, Long Branch, Manchester, and Toms River), LSRPs oversee all phases of site remediation at all NJNG's MGP sites and ensure the work is conducted in accordance with applicable NJDEP regulations and guidance. When all remedial obligations have been met, the LSRP will issue the final remediation document for the site known as a "Response Action Outcome" ("RAO"). Once issued, the NJDEP has three years to audit the LSRP's work. If during this audit the RAO is determined to be deficient in protecting human health and the environment, the NJDEP may invalidate the document; otherwise, the RAO is considered final upon issuance.

1 **Q. PLEASE DESCRIBE THE COMPANY’S MGP REMEDIATION**
2 **STRATEGY AND YOUR SPECIFIC ROLE IN EFFECTIVELY**
3 **IMPLEMENTING THAT STRATEGY.**

4 **A.** The Company’s focus is the protection of human health and the environment.
5 NJNG’s remediation strategy includes conventional and innovative engineering
6 approaches and business solutions to cost-effectively investigate, remediate and
7 manage long-term environmental liabilities at the Company’s former MGP
8 properties. NJNG is committed to ensuring that expenditures are for remediating
9 MGP-related impact only and not associated with non-MGP related contamination,
10 such as vehicle exhaust, industrial air emissions, discharges from other properties
11 and storm water runoff. As part of this approach, the Company seeks to separate
12 MGP related soil/sediment impacts from non-MGP impacts to avoid the cost of
13 remediating contamination from unrelated sources.

14 I am responsible for overseeing all aspects of the Company’s MGP remediation
15 program, which includes former MGP sites, disposal sites, or sites to which MGP
16 material may have migrated as a result of the operation or decommissioning of the
17 MGP facilities (“Remediation Costs”). I ensure compliance with all applicable
18 State, Federal and local environmental regulations. I track and monitor costs,
19 including, but not limited to, costs associated with remedial investigations, testing,
20 land acquisition, remedial action and/or other liabilities. I secure the necessary
21 resources to ensure the MGP remediation program functions effectively and direct
22 the work of my staff to encourage remedial progress.

THE GENERAL NATURE AND CATEGORIES OF REMEDIATION COSTS

Q. PLEASE DESCRIBE THE NATURE AND CATEGORIES OF THE REMEDIATION COSTS THE COMPANY INCURRED DURING REMEDIATION YEAR 2024 IN CONNECTION WITH IMPLEMENTING AND MANAGING ITS MGP PROGRAM.

A. The costs the Company incurred to implement and manage its MGP program during Remediation Year 2024 primarily included the following: outside consulting and engineering services; outside legal services; community outreach; analytical laboratory work; construction services (including construction management); health and safety activities; air monitoring and soil sampling; a variety of ancillary support services; and incremental internal labor directly associated with MGP activities. Third-party services provided to the Company in connection with MGP-related activities (such as project management and engineering support services, and contractors who provide physical remediation services) are competitively bid through NJNG's contractor procurement procedures.

BACKGROUND AND CURRENT STATUS OF REMEDIATION EFFORTS

AT NJNG's MGP SITES

Q. PLEASE PROVIDE A BRIEF BACKGROUND OF THE ATLANTIC HIGHLANDS SITE.

A. The Atlantic Highlands site was first occupied in 1910 by the Atlantic Highlands Gas Company ("AHGC"). In 1913, AHGC was merged with and consolidated into Standard Gas Company ("SGC"), which had previously acquired the assets of the Matawan & Keyport Gas Light Co. (a.k.a. Aberdeen) in 1899, and the Freehold

1 Gas Light Company in 1916. In the early 1920s, SGC was placed into receivership
2 and in 1922 was purchased and reorganized into a new entity known as County Gas
3 Company (“CGC”). In 1929, Public Service Corporation of NJ acquired CGC and
4 in 1948, a group of investors bought CGC from Public Service Corp. of NJ. In
5 1952, when CGC acquired the gas assets of JCP&L, CGC became New Jersey
6 Natural Gas Company. The Atlantic Highlands site operated as a carbureted water
7 gas manufacturing facility from 1910 until 1949, when manufacturing operations
8 were discontinued. Coal and coke were used as feedstock to produce the carbureted
9 water gas. Demolition activities at this site were completed around 1981. NJNG
10 currently uses the Atlantic Highlands site as an Energy Delivery Operations
11 Division Service Center.

12 **Q. PLEASE SUMMARIZE THE KEY EVENTS THAT OCCURRED DURING**
13 **REMEDATION YEAR 2024 IN CONNECTION WITH MGP**
14 **REMEDATION ACTIVITIES AT THE ATLANTIC HIGHLANDS SITE.**

15 **A.** A tentative verbal agreement was reached with the property owner to perform the
16 remaining soil remediation at the Julian Ice (“AOC-3”) property. The written
17 remediation agreement is being finalized for signature/execution. NJNG submitted
18 biennial inspection reports/documents for the engineering controls (i.e., soil caps)
19 at these restricted-use soil remedy properties: AOC-1A/1B/1C/6A and 6G.

20 **Q. WHAT IS THE STATUS OF THE REMEDIATION WORK UNDERWAY**
21 **AT THE ATLANTIC HIGHLANDS SITE?**

22 **A.** NJNG continues to operate and maintain the long-term ground water treatment
23 system to ensure the required control/containment of the groundwater impact

1 area. NJNG continues to recover free-product at the AOC-1, AOC-1F, and AOC-
2 2 properties.

3 Efforts continue to obtain the required property owner signatures to
4 complete/submit the permit application for collecting the necessary pre-design soil
5 samples to complete the design documents for the Monmouth County Bayshore
6 Outfall Authority (MCBOA) Pipeline remediation project.

7 **Q. WHAT ARE THE NEXT STEPS REGARDING FUTURE REMEDIATION**
8 **AT THE ATLANTIC HIGHLANDS SITE?**

9 **A.** NJNG will prepare/submit the Remedial Action Work Plan “RAWP” and permit
10 applications and complete the design documents for the Julian Ice and the MCBOA
11 pipeline remediation projects.

12 **Q. PLEASE PROVIDE A BRIEF BACKGROUND OF THE LONG BRANCH**
13 **SITE.**

14 **A.** The Long Branch site first operated as a gas manufacturing facility for the Long
15 Branch Gas and Light Company (“LBGLC”) from approximately 1860-1870. In
16 1895, LBGLC merged into Consolidated Gas Companies. The site was purchased
17 and operated by Jersey Central Power & Light Company (“JCP&L”) from 1925
18 until 1952 and was included in the sale of all JCP&L gas operations to NJNG in
19 1952. Although exact information is not available, it is likely that either carbureted
20 water or oil gas was manufactured at this site. All manufacturing operations ceased
21 in 1961. A portion of the former site was leased to the City of Long Branch from
22 1966 until 1976 for use as a park and, in 1976, NJNG donated the property to the
23 City of Long Branch. Demolition of plant-related structures was completed around

1 1983. At that time, another portion of the site was sold to private parties. The
2 demolition of several plant structures on that portion of the site was completed in
3 1991. Numerous investigation activities, multiple phases of on- and offsite-soil
4 remedial excavation, creek cleanup and restoration activities were completed
5 through 2015.

6 **Q. PLEASE SUMMARIZE THE KEY EVENTS THAT OCCURRED DURING**
7 **REMEDATION YEAR 2024 IN CONNECTION WITH MGP**
8 **REMEDATION ACTIVITIES AT THE LONG BRANCH SITE.**

9 **A.** Semi-annual soil cap inspections and quarterly groundwater sampling were
10 performed in accordance with the NJDEP requirements.

11 **Q. WHAT IS THE STATUS OF THE REMEDIATION WORK UNDERWAY**
12 **AT THE LONG BRANCH SITE?**

13 **A.** NJNG continues to prepare the Remedial Action Report (“RAR”) for the completed
14 groundwater remedy. Semi-annual soil cap inspections and quarterly groundwater
15 monitoring continues in accordance with the NJDEP requirements.

16 **Q. WHAT ARE THE NEXT STEPS REGARDING FUTURE REMEDIATION**
17 **AT THE LONG BRANCH SITE?**

18 **A.** NJNG will continue groundwater sampling, site restoration monitoring activities,
19 and prepare and submit biennial certification reports, as required by the NJDEP.

20 **Q. PLEASE PROVIDE A BRIEF BACKGROUND OF THE FREEHOLD SITE.**

21 **A.** In 1857, the Freehold Gas and Light Company incorporated and began operations
22 in Freehold Borough. In 1916, the Freehold Gas and Light Company merged with
23 Standard Gas Company (“SGC”), shut down gas manufacturing operations, and

1 began receiving gas piped from the Atlantic Highlands MGP. In the early 1920s,
2 SGC was placed into receivership; in 1922, it was purchased and reorganized into
3 a new entity known as County Gas Company (“CGC”). In 1929, Public Service
4 Corporation of NJ acquired CGC and in 1948, a group of investors bought CGC
5 from Public Service Corp. of NJ. In 1952, CGC became New Jersey Natural Gas
6 Company. In November 2017, a NJDEP representative contacted NJNG and
7 reported that a third-party LSRP doing work in the Borough of Freehold discovered
8 a MGP site on a historic Sanborn Fire Insurance map. Since the historic map
9 indicated the Freehold site received gas from the Atlantic Highlands MGP, the
10 NJDEP asked if NJNG had a link to one or both of those sites. After an initial
11 investigation, NJNG discovered the operational history described above and that
12 MGP operations at the Freehold former MGP ceased in 1916.

13 **Q. PLEASE SUMMARIZE THE KEY EVENTS THAT OCCURRED DURING**
14 **REMEDATION YEAR 2024 IN CONNECTION WITH MGP**
15 **REMEDATION ACTIVITIES AT THE FREEHOLD SITE.**

16 **A.** NJNG completed additional soil and groundwater sampling as part of the Phase IV
17 and Phase V Remedial Investigation (“RI”) field work for the site.

18 **Q. WHAT IS THE STATUS OF THE REMEDIATION WORK UNDERWAY**
19 **AT THE FREEHOLD SITE?**

20 **A.** Additional RI work is required by the NJDEP to fully delineate the horizontal and
21 vertical extent of contamination.

22 **Q. WHAT ARE THE NEXT STEPS REGARDING FUTURE REMEDIATION**
23 **AT THE FREEHOLD SITE?**

1 **A.** NJNG will continue the collection of RI samples to fully delineate the extent of the
2 identified onsite and offsite MGP soil and groundwater impacts.

3 **Q.** **PLEASE PROVIDE A BRIEF BACKGROUND OF THE ABERDEEN MGP**
4 **SITE.**

5 **A.** After conducting research on the nature of the Freehold site, NJNG continued its
6 investigation into the operations of the former SGC from which NJNG's
7 predecessor CGC purchased assets in 1922. NJNG discovered that as part of SGC's
8 operations, a former MGP known as the Matawan & Keyport Gas Light Co.
9 operated in Aberdeen, N.J. ("Aberdeen MGP"). The Aberdeen MGP ceased
10 operations in 1910 when the Atlantic Highlands MGP was brought online and
11 began to supply gas to the Aberdeen site. NJNG contacted the NJDEP to discuss
12 the former Aberdeen MGP and reached an agreement that NJNG would proceed in
13 performing a Preliminary Assessment/Site Investigation ("PA/SI").

14 **Q.** **PLEASE SUMMARIZE THE KEY EVENTS THAT OCCURRED DURING**
15 **REMEDATION YEAR 2024 IN CONNECTION WITH MGP**
16 **REMEDATION ACTIVITIES AT THE ABERDEEN SITE.**

17 **A.** The work plan for the remaining RI fieldwork at the former MGP Lot 10 property
18 was completed. Additionally, the collection of soil, ground water, and vapor
19 intrusion samples was completed at the adjacent Lot 1 & Lot 9 properties.

20 **Q.** **WHAT IS THE STATUS OF THE REMEDIATION WORK UNDERWAY**
21 **AT THE ABERDEEN SITE?**

1 **A.** The NJDEP issued the permit to collect the RI soil and groundwater samples at the
2 adjacent Garden State Parkway property. Preparation to start the sample collection
3 fieldwork is underway.

4 **Q. WHAT ARE THE NEXT STEPS REGARDING FUTURE REMEDIATION**
5 **AT THE ABERDEEN SITE?**

6 **A.** NJNG will continue the collection of RI samples to fully delineate the extent of the
7 identified onsite and offsite MGP soil and groundwater impacts.

8 **Q. PLEASE PROVIDE A BRIEF BACKGROUND OF THE MANCHESTER**
9 **SITE.**

10 **A.** As a result of the dismantling of the Company's Long Branch and Atlantic
11 Highlands plants in the mid-1970s, materials were delivered to an asphalt recycling
12 facility identified as South Brunswick Asphalt ("SBA"). SBA operated in three
13 locations, including Berkeley Township and Manchester Township.

14 **Q. PLEASE SUMMARIZE THE KEY EVENTS THAT OCCURRED DURING**
15 **REMEDATION YEAR 2024 IN CONNECTION WITH MGP**
16 **REMEDATION ACTIVITIES AT THE MANCHESTER SITE.**

17 **A.** Monitoring of groundwater impacts from the former coal tar soil pile was
18 conducted in accordance with the semi-annual groundwater sampling schedule
19 included in the Classification Exception Area for the site. The Groundwater
20 Monitoring Summary Report for February 2024 was completed.

21 **Q. WHAT IS THE STATUS OF THE REMEDIATION WORK UNDERWAY**
22 **AT THE MANCHESTER SITE?**

1 **A.** NJNG is continuing to collect additional groundwater data as required for the
2 selected Natural Attenuation ground water remedy.

3 **Q. WHAT ARE THE NEXT STEPS REGARDING FUTURE REMEDIATION**
4 **AT THE MANCHESTER SITE?**

5 **A.** A groundwater RAR will be prepared and submitted to the NJDEP. The Company
6 will continue the semi-annual groundwater sampling events. **Q. PLEASE**
7 **PROVIDE A BRIEF BACKGROUND OF THE TOMS RIVER SITE.**

8 **A.** The Toms River site was operated as a coal gas plant from approximately 1900 to
9 1911 by the Toms River and Island Heights Electric and Power Company. The site
10 was sold to the Ocean County Gas Company in 1911 and operated by them until
11 1928 when the site was purchased by JCP&L. Gas manufacturing operations
12 ceased in 1950. Although exact information is not available, it is likely that either
13 carbureted water or oil gas was manufactured at the Toms River site. This site was
14 included in the sale of all JCP&L gas operations to NJNG in 1952. Demolition
15 activities at this site were completed around 1975. From 1952 until 1989, NJNG
16 used this site as an Energy Delivery Operations Division Service Center but ceased
17 operations at the site in 1989 when the Company relocated the Division Offices.
18 This cessation of operations triggered the Environmental Cleanup Responsibility
19 Act (“ECRA”), requiring the submittal of an Initial Notice to the NJDEP.

1 **Q. PLEASE SUMMARIZE THE KEY EVENTS THAT OCCURRED DURING**
2 **REMEDATION YEAR 2024 IN CONNECTION WITH MGP**
3 **REMEDATION ACTIVITIES AT THE TOMS RIVER SITE.**

4 **A.** NJNG finalized/executed a written agreement with Ocean County regarding its
5 reimbursement to NJNG for drainage improvement materials as part of the AOC-6
6 remediation project. The Toms River Municipal Utilities Authority “TR MUA”
7 AOC-4 adopted a resolution to allow a restricted-use soil remedy.

8 **Q. WHAT IS THE STATUS OF THE REMEDIATION WORK UNDERWAY**
9 **AT THE TOMS RIVER SITE?**

10 **A.** The remediation project at the Herflicker Boulevard AOC-6 property is currently
11 on track for completion by July 31, 2024. Groundwater sampling and free-product
12 recovery events continue.

13 **Q. WHAT ARE THE NEXT STEPS REGARDING FUTURE REMEDIATION**
14 **AT THE TOMS RIVER SITE?**

15 **A.** NJNG collected the necessary pre-design soil samples, initiated the permit
16 application process, and began the RAWP in preparation for the upcoming AOC-
17 4/83 Iron Street AOC-7 remediation project.

18 **Q. PLEASE PROVIDE A BRIEF BACKGROUND OF THE BERKELEY SITE.**

19 **A.** The Berkeley MGP site has been identified as a MGP location as a result of coal
20 tar material disposal from the Long Branch and Atlantic Highlands MGP facilities
21 in the late 1970s and 1980s.

1 **Q. WHAT IS THE STATUS OF THE REMEDIATION WORK UNDERWAY**
2 **AT THE BERKELEY MGP SITE?**

3 **A.** There is no activity underway at the Berkeley property since NJNG is not
4 considered the Person Responsible for Conducting the Remediation (“PRCR”), and
5 the Company has not had any recent communication with the property owner.
6 Pursuant to NJDEP regulations, any person who executes or is otherwise subject to
7 a memorandum of agreement, memorandum of understanding, administrative
8 consent order, remediation agreement, or administrative order to remediate a
9 contaminated site is considered the PRCR. Thus, without the property owner’s
10 consent, which has not been forthcoming, the Company is unable to initiate or
11 conduct remediation activities at this time.

12 **Q. WHAT ARE NATURAL RESOURCE DAMAGES?**

13 **A.** The term Natural Resource Damages (“NRD”) refers to claims that arise from
14 alleged releases of hazardous substances that have resulted in injuries to natural
15 resources (such as loss or impairment of ecological function) or the deprivation of
16 natural resource services (such as water supply, recreation or ecological services)
17 with respect to resources owned by, managed by, or otherwise within the
18 trusteeship or co-trusteeship of the State of New Jersey.

19 **Q. HAVE ANY FORMAL NRD CLAIMS BEEN MADE OR FILED AGAINST**
20 **THE COMPANY?**

21 **A.** To date, no formal NRD claims have been filed against the Company by the
22 NJDEP. However, a separate Environmental Justice (“EJ”) petition filed on behalf
23 of the Concerned Citizens Coalition in Long Branch includes NRD claims. The EJ
24 petition is active and being enforced by the NJDEP. The NJDEP has stated that

1 they will explore Long Branch-related NRD claims upon the completion of
2 remediation activities in Long Branch. NJNG anticipates that NRD claims may
3 also be filed for each of its MGP sites since there are potential groundwater impacts
4 at each location. NJNG cannot predict whether the NJDEP will impose additional
5 or modified remediation-related requirements in the future. Subject to that caveat,
6 NJNG is not currently aware of any material events relating to NJDEP directives,
7 or otherwise, which could have an impact on the Company's NRD liability. As a
8 result of prior settlement discussions with BPU Staff and Rate Counsel, no NRD
9 expenses have been included for recovery in this filing.

10 **Q. DOES THIS CONCLUDE YOUR TESTIMONY?**

11 **A. Yes.**

NEW JERSEY NATURAL GAS COMPANY
DIRECT TESTIMONY OF MARIANNE HARRELL
MANAGER – RATES AND TARIFF

1 **Q. PLEASE STATE YOUR NAME, CURRENT POSITION AND BUSINESS**
2 **ADDRESS?**

3 **A.** My name is Marianne Harrell, and I am the Manager Rates and Tariff for New
4 Jersey Natural Gas Company (“NJNG” or the “Company”). My business address
5 is 1415 Wyckoff Road, Wall, New Jersey 07719.

6 **Q. PLEASE DESCRIBE YOUR EDUCATION AND BUSINESS EXPERIENCE.**

7 **A.** I received a Bachelor of Arts degree in Communications from Seton Hall
8 University. I received a Master of Business Administration degree from Georgian
9 Court College. In July 1986, I accepted a position in Human Resources at NJNG.
10 In 1987, I served as a Staff Assistant to the Corporate Secretary, where I was
11 responsible for the budget, managing preferred stock and bondholder relations, and
12 coordinating numerous trustee, federal and state filings with the financial
13 department. In 1992, I accepted a position as Regulatory Analyst where I was
14 responsible for managing the annual gas remediation filing, tariff and rate
15 administration, bill verification, and the preparation of various regulatory filings
16 with the Board of Public Utilities and other external agencies. I was promoted to
17 Regulatory Analyst II in January 2008, and Senior Rate Analyst in January 2014
18 where I assumed responsibility for analysis and preparation of the Company’s
19 annual Societal Benefits Charge (SBC) and Universal Service Fund filings.
20 Additionally, I provided department oversight for the bill verification process and
21 certain regulatory reporting requirements. In January 2023, I was promoted to
22 Manager - Rates and Tariff. In this role, I perform specialized day-to-day
23 operations concerning rates and regulatory matters involving utility pricing,
24 regulatory filings, tariff administration and internal controls.

25 **Q. HAVE YOU PREVIOUSLY TESTIFIED IN STATE REGULATORY**
26 **PROCEEDINGS?**

27 **A.** No, I have not previously testified in state regulatory proceedings.

1 **Q. WHAT ARE YOUR RESPONSIBILITIES WITH RESPECT TO THIS**
2 **PROCEEDING?**

3 **A.** I am responsible for: 1) supporting the schedules contained in the Company's SBC
4 filing, including the Remediation Adjustment ("RA") component of the SBC,
5 which sets forth and summarizes actual remediation expenditures incurred by the
6 Company through June 2024 ("Remediation Year 2024") for the remediation at
7 former NJNG manufactured gas plant ("MGP") sites; 2) supporting the interest
8 calculation on unrecovered deferred MGP expenditure balances; 3) calculating the
9 proposed RA factor necessary to recover the MGP expenditure balance, including
10 interest; and 4) addressing the rates for the other clauses within the SBC, including
11 the New Jersey Clean Energy Program ("NJCEP") and the Universal Service Fund
12 ("USF"). In this SBC filing, NJNG is petitioning the Board: (1) for approval of the
13 RA expenditures Remediation Year 2024 as prudent and reasonable; (2) to increase
14 the after-tax RA rate of \$0.0262 per therm to \$0.0296 per therm; and (3) to increase
15 the after-tax NJCEP of \$0.0325 per therm to \$0.0348 per therm effective April 1,
16 2025, or as of the date of a Board Order in this proceeding approving these proposed
17 rates.

18 **I. HISTORY OF NJNG'S REMEDIATION ADJUSTMENT CLAUSE**

19 **Q. PLEASE DESCRIBE THE HISTORY OF NJNG'S REMEDIATION**
20 **ADJUSTMENT CLAUSE.**

21 **A.** As part of the settlement of the Company's base rate case filing in Docket No.
22 GR91081383J, NJNG was authorized in June 1992 to recover Remediation Costs
23 on a deferred basis, over a rolling seven (7)-year period and subject to BPU
24 approval. As defined in the Company's BPU-approved tariff, "Remediation Costs"
25 includes costs associated with all investigation, testing, land acquisition if
26 appropriate, remediation and/or litigation costs and expenses, or other liabilities,
27 excluding personal injury claims, specifically relating to former MGP facility sites,
28 disposal sites, or sites to which material may have migrated, as a result of the earlier
29 operation or decommissioning of MGP sites. Examples of Remediation Costs the
30 Company has previously included for recovery in SBC filings include: soil disposal
31 and replacement, installation and maintenance of long-term groundwater treatment

1 facilities, estuary development, site engineering and construction, consulting,
2 community outreach, legal expenses and certain incremental payroll costs directly
3 relating to the remediation of former MGP sites, disposal sites, or sites to which
4 material may have migrated since operation of these MGP sites. Based on the
5 above settlement, the total annual charge for such Remediation Costs during any
6 Recovery Year is not permitted to exceed five percent (5.0%) of the Company's
7 total revenues from natural gas sales during the preceding Remediation Year (July
8 through the following June).

9 **Q. HOW IS THE NJNG RA FACTOR CURRENTLY DERIVED AND**
10 **CALCULATED?**

11 **A.** The Company is currently authorized by the BPU to calculate its RA factor using a
12 methodology that permits the Company to recover one-seventh of the actual
13 Remediation Costs the Company incurs each Remediation Year, until fully
14 amortized, plus any prior year Remediation Cost under- or over-recoveries net of
15 any accumulated deferred third-party recoverable costs. In addition, pursuant to
16 the BPU's "Order Adopting Initial Decision and Stipulation" dated October 5,
17 2004, in Docket No. GR03030200, the Company is required to calculate and is
18 permitted to recover monthly carrying costs on its unamortized MGP expenditure
19 balances using the methodology set forth on Original Sheet No. 164 dated October
20 1, 2016, of the Company's Tariff. The referenced methodology provides, in
21 pertinent part, that the Company shall calculate carrying costs on any under- or
22 over-recovered RA cost balances, net of the deferred income taxes associated with
23 those balances, using the same interest rate, which rate will be adjusted each August
24 31 based upon the seven (7)-year constant maturity Treasury rate, shown in the
25 Federal Reserve Statistical Release, plus 60 basis points. Interest applicable to the
26 Company's unamortized RA balance shall be calculated and will accrue monthly
27 and shall be rolled into the RA balance commencing each October 1. The impact
28 and effect of this carrying cost methodology is set forth in Attachment A, Schedule
29 5, addressed in further detail below.

II. DESCRIPTION OF SUPPORTING RA SCHEDULES

Q. PLEASE PROVIDE A BRIEF EXPLANATION OF ATTACHMENT A, SCHEDULES 1 THROUGH 5, WHICH SUPPORT THE COMPANY'S PROPOSED REMEDIATION ADJUSTMENT IN THIS FILING.

A. Schedule 1 – Summary of Site Expenses for Remediation Year 2024.

Schedule 1 provides a summary of actual RA expenditures, by MGP site and cost category, of approximately \$19.31 million for the Remediation Year 2024. A summary of actual MGP expenses by vendor for Remediation Year will be provided subsequently in the Minimum Filing Requirements ("MFRs").

Schedule 2 – Amortization of Recoverable Costs

Schedule 2 provides the amortization calculation and recognizes the applicable seven-year recovery period for the year end periods June 2018 through June 2024. The actual expenditures to be recovered for Remediation Years ended June 30, 2018, through June 30, 2024, is approximately \$115.63 million in total, and one-seventh of the cost is approximately \$16.52 million.

Schedule 3 - Remediation Adjustment Factor

Schedule 3 provides the calculation of the pre-tax and after-tax RA Factor for the 2023/2024 Recovery Year. The amount to be recovered is the sum of the following:

- (1) The Remediation Year amortizations from year end periods June 2018 through June 2024 of approximately \$16.52 million, per Schedule 2; plus
- (2) The March 31, 2025 estimated under-recovery amount of approximately \$1.73 million comprised of the variance of actual recoveries through March 31, 2024, to the estimated recoveries included in the current rate, the approved amount to be recovered from the Company's prior SBC filing in Docket No. GR23090672, and expected recoveries through March 31, 2025; plus
- (3) Interest of approximately \$2.37 million from Schedule 5.
- (4) The resulting net total amount of \$20.62 million to be recovered is then divided by the projected therm sales of natural gas for the twelve months

ending March 31, 2026, which yields a pre-tax RA factor of \$0.0278 per therm (\$0.0296 per therm after-tax).

Schedule 4 - Annual Cap Calculation

Schedule 4 calculates the limitation on the annual recovery of NJNG's remediation costs. The Company's total annual amortization to be collected from customers during a prospective Recovery Year may not exceed five percent (5.0%) of the Company's total gas revenues collected from customers during the preceding Remediation Year. Schedule 4 shows that the total amount of approximately \$20.62 million projected to be recovered is less than the five percent (5.0%) revenue cap of approximately \$42.73 million based on the \$854.51 million in gas revenues for Remediation Year 2024.

Schedule 5 – Remediation Interest Calculation

Schedule 5 calculates interest for the period beginning October 2023 and ending September 2024 on the Company's monthly average balance of deferred remediation costs using the methodology approved by the Board in Docket No. GR09010076, dated April 28, 2010. The October 31, 2023, deferred balance includes interest that has been rolled-in from Remediation Year 2023. The column on Schedule 5 labeled "Net of Tax" reflects the offset of deferred taxes based on the above-mentioned Board approved methodology. Effective September 1, 2024, the SBC annual interest rate was modified pursuant to the Board Order in Docket No. GR09010076.

Q. WHAT IS THE PROPOSED AFTER-TAX RA FACTOR FOR THIS FILING?

A. As shown on Attachment A, Schedule 3, the Company is proposing to increase the current after-tax RA Factor from \$0.0262 per therm to \$0.0296 per therm, effective April 1, 2025, or as of the date of a Board Order in this proceeding.

III. OTHER SBC COMPONENTS

Q. PLEASE EXPLAIN NJNG'S NEW JERSEY CLEAN ENERGY PROGRAM FUNDING OBLIGATION.

A. Annually, the BPU issues an order to update NJNG's NJCEP funding obligations, and the Company must provide the approved level of NJCEP funding to the State Treasurer regardless of actual customer usage. Any shortfall or excess in recovery is carried in the Company's NJCEP deferred account balance to be included in the future year's rate calculations. Attachment B includes the monthly NJCEP funding obligation for July 2024 through June 2025 based on the approved funding obligation in the BPU Order, dated June 27, 2024, in Docket No. QO24040223. NJNG's annual funding obligation is approximately \$20.05 million. Attachment B also includes estimated NJCEP recovery through March 2025 to determine the amount to be recovered from April 2025 through March 2026.

Q. WHAT IS THE PROPOSED AFTER-TAX NJCEP FACTOR FOR THIS FILING?

A. The Company proposes to increase its after-tax NJCEP Factor of \$0.0325 per therm to \$0.0348 per therm effective April 1, 2025, or as the date of a Board Order in this proceeding. The proposed rate recovers estimated NJCEP funding levels through March 2026. Supporting documentation for this factor is presented in Attachment B.

Q. WHAT IS THE AFTER-TAX USF FACTOR FOR THIS FILING?

A. The after-tax USF factor included in this SBC filing is \$0.0276 per therm. This statewide USF factor was approved in the Board's September 25, 2024, Order in Docket No. ER24070486, and becomes effective on October 1, 2024.

IV. OVERALL PROPOSED PRICE CHANGES

Q. WHAT IS THE PROPOSED AFTER-TAX SBC BILLING FACTOR FOR THIS SBC FILING AND THE IMPACT ON CUSTOMERS?

A. The Company is proposing to increase its after-tax RA rate from \$0.0262 to \$0.0296 per therm as well as its after-tax NJCEP rate from \$0.0325 to \$0.0348 per

1 therm effective April 1, 2025, or as of the date of a Board Order in this proceeding.
2 This results in a proposed overall SBC after-tax rate, (inclusive of the RA, NJCEP
3 and USF) of \$0.0920 per therm. The proposed RA and NJCEP rates will increase
4 the overall bill of the average residential sales heating customer using 80.1 therms
5 per month by \$0.46, or 0.37%. A typical residential sales heating customer using
6 100 therms per month will see an increase of \$0.57, or 0.38%.

7 **Q. DOES THIS CONCLUDE YOUR TESTIMONY?**

8 **A.** Yes.

SERVICE CLASSIFICATION - RS**RESIDENTIAL SERVICE****AVAILABILITY**

This service is available to any residential Customer in the territory served by the Company using gas for any domestic purpose. This rate is applicable to individually-metered apartments and to rooming and boarding houses where the number of rental bedrooms is not more than twice the number of bedrooms used by the Customer.

Gas delivered under this schedule may not be used for other than domestic purposes except when such use is incidental to domestic use.

CHARACTER OF SERVICE

Firm gas service where Customer may either purchase gas supply from the Company's Rider "A" for Basic Gas Supply Service ("BGSS") or from a Third Party Supplier.

MONTHLY RATES**Customer Charge:**

Customer Charge per meter per month \$11.00

Delivery Charge:**Residential Heating**

Delivery Charge per therm \$~~1.04471~~0390

Residential Non-Heating

Delivery Charge per therm \$0.~~99539~~896

BGSS Charge:

BGSS Charge per therm for Sales Customers See "Rate Summaries" at the end of this Tariff

These rates are inclusive of all applicable taxes and riders and are subject to adjustment for all other applicable riders, taxes, assessments or similar charges lawfully imposed by the Company. See Rate Summaries at the end of this Tariff for a summary of components incorporated in these rates.

Wall, NJ 07719

Effective for service rendered on
and after ~~April~~October 1,

SERVICE CLASSIFICATION - GSS**GENERAL SERVICE - SMALL (continued)****SPECIAL PROVISIONS*****I. Applicable to All Customers Under This Service Classification******1. Annual Review***

The Company shall review, at least once a year, each GSS Customer's annual usage based on the most recent twelve (12) months of billing information to determine if the General Service – Large ("GSL") Service Classification is applicable to the Customer. If the Customer's normalized annual usage is greater than or equal to 5,500 therms, the customer will be switched to GSL prospectively.

2. Air Conditioning and Pool Heating

Upon separate application, GSS Customers who have installed and are using gas air conditioning and/or pool heating equipment will be billed on the above Monthly Rates and will be billed a credit of (\$0.4801) per therm for all monthly consumption of gas for services rendered between May 1 and September 30 of each year. This credit is the difference between the delivery charge for service rendered between May 1 and September 30 of each year under this Special Provision of \$0.~~44904433~~ per therm, which includes \$0.1106 per therm margin, all appropriate riders, taxes, assessments and surcharges, and the delivery charge for Service Classification GSS.

Commercial Air Conditioning and Pool Heating ("CAC") customers will be separately metered, except, at the Company's sole discretion, existing Customers may use the same meter for their cooling, air conditioning or pool heating load and their space heating load as long as there is minimal base load during the period air conditioning rates are in effect.

Where a CAC Customer uses gas under this service classification in a direct-fired chiller/heater and the heating load is metered through the same meter as the cooling, air conditioning or pool heating load, and further, where the gas used for heating is billed separately, the GSS Customer Charge shall be waived, provided the Customer pays the Customer Charge under its heating service in all twelve (12) months of the year.

3. Veterans' Organization Service

Pursuant to N.J.S.A 48:2-21.41, when natural gas service is delivered to a customer that is a Veterans' Organization, serving the needs of veterans of the armed forces, the customer may apply and be eligible for billing under this Special Provision.

- a. Each customer shall be eligible for billing under this Special Provision upon submitting an Application for Veterans' Organization Service under this Service Classification and by qualifying as a "Veterans' Organization" as defined by N.J.S.A. 48:2-21.41 as "an organization dedicated to serving the needs of veterans of the armed forces that: is chartered under federal law, qualifies as a tax exempt organization under paragraph (19) of subsection (c) of section 501 of the federal Internal Revenue Code of 1986, 26 U.S.C. s.501 (c)(19), or that is organized as a corporation under the 'New Jersey Nonprofit Corporation Act,' N.J.S.15A:1-1 et seq." Under N.J.S.A. 48: 2-21.41, a qualified Veterans' Organization shall be charged the residential rate for service delivered to the property where the Veterans' Organization primarily operates, if the residential rate is lower than the commercial rate for service at that property.

Date of Issue: ~~September 26, 2024~~

~~2025~~2024

Wall, NJ 07719

Effective for service rendered on
and after ~~April~~~~October~~ 1,

SERVICE CLASSIFICATION - GSS**GENERAL SERVICE - SMALL (continued)**

The Customer shall furnish satisfactory proof of eligibility of service under this Special Provision to the Company. Once proof of eligibility is determined by the Company, service under this Special Provision shall begin with the next billing cycle following receipt of the Application.

- b. The Customer will continue to be billed on this Service Classification. At least once annually, the Company shall review eligible customers' Customer Charges and Delivery Charges under this Special Provision for all relevant periods. If the comparable Customer Charges and Delivery Charges under Service Classification Residential Service (RS) are lower than the charges under their current Service Classification, a credit in the amount of the difference will be applied to the Customer's next bill.

4. **Metering**

An Automated Meter Reading (AMR) device will not be required for this service. However, the Company reserves the right to install an AMR device at its own expense. Should the Company decide to install an AMR, the Customer shall furnish the necessary infrastructure to support the AMR, including, but not limited to, an electrical supply and phone line, or data plan, for the operation of the device, in an area acceptable to the Company.

When a remote meter reading device is requested by the Customer, it shall be installed at the Customer's expense if the installation is deemed feasible by the Company.

Should the Company decide to install an AMR or a Customer request an AMR, the installation shall be in accordance with Paragraph 6.10 of the Standard Terms and Conditions.

II. *Applicable to All Customers Purchasing Gas Supply Under Rider "A" BGSS*

1. **Street Lighting Service**

Street Lighting Service is not subject to Rider "I" of this Tariff. The delivery charge per therm for Street Lighting Service is \$0.~~87828725~~ per therm.

III. *Applicable to All Customers Purchasing Gas Supply from a Third Party Supplier*

1. **Additional Requirements**

Service is subject to the terms and conditions of the Third Party Supplier Requirements section of this Tariff (Service Classification – TPS) and Section 10 of the Company's Standard Terms and Conditions.

TERMS AND CONDITIONS

Service is subject to the Company's Standard Terms and Conditions of this Tariff.

Effective for service rendered on
and after ~~April~~~~October~~ 1,

SERVICE CLASSIFICATION - GSL**GENERAL SERVICE - LARGE (continued)****SPECIAL PROVISIONS****I. Applicable to All Customers in this Service Classification****1. Determination of Demand**

The highest monthly average daily usage (HMAD) that occurs in any billing period will be used to calculate the Demand Charge. The HMAD shall be determined based upon the Customer's highest normalized average daily usage for a month in the most recent twenty-four (24) month period. Estimated data may be used when actual data is not available. At least once a year, the Company shall review and modify, if necessary, each GSL customer's HMAD based upon the most recent twenty-four (24) months of billing information. Any modification will be on a prospective basis. The Company reserves the right to determine the HMAD for any Customer by actually metering daily usage.

2. Metering

An Automated Meter Reading (AMR) device with daily meter reads will not be required for this service. However, the Company reserves the right to install an AMR if it believes such a device will provide a more accurate HMAD than the Determination of Demand set forth above. Should the Company decide to install an AMR, the Customer shall furnish the necessary infrastructure to support the AMR, including, but not limited to, an electrical supply and phone line, or data plan, for the operation of the device, in an area acceptable to the Company.

When a remote meter reading device is requested by the Customer, it shall be installed at the Customer's expense if the installation is deemed feasible by the Company.

Should the Company decide to install an AMR or a Customer request an AMR, the installation shall be in accordance with Paragraph 6.10 of the Standard Terms and Conditions.

3. Annual Review

The Company shall review, at least once a year, each GSL customer's annual usage based on the most recent twelve (12) months of billing information to determine if the General Service - Small ("GSS") Service Classification is applicable to the Customer. If the Customer's normalized annual usage is less than or equal to 4,500 therms, the Customer will be switched to GSS prospectively.

4. Air Conditioning and Pool Heating

Upon separate application, GSL Customers who have installed and are using gas air conditioning and/or pool heating equipment will be billed on the above Monthly Rates and will be billed a credit of (\$0.2669) per therm for all monthly consumption of gas for services rendered between May 1 and September 30 of each year. This credit is the difference between the delivery charge for service rendered between May 1 and September 30 of each year under this Special Provision of \$0.~~44904433~~ per therm which includes \$0.1106 per therm margin, all appropriate riders, taxes, assessments and surcharges, and the delivery charge for Service Classification GSL.

Commercial Air Conditioning and Pool Heating ("CAC") Customers will be separately metered, except, at the Company's sole discretion, existing Customers may use the same meter for their cooling, air conditioning or pool heating load and their space heating load as long as there is minimal base load during the period air conditioning rates are in effect.

~~Eighth~~~~Seventh~~ Revised Sheet No. 64

BPU No. 11 - Gas

Superseding ~~Seventh~~~~Sixth~~ Revised Sheet No. 64**SERVICE CLASSIFICATION - DGC****DISTRIBUTED GENERATION SERVICE - COMMERCIAL****AVAILABILITY**

This service is available to any commercial customer using distributed generation technologies including, but not limited to, microturbines and fuel cells.

CONDITIONS PRECEDENT

If the Customer is served by a Third Party Supplier, the Third Party Supplier assumes the responsibility for all delivery requirements. The Company may require the Customer to provide, to the Company's satisfaction, proof of a firm gas supply having marketable title of gas with firm transportation capacity to the Company's distribution systems. The Customer is responsible for payment of any costs if additional facilities, exclusive of metering facilities, are necessary to provide service. The Company reserves the right to limit new customers served under this service, if it determines that service expansion is detrimental to existing firm customers. The Customer must demonstrate that qualifying electric generation equipment has been installed at its location.

SERVICE CLASSIFICATION - NGV**NATURAL GAS VEHICLE SERVICE****AVAILABILITY**

This service is available to any residential or commercial customer for the purpose of fueling natural gas vehicles at Company owned and operated compressed natural gas ("CNG") re-fueling facilities ("Company facilities") and at separately metered Customer owned and operated CNG re-fueling facilities ("Customer owned facilities").

CONDITIONS PRECEDENT

The Customer must sign a service agreement which sets forth the vehicles to be served to be eligible for this service.

DEFINITION OF TERM USED HEREIN

"GGE" is the Gasoline Gallon Equivalent for converting a price per therm of natural gas to a price per gallon of gasoline. The GGE shall be determined in accordance with local standards.

CHARACTER OF SERVICE

Firm sales gas service where Customer who uses Company facilities purchases gas supply pursuant to the Company's Rider "A" for Basic Gas Supply Service ("BGSS"). Firm sales or transportation gas service where Customer who uses Customer owned facilities purchases gas supply pursuant to the Company's Rider "A" for BGSS or from a Third Party Supplier, respectively.

LICENSING, PERMITS AND LEGAL REQUIREMENTS

Customers installing CNG re-fueling facilities on their premises must meet all applicable licensing, permitting and other legal requirements associated with owning and operating CNG refueling facilities. The failure of the customer to comply with this provision may result in the Company suspending or terminating gas service to such facilities without further liability.

SERVICE CLASSIFICATION - CNG**COMPRESSED NATURAL GAS****AVAILABILITY**

This service is available to any customer who would otherwise qualify for service under Service Classifications RS, GSS, GSL, FT, IS, or NGV and who will utilize natural gas for the purpose of fueling natural gas vehicles at Company owned compressed natural gas re-fueling facilities operated by the Customer on its property ("Host Customer").

Availability of this Service Classification is subject to the terms and conditions approved in BPU Docket No. GR11060361. This Service Classification is closed.

CONDITIONS PRECEDENT

The Host Customer must sign an Agreement with the Company. The Host Customer must provide assurance that it will use initially at least twenty (20) percent of the re-fueling facility's capacity. The Host Customer must agree to provide the general public with reasonable access to a re-fueling facility for purposes of fueling the general public's natural gas vehicles.

DEFINITION OF TERM USED HEREIN

"GGE" is the Gasoline Gallon Equivalent for converting a price per therm of natural gas to a price per gallon of gasoline. The GGE shall be determined in accordance with local standards.

CHARACTER OF SERVICE

Firm gas service where Host Customer may purchase gas supply pursuant to the Company's Rider "A" for Basic Gas Supply Service ("BGSS"), from the Company through a contract, or from a Third Party Supplier.

RIDER "E"**NEW JERSEY'S CLEAN ENERGY PROGRAM (continued)**

4. The total NJ's Clean Energy Program costs to be recovered, as determined per paragraphs (1), (2) and (3) shall then be divided by the total volume of prospective jurisdictional therm sales (per paragraph (3)), and the result carried to four (4) decimal places. Such result shall constitute the NJ's Clean Energy Program factor effective for service rendered commencing the effective date of approval, and continuing in effect until the effective date of any subsequent annual or other filing of a revision of modification thereof.

The net amount shall be maintained in a separate deferred account. In the event that the Company determines that an existing NJ's Clean Energy Program rate, if left unchanged, would result in a material over- or under-collection of amounts incurred or expected to be incurred during the current NJ's Clean Energy Program Recovery Year, the Company may file with the BPU for approval of an interim revision of the NJ's Clean Energy Program rate. Such interim revision shall be designed to minimize or eliminate the over- or under-collection expected to result absent such revision either over: (a) the remaining billing months of the current NJ's Clean Energy Program Recovery Year or (b) over such other time period as the BPU shall determine.

The Company shall calculate carrying costs on the average monthly balances of under-or over-recovery of deferred costs, and the deferred tax benefit associated with those balances, using the same interest rate, which will be adjusted each August 31 based upon the seven-year constant maturity Treasury rate, shown in the Federal Reserve Statistical Release, plus 60 basis points. Interest will accrue on a monthly basis and shall be rolled into the balance each October 1.

In accordance with P.L. 1997, c. 162, as amended by P.L. 2006, c. 44, P.L. 2009, c. 240, and P.L. 2016, c. 57, the charges applicable under this Rider include provision for the New Jersey Sales and Use Tax ("SUT") and when billed to customers exempt from this tax, as set forth in Rider SUT, shall be reduced by the amount of such tax included therein.

The NJ's Clean Energy Program factor shall be collected through the SBC on a per therm basis within the Delivery Charge for all service classifications to which this Rider "E" applies. The NJ's Clean Energy Program factor is as set forth below:

IN THE MATTER OF THE PETITION OF NEW JERSEY NATURAL GAS COMPANY FOR THE ANNUAL REVIEW AND REVISION OF SOCIETAL BENEFITS CHARGE FACTORS FOR REMEDIATION YEAR 2024

BPU Docket No. GR24090772

PLEASE TAKE NOTICE that on September 30, 2024, New Jersey Natural Gas Company (“NJNG” or the “Company”) filed its annual Societal Benefits Charge (“SBC”) petition with the New Jersey Board of Public Utilities (“Board”) seeking a price adjustment for all applicable service customers (“Petition”). According to the Petition, NJNG requested that the Board permit NJNG to increase its overall SBC rate, which would include increases to the Remediation Adjustment (“RA”) and the New Jersey Clean Energy Program (“NJCEP”) factors effective April 1, 2025.

The RA rate provides recovery of actual costs incurred by NJNG for the environmental clean-up of former manufactured gas plant sites. The NJCEP rate is designed to recover costs incurred for NJNG’s share of statewide energy efficiency and renewable energy expenditures.

If the Board approves the requested price adjustment, the impact will result in an overall increase of approximately \$0.57 per month or 0.38 percent for a residential heating customer using 100 therms per month.

If approved by the Board, the impact of the proposed changes to the RA and NJCEP factors on typical natural gas bills is illustrated below:

Customer Type	Monthly Usage (Therms)	Total Bill		Net Dollar Increase	Percent Increase
		Monthly Bill as of October 1, 2024	Proposed Monthly Bill as of April 1, 2025		
Residential Heat Sales	100	\$151.62	\$152.19	\$0.57	0.38%
Residential Non-Heat Sales	25	\$44.92	\$45.06	\$0.14	0.31%
General Service Small	100	\$171.06	\$171.63	\$0.57	0.33%
General Service Large	1200	\$1,668.68	\$1,675.52	\$6.84	0.41%

The Board has the statutory authority to establish the RA and NJCEP factors at levels it finds just and reasonable. Therefore, the Board may establish the RA and NJCEP factors at levels other than those proposed by NJNG. NJNG’s SBC costs addressed in this petition will remain subject to audit by the Board, and Board approval shall not preclude or prohibit the Board from taking any such actions deemed appropriate because of any such audit.

PLEASE TAKE FURTHER NOTICE that virtual public hearings will be conducted on the following date and times so that members of the public may present their views on the Petition:

VIRTUAL PUBLIC HEARINGS

Date:
Hearing Times 4:30 pm and 5:30 pm

LOCATION

Zoom Virtual Webinar
Join:<https://us06web.zoom.us/j/2458136397?pwd=VUJpK1V0aDYxZDIlZUIwaElOWDFRZz09>
Meeting ID: 245 813 6397
Passcode: 819208
Dial-In Number: +1 646 876 9923

Members of the public are invited to participate and express their views on the Petition by utilizing the Zoom Virtual Webinar link or the Dial-In Number set forth above.

Representatives of the Company, Board’s Staff and the New Jersey Division of Rate Counsel will participate in the virtual public hearings. All comments will become part of the final record in this proceeding to be considered by the Board. In order to encourage full participation in this opportunity for public comment, please submit any requests for accommodations, such as interpreters, or listening assistance, 48 hours prior to the above hearing to the Board Secretary at board.secretary@bpu.nj.gov.

The Board is also accepting written and electronic comments. Comments may be submitted directly to the specific docket number listed above using the “Post Comments” button on the Board’s Public Document Search tool at <https://publicaccess.bpu.state.nj.us/>. Comments are considered public documents for purposes of the State’s Open Public Records Act. Only documents that are intended to be public should be submitted using the “Post Comments” button on the Board’s Public Document Search tool. Any confidential information should be submitted in accordance with the procedures set forth in N.J.A.C. 14:1-12.3. In addition to hard copy submissions, confidential information may also be filed electronically via the Board’s e-filing system or by email to the Secretary of the Board, Sherri L. Golden. Please include “Confidential Information” in the subject line of any email. Instructions for confidential e-filing are found on the Board’s webpage at <https://www.nj.gov/bpu/agenda/efiling/>.

Emailed and/or written comments may also be submitted to:
