13 This is a Resubmission Report. Date Filed on (Month, Date, Year)	

CORPORATE OFFICER CERTIFICATION

The undersigned officer certifies that:

I have read this New Jersey Board of Public Utilities ("Board") Annual Financial Report which is prescribed by the Federal Energy Regulatory Commission ("FERC") and adopted by the Board. Based on my knowledge this report does not contain any untrue statement of material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances such statements were made, not misleading with respect to the period covered by this report.

Based on my knowledge the financial statements, and other financial information (Comparative Balance Sheet, Statement of Income for the Year, Statement of Retained Earnings for the Year, Statement of Cash Flows, Statement of Accumulated Comprehensive Income and Hedging Activities, and Notes to the Financial Statements) included in this report conform in all material respects with the FERC's Uniform System of Accounts, as of, and for, the periods presented in this report.

I am responsible for establishing and maintaining internal accounting controls as defined by the FERC. I have designed such internal accounting controls to ensure that material information relating to the respondent and its subsidiaries, to the extent that the respondent has subsidiaries, is made known to me by others within those entities, particularly during the period in which this report is being prepared. I have evaluated the effectiveness of internal accounting controls as of a date within 90 days prior to the period in which this report (evaluation date). I have presented in this report my conclusions about the effectiveness of the internal accounting controls based on my evaluation as of the evaluation date.

I have disclosed, based on my most recent evaluation, to the respondent's auditors and the audit committee or persons performing similar functions, to the extent that respondent has an audit committee or persons performing similar functions, that all significant deficiencies in the design or operation of internal accounting control which could adversely affect the respondent's ability to record, process, summarize and report financial data and have identified for the respondent's auditors any material weaknesses in disclosure controls and procedures and any fraud, whether or not material, that involves management or other employees who have a significant role in the respondent's internal accounting controls.

I have indicated in this report whether or not there were significant changes in internal accounting control and procedures or in other factors that could significantly affect internal accounting controls and procedures subsequent to the date of my most recent evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.

In addition, I have examined the remaining schedules contained in this report; to the best of my knowledge, information, and belief all statements of fact contained in this report are correct statements of the business affairs of the respondent and the financial statements, and other financial information contained in this report, conform in all material respect to the Uniform System of Accounts.

GENERAL INFORMATION

1. Provide name and title of officer having custody of the general corporate books of account and address of office where the general corporate books are kept and address of office where any other corporate books of account are kept, if different from that where the general corporate books are kept.

Patrick Migliaccio, Senior Vice President & Chief Financial Officer
1415 Wyckoff Road, P.O. Box 1464
Wall, NJ 07719

2. Provide the name of the State under the laws of which respondent is incorporated and date of incorporation. If incorporated under a special law, give reference to such law. If not incorporated, state that fact and give the type of organization and the date organized.

Incorporated under the laws of the State of New Jersey, March 14, 1922 under Acts Concerning Corporation, To Wit, Chapter 26, Laws of 1881 and Chapter 127 of the Laws of 1897.

3. If at any time during the year the property of respondent was held by a receiver or trustee, give (a) name of receiver trustee, (b) date of such receiver or trustee took possession, (c) the authority by which the receivership or trusteeship was created, and (d) date when possession by receiver or trustee ceased.

Not applicable

4. State the classes of utility and other services furnished by respondent during the year in each State in which the respondent operated.

Respondent distributes and transports natural gas in the State of New Jersey.
Respondent also participates in capacity management and off-system sales programs to wholesale customers.

5. Have you engaged as the principal accountant to audit your financial statements an accountant who is not the principal accountant for your previous year's certified financial statements?

(1) Yes...Enter the date when such independent accountant was initially engaged: _____
(2) No

CONTROL OVER RESPONDENT

1. Report in column (a) the names of all corporations, partnerships, business trusts, and similar organizations that directly, indirectly, or jointly held control (see page 103 for definition of control) over the respondent at the end of the year.
If control is in a holding company organization, report in a footnote the chain of organization.

2. If control is held by trustees, state in a footnote the names of trustees, the names of beneficiaries for whom the trust is maintained, and the purpose of the trust.
3. In column (b) designate type of control over the respondent. Report an "M" if the company is the main parent of controlling company having ultimate control over the respondent. Otherwise, report a "D" for direct, an "I" for indirect, or "J" for joint control.

CORPORATIONS CONTROLLED BY RESPONDENT

- | | |
|--|--|
| <p>1. Report below the names of all corporations, business trusts, and similar organizations, controlled directly or indirectly by respondent at any time during the year. If control ceased prior to end of year, give particulars (details) in a footnote.</p> <p>2. If control was by other means than a direct holding of voting rights, state in a footnote the manner in which control was held, naming any intermediaries involved.</p> | <p>3. If control was held jointly with one or more other interests, state the fact in a footnote and name the other interests.</p> <p>4. In column (b) designate type of control of the respondent as "D" for direct, an "I" for indirect, or a "J" for joint control.</p> |
|--|--|

DEFINITIONS

- | | |
|--|---|
| <p>1. See the Uniform System of Accounts for a definition of control.</p> <p>2. Direct control is that which is exercised without interposition of an intermediary.</p> <p>3. Indirect control is that which is exercised by the interposition of an intermediary that exercises direct control.</p> | <p>4. Joint control is that in which neither interest can effectively control or direct action without the consent of the other, as where the voting control is equally divided between two holders, or each party holds a veto power over the other. Joint control may exist by mutual agreement or understanding between two or more parties who together have control within the meaning of the definition of control in the Uniform System of Accounts, regardless of the relative voting rights of each party.</p> |

SECURITY HOLDERS AND VOTING POWERS

1. Give the names and addresses of the 10 security holders of the respondent who, at the date of the latest closing of the stock book or compilation of list of stock holders of the respondent, prior to the end of the year, had the highest voting powers in the respondent, and state the number of votes that each could cast on that date if a meeting were held. If any such holder held in trust, give in a footnote the known particulars of the trust (whether voting trust etc.), duration of trust and principal holders of beneficiary interests in the trust. If the Company did not close the stock book or did not compile a list of stockholders within one year prior to the end of the year, or if since it compiled the previous list of stockholders, some other class of security has become vested with voting rights, then show such 10 security holders as of the close of the year. Arrange the names of the security holders in the order of voting power, commencing with the highest. Show in column (a) the titles of officers and directors included in such list of 10 security holders.

2. If any security other than stock carries voting rights, explain in a supplemental statement how such security became vested with voting rights and give other important details concerning the voting rights of such security. State whether voting rights are actual or contingent; if contingent, describe the contingency.

3. If any class of issue of security has any special privileges in the election of directors, trustees or managers or in the determination of corporate action by any method, explain briefly in a footnote.

4. Furnish details concerning any options, warrants, or rights outstanding at the end of the year for others to purchase securities of the respondent or any securities or other assets owned by the respondent, including prices, expiration dates, and other material information relating to exercise of the options, warrants, or rights. Specify the amount of such securities or assets any officer, director, associated company, or any of the 10 largest security holders is entitled to purchase. This instruction is inapplicable to convertible securities or to any securities substantially all of which are outstanding in the hands of the general public where the options, warrants or rights were issued on a prorata basis.

1. Give date of the latest closing of the stock book prior to end of year, and, state in a footnote, the purpose of such closing: <p style="text-align: center;">Not Applicable</p>	2. State the total number of votes cast at the latest general meeting prior to the end of year for election of directors of the respondent and number of such votes cast by proxy Total: 3,214,923 By Proxy: 0	3. Give the date and place of such meeting: January 23, 2019 by written consent of sole member

IMPORTANT CHANGES DURING THE QUARTER/YEAR

Give details concerning the matters indicated below. Make the statements explicit and precise, and number them in accordance with the inquiries. Answer each inquiry. Enter "none" or "not applicable" where applicable. If the answer is given elsewhere in the report, refer to the schedule in which it appears.

1. Changes in and important additions to franchise rights: Describe the actual consideration and state from whom the franchise rights were acquired. If the franchise rights were acquired without the payment of consideration, state that fact.
2. Acquisition of ownership in other companies by reorganization, merger or consolidation with other companies: Give names of companies involved, particulars concerning the transactions, name of the Commission authorizing the transaction, and reference to Commission authorization.
3. Purchase or sale of any operating unit or system: Briefly describe the property, and the related transactions, and cite Commission authorization, if any was required. Give date journal entries called for by Uniform System of Accounts were submitted to the Commission.
4. Important leaseholds (other than leaseholds for natural gas lands) that have been acquired or given, assigned or surrendered: Give effective dates, lengths of terms, names of parties, rents, and other conditions. State name of Commission authorizing lease and give reference to such authorization.
5. Important extension or reduction of transmission or distribution system: State territory added or relinquished and date operations began or ceased and cite Commission authorization, if any was required. State also the approximate number of customers added or lost and approximate annual revenues of each class of service.

Each natural gas company must also state major new continuing sources of gas made available to it from purchases, development, purchase contract or otherwise, giving location and approximate total gas volumes available, period of contracts, and other parties to any such arrangements, etc.

6. Obligations incurred or assumed by respondent as a guarantor for the performance by another of any agreement or obligation, including ordinary commercial paper maturing on demand or not later than one year after date of issue: State on behalf of whom the obligation was assumed and amount of the obligation. Cite Commission authorization if any was required.
7. Changes in articles of incorporation or amendments to charter: Explain the nature and purpose of such changes or amendments
8. State the estimated annual effect and nature of any important wage scale changes during the year.
9. State briefly the status of any materially important legal proceedings pending at the end of the year, and the results of any such proceedings culminated during the year.
10. Describe briefly any materially important transactions of the respondent not disclosed elsewhere in this report in which an officer, director, security holder, voting trustee, associated company or known associate of any of these persons was a party or in which any such person had a material interest.
11. Estimated increase or decrease in annual revenues caused by important rate changes: State effective date and approximate amount of increase or decrease for each revenue classification. State the number of customers affected.

New Jersey Natural Gas Company, for the purposes of this report, is referred to as "the Company".

1. Franchises

There were no changes to the number of franchises held in 2018. The following were approved for continuation

Municipality	Length of Time	Date Approved by BPU
Manasquan	20 years	7/25/2018

2, 3, 4, 6, 7, 9 and 10 None

5. a) See pages 514 and 524 for details of all transmission and distribution system activity for the year.

b) See pages 300-301 for details of revenues and volumes by class of service.

8. Effective December 8, 2017, the Union will receive a 3% increase. Effective December 8, 2018, the Union will receive a 3.5% increase.

The contract will expire at midnight, December 7, 2021.

Effective December 25, 2017, the Non-Union will receive a 3.20% increase. Effective December 24, 2018, the Union will receive a 3.36% increase.

IMPORTANT CHANGES DURING THE QUARTER/YEAR

LEGAL AND REGULATORY PROCEEDINGS

STATE-General

The EDECA is the legal framework for New Jersey's public utility and wholesale energy landscape. NJNG is required, pursuant to a written order by the BPU under EDECA, to open its residential markets to competition from third-party natural gas suppliers. Customers can choose the supplier of their natural gas commodity in NJNG's service territory.

As required by the EDECA, NJNG's rates are segregated into two primary components the commodity portion, which represents the wholesale cost of natural gas, including the cost for interstate pipeline capacity to transport the gas to NJNG's service territory, and the delivery portion, which represents the transportation of the commodity portion through NJNG's gas distribution system to the end-use customer. NJNG does not earn utility gross margin on the commodity portion of its natural gas sales. NJNG earns utility gross margin through the delivery of natural gas to its customers, regardless of whether it or a third-party supplier provides the wholesale natural gas commodity.

NJNG is subject to cost-based regulation, therefore, it is permitted to recover authorized operating expenses and earn a reasonable return on its utility capital investments based on the BPU's approval. The impact of the ratemaking process and decisions authorized by the BPU allows NJNG to capitalize or defer certain costs that are expected to be recovered from its customers as regulatory assets and to recognize certain obligations representing amounts that are probable future expenditures as regulatory liabilities in accordance with accounting guidance applicable to regulated operations.

NJNG's recovery of costs is facilitated through its base rates, BGSS and other regulatory tariff riders. NJNG is required to make an annual filing to the BPU by June 1 of each year for review of its BGSS, CIP and other programs and related rates. Annual rate changes are requested to be effective at the beginning of the following fiscal year. The current base rate includes a weighted average cost of capital of 6.9 percent and a return on common equity of 9.75 percent. In addition, NJNG is permitted to request approval of certain rate or program changes on an interim basis. All rate and program changes are subject to proper notification and BPU review and approval.

As recovery of regulatory assets is subject to BPU approval, if there are any changes in regulatory positions that indicate recovery is not probable, the related cost would be charged to income in the period of such determination.

NAME OF RESPONDENT New Jersey Natural Gas Company	This Report is: <input checked="" type="checkbox"/> An Original <input type="checkbox"/> A Resubmission	Date of Report March 31, 2019	Year of Report Dec. 31, 2018

IMPORTANT CHANGES DURING THE QUARTER/YEAR

Regulatory assets and liabilities included on the Consolidated Balance Sheets as of September 30, are composed of the following:

<i>(Thousands)</i>	2018	2017
Regulatory assets-current		
Conservation Incentive	\$ -	\$ 17,669
New Jersey Clean Energy Program	14,052	14,202
Underrecovered gas costs	4,137	9,910
Derivatives, net	108	9,010
Total current	\$ 18,297	\$ 50,791
Regulatory assets-noncurrent		
Environmental remediation costs		
Expended, net of	\$ 33,017	28,547
Liability for future expenditures	130,800	149,000
Deferred income taxes	17,225	21,795
Derivatives, net	-	-
SAVEGREEN	8,636	16,302
Postemployment and other benefit costs	136,716	141,433
Deferred Superstorm Sandy costs	10,858	13,030
Other noncurrent assets	31,340	5,812
Total noncurrent	\$ 368,592	\$ 375,919
Regulatory liability-current		
Derivatives at fair value, net	\$ 1,191	\$ 78
Conservation Incentive Program	6,994	
Overrecovered gas costs	-	-
Total current	\$ 8,185	\$ 78
Regulatory liabilities-noncurrent		
Tax Act Impact	205,410	-
Cost of removal obligation	\$ -	\$ 7,902
New Jersey Clean Energy Program	1,902	5,795
Other noncurrent liabilities	1827	664
Derivatives, net	-	146
Total noncurrent	\$ 209,139	\$ 14,507

Recovery of regulatory assets is subject to BPU approval, and therefore, if there are any changes in regulatory positions that indicate recovery is not probable, the related cost would be charged to income in the period of such determination.

Conservation Incentive Program

The CIP permits NJNG to recover utility gross margin variations related to customer usage resulting from customer conservation efforts and mitigates the impact of weather on its margin. Such utility gross margin variations are recovered in the year following the end of the CIP usage year, without interest, and are subject to additional conditions, including an earnings test, a revenue test and an evaluation of BGSS related savings. This program has no expiration date.

NAME OF RESPONDENT New Jersey Natural Gas Company	This Report is: <input checked="" type="checkbox"/> An Original <input type="checkbox"/> A Resubmission	Date of Report March 31, 2019	Year of Report Dec. 31, 2018
--	---	----------------------------------	---------------------------------

IMPORTANT CHANGES DURING THE QUARTER/YEAR

New Jersey Clean Energy Program

The NJCEP is a statewide program that encourages energy efficiency and renewable energy. Funding amounts are determined by the BPU's Office of Clean Energy and all New Jersey utilities are required to share in the annual funding obligation. The current NJCEP program is for the State of New Jersey's fiscal year ending June 2019. NJNG recovers the costs associated with its portion of the NJCEP obligation through its NJCEP rider, with interest.

Derivatives

Derivatives are utilized by NJNG to manage the price risk associated with its natural gas purchasing activities and to participate in certain BGSS incentive programs. The gains and losses associated with NJNG's derivatives are recoverable through its BGSS, as noted above, without interest.

Environmental Remediation Costs

NJNG is responsible for the cleanup of certain former gas manufacturing facilities. Actual expenditures are recovered from customers, with interest, over seven year rolling periods, through a RAC rate rider. Recovery for NJNG's estimated future liability will be requested and/or recovered when actual expenditures are incurred.

Deferred Income Taxes

Upon adoption of a 1993 provision of ASC 740, Income Taxes, NJNG recognized a transition adjustment and corresponding regulatory asset representing the difference between NJNG's existing deferred tax amounts compared with the deferred tax amounts calculated in accordance with the change in method prescribed by ASC 740. NJNG recovers the regulatory asset associated with these tax impacts through future base rates, without interest.

SAVEGREEN

NJNG administers certain programs that supplement the state's NJCEP and that allow NJNG to promote clean energy to its residential and commercial customers, as described further below. NJNG will recover related expenditures and a weighted average cost of capital on the unamortized balance through a tariff rider, without interest, as approved by the BPU, over a two- to 10-year period depending upon the specific program incentive.

Postemployment and Other Benefit Costs

Postemployment and Other Benefit Costs represents NJNG's underfunded postemployment benefit obligations, as well as a fiscal 2010 tax charge resulting from a change in the deductibility of federal subsidies associated with Medicare Part D, both of which are deferred as regulatory assets and are recoverable, without interest, in base rates. The BPU approved the recovery of the tax charge through NJNG's base rates effective October 2016 over a seven-year amortization period.

NAME OF RESPONDENT New Jersey Natural Gas Company	This Report is: <input checked="" type="checkbox"/> An Original <input type="checkbox"/> A Resubmission	Date of Report March 31, 2019	Year of Report Dec. 31, 2018
--	---	----------------------------------	---------------------------------

IMPORTANT CHANGES DURING THE QUARTER/YEAR

Deferred Storm Damage Costs

Portions of NJNG's distribution system incurred significant damage as a result of Superstorm Sandy in October 2012. NJNG deferred the uninsured incremental O&M costs associated with its restoration efforts, which were approved for recovery by the BPU through NJNG's base rates, without interest, effective October 2016 over a seven-year amortization period.

Other Regulatory Assets

Other regulatory assets consists primarily of deferred costs associated with certain components of NJNG's SBC, as discussed further in the regulatory proceedings section, and NJNG's compliance with federal- and state-mandated PIM provisions. NJNG's related costs to maintain the operational integrity of its distribution and transmission main are recoverable, without interest, subject to BPU review and approval. As of September 30, 2018, NJNG recorded \$3.2 million of PIM in other regulatory assets, which is being recovered through base rates over a seven-year amortization period effective October 2016.

Over and Underrecovered Gas Costs

NJNG recovers its cost of gas through the BGSS rate component of its customers' bills. NJNG's cost of gas includes the purchased cost of the natural gas commodity, fees paid to pipelines and storage facilities, adjustments as a result of BGSS incentive programs and hedging transactions. Overrecovered gas costs represent a regulatory liability that generally occurs when NJNG's BGSS rates are higher than actual costs and requests approval to be returned to customers including interest, when applicable, in accordance with NJNG's approved BGSS tariff. Conversely, underrecovered gas costs generally occurs during periods when NJNG's BGSS rates are lower than actual costs, in which case the NJNG records a regulatory asset and requests amounts to be recovered from customers in the future.

Cost of Removal Obligation

NJNG accrues and collects for cost of removal in base rates on its utility property, without interest. These costs are recorded in accumulated depreciation for regulatory reporting purposes, and actual costs of removal, without interest, will be recovered in subsequent rates, pursuant to the BPU order in docket number GR15111304 dated September 23, 2016. Consistent with GAAP, amounts recorded within accumulated depreciation for regulatory accounting purposes are reclassified out of accumulated depreciation to either a regulatory asset or a regulatory liability depending on whether actual cost of removal is still subject to collection or amounts overcollected will be refunded back to customers. NJNG's prior regulatory liability represented customer collections in excess of actual expenditures, which NJNG returned to customers as a reduction to depreciation expense.

NAME OF RESPONDENT New Jersey Natural Gas Company	This Report is: <input checked="" type="checkbox"/> An Original <input type="checkbox"/> A Resubmission	Date of Report March 31, 2019	Year of Report Dec. 31, 2018
--	---	----------------------------------	---------------------------------

IMPORTANT CHANGES DURING THE QUARTER/YEAR

The following is a description of regulatory proceedings during fiscal 2017 and 2018:

BGSS and CIP

BGSS rates are normally revised on an annual basis. In addition, to manage the fluctuations in wholesale natural gas costs, NJNG has the ability to make two interim filings during each fiscal year to increase residential and small commercial customer BGSS rates on a self-implementing and provisional basis. NJNG is also permitted to refund or credit back a portion of the commodity costs to customers at any given five days' notice when the natural gas commodity costs decrease in comparison to amounts projected or to amounts previously collected from customers. Concurrent with the annual BGSS filing, NJNG files for an annual review of its CIP. NJNG's annual BGSS and CIP filings are summarized as follows:

- June 2016 BGSS/CIP filing — In September 2016, the BPU approved NJNG's filing to increase its CIP rates resulting in a \$43.9 million annual recovery increase and to decrease its annual BGSS rate for residential and small commercial customers resulting in a \$22.6 million annual recovery decrease effective October 2016. This petition also included bill credits to residential and small commercial customers during the months of November 2016 through February 2017, as a result of a decline in the wholesale price of natural gas. A total of \$42 million in bill credits were issued during fiscal 2017.
- June 2017 BGSS/CIP filing — In March 2018, the BPU approved NJNG's petition on a final basis to maintain its BGSS rate for residential and small commercial customers, increase its balancing charge rate, which resulted in a \$3.7 million increase to the annual revenues credited to BGSS and decrease its CIP rates, which resulted in a \$16.2 million annual recovery decrease that was effective October 2017.
- May 2018 BGSS/CIP filing — On September 17, 2018, the BPU provisionally approved NJNG's petition to maintain its BGSS rate for residential and small commercial customers and increase its balancing charge rate, resulting in a \$10.3 million increase to the annual revenues credited to BGSS, as well as changes to the CIP rates, which will result in a \$30.9 million annual recovery decrease effective October 2018.

BGSS Incentive Programs

NJNG is eligible to receive financial incentives for reducing BGSS costs through a series of utility gross margin-sharing programs that include off-system sales, capacity release and storage incentive programs. NJNG is permitted to annually propose a process to evaluate and discuss alternative incentive programs, should performance of the existing incentives or market conditions warrant re-evaluation.

NAME OF RESPONDENT New Jersey Natural Gas Company	This Report is: <input checked="" type="checkbox"/> An Original <input type="checkbox"/> A Resubmission	Date of Report March 31, 2019	Year of Report Dec. 31, 2018
--	---	----------------------------------	---------------------------------

IMPORTANT CHANGES DURING THE QUARTER/YEAR

Energy Efficiency Programs

SAVEGREEN conducts home energy audits and provides various grants, incentives and financing alternatives, which are designed to encourage the installation of high efficiency heating and cooling equipment and other energy efficiency upgrades to promote energy efficiency incentives to its residential and commercial customers while stimulating state and local economies through the creation of jobs. Depending on the specific initiative or approval, NJNG recovers costs associated with the programs over a three- to 10-year period through a tariff rider mechanism. As of September 30, 2018, the BPU has approved total SAVEGREEN investments of approximately \$354.3 million, including \$135 million that was approved on September 17, 2018, for a continuation of existing EE programs and the implementation of new programs through December 2021. SAVEGREEN investments and costs are filed with the BPU on an annual basis. Since inception, \$162 million in grants, rebates and loans have been provided to customers, with a total annual recovery of approximately \$16.1 million. The recovery includes a weighted average cost of capital that ranges from 6.69 percent to 7.76 percent, with a return on equity of 9.75 percent to 10.3 percent, respectively. On October 16, 2018, NJNG requested a decrease in its EE recovery rate reflecting costs incurred through September 30, 2018, which will result in an annual decrease of \$8.8 million, anticipated to be effective January 1, 2019.

Societal Benefits Clause

The SBC is comprised of three primary riders that allow the NJNG to recover costs associated with USF, which is a permanent statewide program for all natural gas and electric utilities for the benefit of income-eligible customers, MGP remediation, and the NJCEP. NJNG has submitted the following filings to the BPU, which includes a report of program expenditures incurred each program year:

- 2017 SBC filing — In September 2017, the BPU approved NJNG's annual USF compliance filing to decrease the statewide USF rate, which will result in a \$2.6 million annual decrease, effective October 1, 2017. On July 25, 2018, the BPU approved NJNG's annual SBC filing requesting to recover remediation expenses incurred through June 30, 2017, a reduction in the RAC, which resulted in an annual decrease of \$2.4 million, and to increase the NJCEP factor, which will result in an annual increase of \$1.8 million, effective September 1, 2018.
- 2018 SBC filing — On September 17, 2018, the BPU approved NJNG's annual USF compliance filing to increase the statewide USF rate, which will result in a \$1 million annual increase, effective October 1, 2018. On September 21, 2018, NJNG filed its annual SBC application requesting to recover remediation expenses incurred through June 30, 2018, an increase in the RAC, which will result in an annual increase of \$1.4 million, and an increase to the NJCEP factor, which will result in an annual increase of approximately \$1.9 million, effective April 1, 2019.

NAME OF RESPONDENT New Jersey Natural Gas Company	This Report is: <input checked="" type="checkbox"/> An Original <input type="checkbox"/> A Resubmission	Date of Report March 31, 2019	Year of Report Dec. 31, 2018
--	---	----------------------------------	---------------------------------

IMPORTANT CHANGES DURING THE QUARTER/YEAR

Infrastructure Programs

NJNG has significant annual capital expenditures associated with the management of its natural gas distribution and transmission system, including new utility plant for customer growth and its associated PIM and infrastructure programs. NJNG continues to implement BPU-approved infrastructure projects that are designed to enhance the reliability of NJNG's gas distribution system, including SAFE and NJ RISE.

SAFE/NJ RISE

The SAFE program replaces portions of NJNG's gas distribution unprotected steel, cast iron infrastructure and associated services to improve the safety and reliability of the gas distribution system. SAFE I was approved to invest up to \$130 million, exclusive of AFUDC, over a four-year period. The recovery of SAFE I capital investments and the corresponding rate mechanism were approved through NJNG's base rate case effective October 2016. SAFE II was approved to invest up to \$200 million, excluding AFUDC, over a five-year period. NJNG will recover approximately \$157.5 million through annual rate filings, with the remainder recovered through subsequent rate cases. As a condition of approval of the program, NJNG is required to file a base rate case no later than November 2019.

NJ RISE consists of six capital investment projects estimated to cost \$102.5 million over a five-year period, excluding AFUDC, for gas distribution storm-hardening and mitigation projects, along with incremental depreciation expense. NJ RISE includes a weighted average cost of capital that ranges from 6.74 percent to 6.9 percent and a return on equity of 9.75 percent. NJ RISE investments through June 30, 2016, were approved for recovery through NJNG's new base rates effective October 2016. Requests for recovery of future NJ RISE capital costs will occur in conjunction with SAFE II.

In September 2017, the BPU approved NJNG's annual petition requesting a base rate increase for the recovery of NJ RISE and SAFE II capital investment costs with an annual increase of \$4.1 million effective October 1, 2017. On September 17, 2018, the BPU approved NJNG's petition requesting a base rate increase of \$6.8 million annually for the recovery of SAFE II and NJ RISE capital investment costs related to the 12 months ending June 30, 2018 effective October 1, 2018.

NAME OF RESPONDENT New Jersey Natural Gas Company	This Report is: <input checked="" type="checkbox"/> An Original <input type="checkbox"/> A Resubmission	Date of Report March 31, 2019	Year of Report Dec. 31, 2018
--	---	----------------------------------	---------------------------------

IMPORTANT CHANGES DURING THE QUARTER/YEAR

SRL

The SRL is an approximately 30-mile, 30-inch transmission main designed to support improved system integrity and reliability in the southern portion of NJNG's service territory, estimated to cost between \$180 million and \$215 million. In March 2016, the BPU issued an order designating the SRL route and exempting the SRL from municipal land use ordinances, regulations, permits and license requirements. In February 2017, the New Jersey Department of Environmental Protection issued a permit authorizing construction of the SRL within the jurisdiction of the Coastal Area Facility Review Act as well as a Freshwater Wetlands permit. In September 2017, the NJ Pinelands Commission approved construction of NJNG's SRL. All approvals and permits have been appealed by third parties.

Other Regulatory Initiatives

In May 2016, NJNG included a proposal in its base rate case to recover certain capital costs and incremental operation and maintenance costs related to a March 2016 BPU Order regarding new cyber security requirements. Costs associated with this initiative were approved for recovery through NJNG's base rates effective October 2016.

In June 2016, NJNG's liquefaction project became operational, allowing NJNG to convert natural gas into LNG and to fill NJNG's existing LNG storage tanks. Costs for this project along with other plant upgrades were approximately \$36.5 million. Costs associated with this initiative were approved for recovery through NJNG's base rates effective October 2016.

The Tax Act

On December 22, 2017, the Tax Act was signed into law, which resulted in a reduction in the federal corporate tax rate. As a result, NJNG recorded a regulatory liability, which included the revaluation of its deferred income taxes and the accounting of the income tax effects on the revaluation. The revaluation was based on certain assumptions and estimations NJNG made with respect to its deferred taxes, as well as the effects from the Tax Act, and as such is subject to change if and when assumptions are updated.

On January 31, 2018, the BPU issued an Order which directed New Jersey utilities to submit filings to the BPU by March 2, 2018, to propose the prospective change in base rates as a result of the Tax Act to be effective April 1, 2018, the method to return to customers the overcollection of taxes in base rates from January 1, 2018, through March 31, 2018 and an outline of the method by which the excess deferred taxes would be returned to customers. The excess deferred taxes are primarily related to timing differences associated with utility plant depreciation and are subject to IRS normalization rules, which require amortization over the remaining life of the utility plant.

On March 1, 2018, NJNG submitted its required filing to the BPU proposing a \$19.7 million base rate reduction and customer refunds of approximately \$31 million, which is inclusive of state sales tax and interest at the Company's short-term debt rate as specified in the Company's last base rate case. On March 26, 2018, the BPU approved, on an interim basis, the \$19.7 million rate reduction, effective April 1, 2018. On May 22, 2018, the BPU approved final rates and also customer refunds of the \$31 million. These credits were returned to customer accounts in June 2018.

STATEMENT OF RETAINED EARNINGS

1. Report all changes in appropriated retained earnings, unappropriated retained earnings, and unappropriated undistributed subsidiary earnings for the year.
2. Each credit and debit during the year should be identified as to the retained earnings account in which recorded (accounts 433, 436-439 inclusive). Show the contra primary account affected in column (b).
3. State the purpose and amount for each reservation or appropriation of retained earnings.
4. List first Account 439, Adjustments to Retained Earnings, reflecting adjustments to the opening balance of retained earnings. Follow by credit, then debit items, in that order.
5. Show dividends for each class and series of capital stock

STATEMENT OF CASH FLOWS

1. Information about noncash investing and financing activities should be provided on page 122. Provide also on page 122 a reconciliation between "Cash and Cash Equivalents at "End of Year" with related amounts on the balance sheet.
2. Under "Other" specify significant amounts and group others.
3. Operating Activities Other: Include gains and losses pertaining to operating activities only. Gains and losses pertaining to investing and financing activities should be reported in those activities. Show on page 122 the amounts of interest paid (net of amounts capitalized) and income taxes paid.

NOTES TO FINANCIAL STATEMENTS

1. Provide important disclosures regarding the Balance Sheet, Statement of Income for the Year, Statement of Retained Earnings for the Year, and Statement of Cash Flow, or any account thereof. Classify the disclosures according to each financial statement, providing a subheading for each statement except where a disclosure is applicable to more than one statement. The disclosures must be on the same subject matters and in the same level of detail that would be required if the respondent issued general purpose financial statements to the public or shareholders.
2. Furnish details as to any significant contingent assets or liabilities existing at year end, and briefly explain any action initiated by the Internal Revenue Service involving possible assessment of additional income taxes of material amount, or a claim for refund of income taxes of a material amount initiated by the utility. Also, briefly explain any dividends in arrears on cumulative preferred stock.
3. Furnish details on the respondent's pension plans, post-retirement benefits other than pension (PBOP) plans, and post-employment benefit plans as required by Instruction no. 1 and, in addition, disclose for each individual plan the current year's cash contributions. Furnish details on the accounting for the plans and any changes in the method of accounting for them. Include details on the accounting for transition obligations or assets, gains or losses, the amounts deferred and the expected recovery periods. Also, disclose any current year's plan or trust curtailments, terminations, transfers, or reversions of assets. Entities that participate in multiemployer postretirement benefit plans (e.g. parent company Sponsored pension plans) disclose in addition to the required disclosures for the consolidated plan, (1) the amount of cost Recognized in the respondent's financial statements for each plan for the period presented, and (2) the basis for determining the Respondents share of the total plan costs.
- 4) Furnish details on the respondent's asset retirement obligations (ARO) as required by instruction no. 1 and, in addition to, disclose The amounts recovered through rates to settle such obligations. Identify any mechanism or account in which recovered funds are being Placed (i.e. trust funds, insurance policies, surety bonds). Furnish details on the accounting for the asset retirement obligations and any Changes in the measurement or method of accounting for the obligations. Include details on the accounting for settlement of the obligations
And any gains or losses expected or incurred on the settlement.
5. Provide list of all environmental credits received during the reporting period.
6. Provide a summary of revenues and expenses for each tracked cost and special surcharge.
7. Where Account 189, Unamortized Loss on Reacquired Debt, and 257, Unamortized Gain on Reacquired Debt, are not used, give an explanation, providing the rate treatment given these items. See General Instruction 17 of the Uniform System of Accounts.
8. Explain concisely any retained earnings restrictions and state the amount of retained earnings affected by such restrictions.
9. Disclose details on any significant financial changes during the reporting year to the respondent or the respondent's consolidated group that directly affect the respondent's gas pipeline operations, including: sales, transfers or mergers of affiliates, investments in new partnerships, sales of gas pipeline facilities or the sale of ownership interests in the gas pipeline to limited partnerships, investments in related industries (i.e. production, gathering) major pipeline investments, acquisitions by the parent corporation(s), and distributions of capital.
10. Explain concisely unsettled rate proceedings where a contingency exists such that the company may need to refund a material amount to the utility's customers of that the utility may receive a material refund with respect to power or gas purchases. State for each year affected the gross revenues or costs to which the contingency relates and the tax effects and explain the major factors that affect the rights of the utility to retain such revenues or to recover amounts paid with respect to power and gas purchases.
11. Explain concisely significant amounts of any refunds made or received during the year resulting from settlement of any rate proceeding affecting revenues received or costs incurred for power or gas purchases, and summarize the adjustments made to balance sheet, income, and expense accounts.
12. Explain concisely only those significant changes in accounting methods made during the year which had an effect on net income, including, the basis of allocations and apportionments from those used in the preceding year. Also give the approximate dollar effect of such changes.
13. For the 3Q disclosures, respondent must provide in the notes sufficient disclosures so as to make the interim information not misleading. Disclosures which would substantially duplicate the disclosures contained in the most recent FERC Annual Report may be omitted.
14. For the 3Q disclosures, the disclosures shall be provided where events subsequent to the end of the most recent year have occurred which have a material effect on the respondent. Respondent must include in the notes significant changes since the most recent completed year in such items as; accounting principles and practices; estimates inherent in the preparation of the financial statements, status of long-term contracts; capitalization including significant new borrowings or modifications of existing financing agreements; and changes resulting from business combinations or dispositions. However, where material contingencies exist, the disclosure of such matters shall be provided even though a significant change since year-end may not have occurred.
15. Finally, if the notes to the financial statements relating to the respondent appearing in the annual report to the stockholders are applicable and furnish the data required by the above instructions, such notes may be included herein.

Regulatory Assets & Liabilities

Under cost-based regulation, regulated utility enterprises generally are permitted to recover their operating expenses and earn a reasonable rate of return on their utility investment.

NJNG maintains its accounts in accordance with the FERC Uniform System of Accounts as prescribed by the BPU and in accordance with the *Regulated Operations* Topic of the FASB ASC. As a result of the impact of the ratemaking process and regulatory actions of the BPU, NJNG is required to recognize the economic effects of rate regulation. Accordingly, NJNG capitalizes or defers certain costs that are expected to be recovered from its customers as regulatory assets and recognizes certain obligations representing probable future expenditures as regulatory liabilities on the Balance Sheets.

Respondent New Jersey Natural Gas Company	This Report is: <input checked="" type="checkbox"/> An Original <input type="checkbox"/> A Resubmission	Date of Report (Mo, Da, Yr) March 31, 2019	Year of Report Dec. 31, 2018
--	--	---	--

NOTES TO FINANCIAL STATEMENTS

Gas in Storage

Gas in storage is reflected at average cost on the Balance Sheets, and represents natural gas and LNG that will be utilized in the ordinary course of business. NJNG had 24.9 Bcf and 21.8 Bcf of gas in storage as of September 30, 2018 and 2017, respectively.

Demand Fees

For the purpose of securing storage and pipeline capacity, NJNG enters into storage and pipeline capacity contracts, which require the payment of associated demand fees and charges that allow access to a high priority of service in order to maintain the ability to access storage or pipeline capacity, during a fixed time period, which generally ranges from one to 10 years. Many of these demand fees and charges are based on established tariff rates as established and regulated by FERC. These charges represent commitments to pay storage providers and pipeline companies for the priority right to transport and/or store natural gas utilizing their respective assets.

Demand fees of \$92.5 million and \$80.2 million for fiscal years ended September 30, 2018 and 2017, respectively, which are net of fees received for capacity release, are included in its weighted average cost of gas. The demand charges are expensed as a component of gas purchases in the Statements of Operations based on BGSS sales and recovered as part of its gas commodity component of its BGSS tariff.

Derivative Instruments

Derivative instruments associated with natural gas commodity contracts are recorded in accordance with the *Derivatives and Hedging* Topic of ASC 815, under which NJNG records the fair value of derivatives, held as assets and liabilities. ASC 815 also provides for a NPNS election for physical commodity contracts that meet the definition of a derivative and require physical delivery that is in the normal course of business. Effective January 1, 2016, NJNG prospectively applies this normal scope exception on a case by case basis to physical commodity contracts and when it does, it accounts for these contracts on an accrual basis as the underlying physical natural gas is delivered. Realized and unrealized gains and/or losses on NJNG's derivatives used to economically hedge its natural gas supply obligations, as well as its exposure to interest rate variability are recoverable as a component of its BGSS tariff rate. Accordingly, the offset to the change in fair value of these derivatives is recorded as a regulatory asset or liability on the Balance Sheets.

Fair values of exchange-traded futures and options contracts are based on unadjusted, quoted prices in active and published markets. NJNG's Treasury Lock agreement is valued using observable, quoted interest rate data and pricing models to estimate fair values that are compared against counterparty provided valuations for reasonableness. Fair values are subject to change in the near term and reflect management's best estimate based on a variety of factors. Estimating fair values of instruments that do not have quoted market prices requires management's judgment in determining amounts that could reasonably be expected to be received from, or paid to, a third party in settlement of the instruments. These amounts could be materially different from amounts realized in an actual sale transaction.

Revenues

Revenues from the sale of natural gas to customers of NJNG are recognized in the period that gas is delivered and consumed by customers, including an estimate for unbilled revenue.

NJNG records unbilled revenue for natural gas services. Natural gas sales to individual customers are based on meter readings, which are performed on a systematic basis throughout the month. At the end of each month, the amount of natural gas delivered to each customer after the last meter reading through the end of the respective accounting period is estimated, and NJNG recognizes unbilled revenues related to these amounts. The unbilled revenue estimates are based on estimated customer usage by customer type, weather effects, unaccounted-for gas and the most current tariff rates.

Gas Purchases

NJNG's tariff includes a component for BGSS, which is designed to allow the recovery of the cost of natural gas through rates charged to its customers and is typically revised on an annual basis. As part of computing its BGSS rate, NJNG projects its cost of natural gas, net of supplier refunds, the impact of hedging activities and cost savings created by BGSS incentive programs. NJNG subsequently recovers or credits the difference, if any, of actual costs compared with those included in current rates. Any underrecoveries or overrecoveries are either credited to customers or deferred and, subject to BPU approval, reflected in the BGSS rates in subsequent years.

Income Taxes

NJNG computes income taxes using the asset and liability method, whereby deferred income taxes are generally determined based on the difference between the financial statement and tax basis of assets and liabilities using enacted tax rates in effect in the years in which the differences are expected to reverse. In addition, NJNG evaluates its tax positions to determine the appropriate accounting and recognition of future obligations associated with unrecognized tax benefits.

ITCs have been deferred and are being amortized as a reduction to the tax provision over the average lives of the related equipment in accordance with regulatory treatment.

Respondent New Jersey Natural Gas Company	This Report is:	Date of Report (Mo, Da, Yr)	Year of Report
	<input checked="" type="checkbox"/> An Original <input type="checkbox"/> A Resubmission	March 31, 2019	Dec. 31, 2018

NOTES TO FINANCIAL STATEMENTS

NJNG is included in the consolidated tax return of NJR. NJNG calculates the provision for income taxes by using a separate return method. Under this method, NJNG is assumed to file a separate return with the tax authority, thereby reporting its taxable income or loss and paying the applicable tax to or receiving the appropriate refund from NJR. NJNG's current provision is the amount of tax payable or refundable on the basis of a hypothetical, current-year separate return. NJNG provides deferred taxes on temporary differences and on any carryforwards that we could claim on our hypothetical return and assesses the need for a valuation allowance on the basis of our projected separate return results. Any difference between the tax provision or benefit computed by NJNG under the separate return method and payments to be made to or received from NJR for tax expense are settled through intercompany payments.

Capitalized and Deferred Interest

NJNG's base rates include the ability to recover AFUDC on its construction work in progress. For all of the construction projects, an incremental cost of equity is recoverable during periods when NJNG's short-term debt balances are lower than its construction work in progress. For more information on AFUDC treatment with respect to certain accelerated infrastructure projects.

Capitalized amounts associated with the debt and equity components of NJNG's AFUDC are recorded in utility plant on the Balance Sheets. Corresponding amounts for the debt component is recognized in interest expense and in other income for the equity component on the Statements of Operations and include the following for the fiscal years ended September 30:

(\$ in thousands)	2018	2017
AFUDC:		
Debt	\$ 1,979	\$ 1,311
Equity	5,531	3,867
Total	\$ 7,510	\$ 5,178
Weighted average interest rate	5.94%	6.90%

Pursuant to a BPU order, NJNG is permitted to recover carrying costs on uncollected balances related to SBC program costs, which include NJCEP, RAC and USF expenditures. The SBC interest rate changes each September based on the August 31 seven-year constant maturity treasury rate plus 60 basis points. The rate was 3.41 percent and 2.55 percent for the fiscal years ended September 30, 2018 and 2017, respectively. Accordingly, other income included \$411,000 and \$78,000 for the fiscal years ended September 30, 2018 and 2017, respectively.

Sale-Leasebacks

NJNG utilizes sale-leaseback arrangements as a financing mechanism to fund certain of its capital expenditures related to natural gas meters, whereby the physical asset is sold concurrent with an agreement to lease the asset back. These agreements include options to renew the lease at the end of the term or repurchase the asset. Proceeds from sale-leaseback transactions are accounted for as financings and are included in long-term debt on the Balance Sheets.

During fiscal 2018 and 2017, NJNG received \$7.8 million and \$9.6 million, respectively, in connection with the sale-leaseback of its natural gas meters with terms ranging from seven to 11 years.

Sales Tax Accounting

Sales tax that is collected from customers is presented in both operating revenues and operating expenses on the Statements of Operations. Sales tax collected was \$39.4 million and \$37.9 million for the fiscal years ended September 30, 2018 and 2017, respectively. Effective January 1, 2017, the New Jersey sales tax rate decreased from 7 percent to 6.875 percent. Effective January 1, 2018, the New Jersey sales tax rate decreased again to 6.625 percent.

Cash and Cash Equivalents

Cash and cash equivalents consists of cash on deposit and temporary investments with maturities of three months or less, and excludes restricted cash of \$252,000 and \$243,000 as of September 30, 2018 and 2017, respectively, related to escrow balances for utility plant projects, which is recorded in other current and noncurrent assets on the Balance Sheets.

Property Plant and Equipment

Regulated property, plant and equipment is stated at original cost. Costs include direct labor, materials and third-party construction contractor costs, AFUDC and certain indirect costs related to equipment and employees engaged in construction. Upon retirement, the cost of depreciable regulated property, plus removal costs less salvage, is charged to accumulated depreciation with no gain or loss recorded.

Depreciation is computed on a straight-line basis over the useful life of the assets for financial statement purposes and using rates based on the estimated average lives of the various classes of depreciable property. The composite rate of depreciation used was 2.29 percent of average depreciable property in fiscal 2018 and 2.25 percent in fiscal 2017. The Company recorded in depreciation expense of \$53.2 million and \$49.3 million during fiscal 2018 and 2017, respectively. Effective October 1, 2016, the overall depreciation rate is 2.4 percent, as settled in the base rate case.

NOTES TO FINANCIAL STATEMENTS

Property, plant and equipment was comprised of the following as of September 30, 2018 and 2017:

(Thousands)

Property Classifications	Estimated Useful Lives	2018	2017
Distribution facilities	38 to 74 years	\$ 2,151,249	\$ 1,952,697
Transmission facilities	35 to 56 years	295,692	294,586
Storage facilities	34 to 47 years	79,470	78,245
All other property	5 to 35 years	34,984	35,114
Total property, plant and equipment		2,561,395	2,360,642
Accumulated depreciation and amortization		(530,753)	(489,122)
Property, plant and equipment, net		\$ 2,030,642	\$ 1,871,520

Long-Lived Assets

NJNG reviews the recoverability of long-lived assets whenever events or changes in circumstances indicate that the carrying value of such assets may not be recoverable, such as significant adverse changes in regulation, business climate or market conditions, including prolonged periods of adverse commodity and capacity prices. If there are changes indicating that the carrying value of such assets may not be recoverable, an undiscounted cash flows test is performed. If the sum of the expected future undiscounted cash flows is less than the carrying amount of the asset, an impairment loss is recognized by reducing the recorded value of the asset to its fair value. During the year, NJNG evaluated whether there were such events or circumstances that occurred and concluded that there were no events or circumstances in the current year that indicated that the carrying value of long-lived assets is not recoverable.

Customer Accounts Receivable and Allowance for Doubtful Accounts

NJNG's receivables consist of natural gas sales and transportation services billed to residential, commercial, industrial and other customers. NJNG evaluates its accounts receivables and, to the extent customer account balances are outstanding for more than 60 days, establishes an allowance for doubtful accounts. The allowance is based on a combination of factors including historical collection experience and trends, aging of receivables, general economic conditions in NJNG's distribution or sales territories, and customer specific information. NJNG writes-off customers' accounts once it is determined they are uncollectible.

Loans Receivable

NJNG currently provides loans, with terms ranging from three to 10 years, to customers that elect to purchase and install certain energy efficient equipment in accordance with its BPU-approved SAVEGREEN program. The loans are recognized at net present value on the Balance Sheets. NJNG has recorded \$10.4 million and \$8.9 million in other current assets and \$39.5 million and \$40.4 million in other noncurrent assets as of September 30, 2018 and 2017, respectively, on the Balance Sheets, related to the loans. If NJNG determines a loan is impaired, the basis of the loan would be subject to regulatory review for recovery. As of September 30, 2018 and 2017, NJNG has not recorded an allowance for doubtful accounts for SAVEGREEN loans.

Asset Retirement Obligations (ARO)

NJNG recognizes AROs related to the costs associated with cutting and capping mains and service gas distribution mains, which is required by New Jersey law when taking such gas distribution mains out of service.

ARO's are initially recognized when the legal obligation to retire an asset has been incurred and a reasonable estimate of fair value can be made. The discounted fair value is recognized as an ARO liability with a corresponding amount capitalized as part of the carrying cost of the underlying asset. The obligation is subsequently accreted to the future value of the expected retirement cost and the corresponding asset retirement cost is depreciated over the life of the related asset. Accretion amounts are recognized as part of its depreciation expense and the corresponding regulatory asset and liability will be shown gross on the Balance Sheets.

Estimating future removal costs requires management to make significant judgments because most of the removal obligations span long time frames and removal may be conditioned upon future events. Asset removal technologies are also constantly changing, which makes it difficult to estimate removal costs. Accordingly, inherent in the estimate of AROs are various assumptions including the ultimate settlement date, expected cash outflows, inflation rates, credit-adjusted risk-free rates and consideration of potential outcomes where settlement of the ARO can be conditioned upon events. In the latter case, NJNG develops possible retirement scenarios and assign probabilities based on management's reasonable judgment and knowledge of industry practice. Accordingly, AROs are subject to change.

Pension and Postemployment Plans

NJNG has two noncontributory defined pension plans covering eligible employees, including officers. Benefits are based on each employee's years of service and compensation. NJNG's funding policy is to contribute annually to these plans at least the minimum amount required under the Employee Retirement Income Security Act, as amended, and not more than can be deducted for federal income tax purposes. Plan assets consist of equity securities, fixed-income securities and short-term investments. In fiscal 2018 and 2017, NJNG had no minimum funding requirements. NJNG made no discretionary contributions to the pension plans in fiscal 2018 and 2017.

NJNG also provides two primarily noncontributory medical and life insurance plans for eligible retirees and dependents. Medical benefits, which make up the largest component of the plans, are based upon an age and years-of-service vesting schedule and other plan provisions. Funding of these benefits is made primarily into Voluntary Employee Beneficiary Association trust funds. NJNG contributed \$6.1 million and \$5.7 million in aggregate to these plans in fiscal 2018 and 2017, respectively, which is recorded in postemployment employee benefit liability on the Balance Sheets.

NOTES TO FINANCIAL STATEMENTS

Recent Updates to the Accounting Standards Codification (ASC)

Intangibles

In August 2018, the FASB issued ASU No. 2018-15, an amendment to ASC 350, Intangibles - Goodwill and Other, which aligns the requirements for capitalizing implementation costs incurred in a hosting arrangement that is a service contract with the requirements for capitalizing implementation costs incurred to develop or obtain internal-use software (and hosting arrangements that include an internal-use software license). The guidance is effective for NJNG beginning October 1, 2020, with early adoption permitted. Upon adoption, the amendment will be applied on a prospective or retrospective basis.

Other Recent Updates to the Accounting Standards Codification

Revenue

In May 2014, the FASB issued ASU No. 2014-09, and added ASC 606, *Revenue from Contracts with Customers*, to the ASC. ASC 606 supersedes ASC 605, *Revenue Recognition*, as well as most industry-specific guidance, and prescribes a single, comprehensive revenue recognition model designed to improve financial reporting comparability across entities, industries, jurisdictions and capital markets. NJNG adopted the new guidance on October 1, 2018, and will apply the new provisions on a modified retrospective basis.

Management established an implementation team to evaluate the impact on NJNG's financial position, results of operations and cash flows upon adoption of ASC 606. This implementation team reviewed the revenue streams of all of its subsidiaries and formed conclusions to determine if any system, process, controls and organizational changes are necessary upon adoption. The assessment of the impact of this guidance included reviewing NJNG's accounting policies under ASC 605 and identifying potential differences after the adoption of ASC 606. NJNG concluded that its tariff-based sales of natural gas will be within the scope of the new guidance and it does not anticipate any modification to the pattern of revenue recognition from such sales. Revenues from derivative instruments such as those related to NJNG's natural gas purchases and sales will continue to be accounted for under ASC 815 and thus are outside the scope of ASC 606. Additionally, revenues generated by the CIP have been determined to be alternative revenue programs under ASC 980 and are also outside the scope of ASC 606 as they are deemed to be a contract with the regulator, and therefore will be presented or disclosed separately.

NJNG has completed its evaluation of its revenue streams, and based on the assessment performed, has concluded that the new guidance will not have a material impact on its financial position, results of operations or cash flows upon adoption. Additionally, NJNG did not implement significant changes to its business processes, systems or internal controls over financial reporting upon adoption. ASC 606 requires expanded disclosures, including the disclosure of performance obligations, disaggregated revenues and contract balances, which NJNG will include in its financial statements beginning in fiscal 2019.

Inventory

In July 2015, the FASB issued ASU No. 2015-11, an amendment to ASC 330, Inventory, which requires entities to measure most inventory "at the lower of cost or net realizable value," thereby simplifying the current guidance under which an entity must measure inventory at the lower of cost or market. NJNG adopted the new guidance in the first quarter of fiscal 2018 and applied the new provisions on a prospective basis, which did not impact its financial position, results of operations or cash flows upon adoption.

Financial Instruments

In June 2016, the FASB issued ASU No. 2016-13, an amendment to ASC 326, *Financial Instruments - Credit Losses*, which changes the impairment model for certain financial assets that have a contractual right to receive cash, including trade and loan receivables. The new model requires recognition based upon an estimation of expected credit losses rather than recognition of losses when it is probable that they have been incurred. An entity will apply the amendment through a cumulative-effect adjustment to retained earnings as of the beginning of the first reporting period in which the guidance is effective. The guidance is effective for NJNG beginning October 1, 2020, with early adoption permitted. NJNG is currently evaluating the amendment to understand the impact on its financial position, results of operations and cash flows upon adoption and will apply the new guidance to its trade and loan receivables on a modified retrospective basis.

NOTES TO FINANCIAL STATEMENTS

Leases

In February 2016, the FASB issued ASU No. 2016-02, an amendment to ASC 842, *Leases*, which provides for a comprehensive overhaul of the lease accounting model and changes the definition of a lease within the accounting literature. Under the new standard, all leases with a term greater than one year will be recorded on the balance sheet. Amortization of the related asset will be accounted for using one of two approaches prescribed by the guidance. Additional disclosures will be required to allow the user to assess the amount, timing and uncertainty of cash flows arising from leasing activities. A modified retrospective transition approach is required for leases existing at the time of adoption.

In January 2018, the FASB issued ASU No. 2018-01, a further amendment to ASC 842, *Leases*, which was introduced by ASU No. 2016-02, as discussed above. This update provides an optional practical expedient that allows companies to not evaluate existing or expired land easements that were not previously accounted for under Topic 840 as leases. NJNG expects to elect this practical expedient upon adoption. The guidance is effective for NJNG beginning October 1, 2020, with early adoption permitted.

In July 2018, the FASB issued ASU No. 2018-11, which provides an optional transition method to ASC 842 that allows NJNG to recognize a cumulative effect adjustment to the opening balance of retained earnings in the period of adoption. At this time, NJNG does not plan to early adopt the new guidance and expects to transition on a modified retrospective basis. While NJNG is currently evaluating the full impact of the standard and its related updates, it expects to recognize additional assets and liabilities arising from current operating leases to its financial position upon adoption. Current operating leases primarily consist of office leases.

Statement of Cash Flows

In August 2016, the FASB issued ASU No. 2016-15, an amendment to ASC 230, *Statement of Cash Flows*, which addresses eight specific cash flow issues for which there has been diversity in practice. The guidance is effective for NJNG beginning October 1, 2018. The amendment will be applied on a retrospective basis and NJNG does not expect any material impacts to its statement of cash flows.

In November 2016, the FASB issued ASU No. 2016-18, an amendment to ASC 230, *Statement of Cash Flows*, which requires that any amounts that are deemed to be restricted cash or restricted cash-equivalents be included in cash and cash-equivalent balances on the cash flow statement and, therefore, transfers between cash and restricted cash accounts will no longer be recognized within the statement of cash flows. The guidance is effective for NJNG beginning October 1, 2018, and will be applied on a retrospective basis. Based on NJNG's historical restricted cash balances, it does not expect any material impacts to its statement of cash flows.

Compensation - Retirement Benefits

In March 2017, the FASB issued ASU No. 2017-07, an amendment to ASC 715, *Compensation - Retirement Benefits*, which changes the presentation of net periodic benefit cost on the income statement by requiring companies to present all components of net periodic benefit cost, other than service cost, outside a subtotal of income from operations. The amendment also states that only the service cost component of net periodic benefits costs is eligible for capitalization. The amendment establishes a practical expedient that permits entities to use their previously disclosed service and other costs in their pension and other postretirement benefit plan footnotes in the prior comparative periods as the estimation basis when applying the retrospective presentation of these costs in the income statement. The guidance is effective for NJNG beginning October 1, 2018, and will be applied on a retrospective basis for income statement presentation, and on a prospective basis for changes to capitalization of costs. The changes related to the costs that will be eligible for capitalization and based on the components of net periodic benefit costs during fiscal year 2018, will not have a material impact on NJNG's financial position, results of operations or cash flows upon adoption.

Derivatives and Hedging

In August 2017, the FASB issued ASU No. 2017-12, an amendment to ASC 815, *Derivatives and Hedging*, which is intended to make targeted improvements to the accounting for hedging activities by better aligning an entity's risk management activities and financial reporting for hedging relationships. These amendments modify the accounting for both nonfinancial and financial risk components and align the recognition and presentation of the effects of the hedging instrument and the hedged item in the financial statements. Additionally, the amendments are intended to simplify the application of the hedge accounting guidance and provide relief to companies by easing certain hedge documentation requirements. The guidance is effective for NJNG beginning October 1, 2019, with early adoption permitted. Upon adoption, the transition requirements and elections will be applied to hedging relationships existing on the date of adoption. NJNG does not currently apply hedge accounting to any of its risk management activities and thus does not expect the amendments to have any impact on its financial position, results of operations and cash flows upon adoption.

CONSTRUCTION OVERHEADS-GAS

1. List in column (a) the kinds of overheads according to the titles used by the respondent. Charges for outside professional services for engineering fees and management or supervision fees capitalized should be shown as separate items.

2. On page 218 furnish information concerning construction overheads.

3. A respondent should not report "none" to this page if no overhead apportionments are made, but rather should explain on page 218 the accounting procedures employed and the amounts of engineering , supervision and administrative costs, etc., which are directly charged to construction.

4. Enter on this page engineering, supervision, administrative, and allowance for funds used during construction, etc., which are first assigned to a blanket work order and then prorated to construction jobs.

NAME OF RESPONDENT New Jersey Natural Gas Company	This Report is: <input checked="" type="checkbox"/> An Original <input type="checkbox"/> A Resubmission	Date of Report <i>March 31, 2019</i>	Year Ending Dec. 31, 2018
--	---	---	------------------------------

GENERAL DESCRIPTION OF CONSTRUCTION OVERHEAD PROCEDURE

1. For each construction overhead explain: (a) the nature and extent of work, etc., the overhead charges are intended to cover, (b) the general procedure for determining the amount capitalized, (c) the method of distribution to construction jobs, (d) whether different rates are applied to different types of construction, (e) basis of differentiation in rates for different types of construction, and (f) whether the overhead is directly or indirectly assigned.

2. Show below the computation of allowance for funds used during construction rates, in accordance with the provisions of Gas Plant Instructions 3 (17) of the Uniform System of Accounts.

3. Where a net-of tax rate for borrowed funds is used, show the appropriate tax effect adjustment to the computations below in a manner that clearly indicates the amount of reduction in the gross rate for tax effects.

Overheads

(a) The nature and extent of work that the overhead charges are intended to cover are supervisory and administrative costs relating to preparing construction documents and overseeing construction work in addition to ordering and maintaining construction materials.

(b) The applicable portion of payroll and the general expense of engineers, operating supervisors and other personnel related to construction projects are charged to an "Overhead Clearing Account"

(c) The overhead is distributed monthly based on the proportion of monthly expenditures each project has incurred in relation to total expenditures

(d, e) The overhead rates have been applied uniformly to all types of construction in the past twelve months

(f) The overhead is indirectly assigned to the applicable projects

Accounting for funds used during construction

The Company accrues AFUDC on all work orders with a construction period greater than one month, using its monthly short-term debt rate. As of 10/1/07 This amount includes a cost of Equity component as well.

1. Components of Formula (Derived from actual book balances and actual cost rates):

Title (a)	Amount (b)	Capitalization Ratio (Percent) (c)	Cost Rate Percentage (d)
[1] Average Short-Term Debt	89,683,333		
[2]. Short-Term Interest			1.00%
3. Long-Term Debt	615,781,915	N/A	3.89%
4. Preferred Stock	N/A	N/A	
5. Common Equity	961,552,865	N/A	9.75%
6. Total Capitalization			
7. Average Construction Work in Progress Balance	165,617,638		

2. Gross Rate for Borrowed Funds $s(S/W)+d((D/(D+P+C))(1-(S/W)))$	4.89%
3. Rate for Other Funds $(1-(S/W))(p(P/(D+P+C))+c((C/(D+P+C))))$	9.75%
4. Weighed Average Rate Actually Used for the Year	
a. Rate for Borrowed Funds	4.89%
b. Rate for Other Funds	9.75%

ACCUMULATED PROVISION FOR DEPRECIATION OF GAS UTILITY PLANT (ACCOUNT 108)

- | | |
|--|--|
| <p>1. Explain in a footnote any important adjustments during year.</p> <p>2. Explain in a footnote any difference between the amount for book cost of plant retired, line 10, column (c), and that reported for gas plant in service, page 204-209, column (d), excluding retirements of nondepreciable property.</p> <p>3. The provisions of Account 108 in the Uniform System of Accounts require that retirements of depreciable plant be recorded when such plant is removed from service. If the respondent has a :</p> | <p>significant amount of plant retired at year end which has not been recorded and /or classified to the various reserve functional classifications, make preliminary closing entries to tentatively functionalize the book cost of the plant retired. In addition, include all costs included in retirement work in progress at year end in the appropriate functional classifications.</p> <p>4. Show separately interest credits under a sinking fund or similar method of depreciation accounting.</p> <p>5. At lines 7 and 14, add rows as necessary to report all data. Additional rows should be numbered in sequence. e.g., 7.01, 7.02, etc.</p> |

ADVANCES FOR GAS PRIOR TO INITIAL DELIVERIES OR COMMISSION CERTIFICATION
(Accounts 124, 166, and 167)

1. Report below the information called for concerning all advances for gas, as defined in the text of Account 166, Advances for *Gas Exploration, Development and Production*, and 167, Other Advances for Gas, whether reported in Accounts 166, 167, or reclassified to account 124, Other investments. List Account 124 items first.

2. In column (a), give the date the advance was made, the payee (designate associated companies with an asterisk) a brief statement of the purpose, (exploration, development, production, general loan, etc.) and the estimated date of repayment. Do not use the term indefinite in reporting

estimated date of repayment. If advances are made to a payee in connection with different projects with different arrangements for repayments, use separate lines for reporting; otherwise all advances may be grouped by payee, subject to the requirements of instruction 3 below.

3. If the beginning balance shown in column (c) does not agree with the prior year's ending balance, column (g), provide a detailed explanation in a footnote. Show all Advances made during the year in column (d) and all repayments of other credits in column (e). Report amounts shown in column (e) separately by account, as reported in column (f).

**SECURITIES ISSUED OR ASSUMED &
SECURITIES REFUNDED OR RETIRED DURING THE YEAR**

- | | |
|---|---|
| <p>1. Furnish a supplemental statement briefly describing security financing and refinancing transactions during the year and the accounting for the securities, discounts, premiums, expenses and related gains or losses. Identify as to Commission authorization numbers and dates.</p> <p>2. Provide details showing the full accounting for the total principal amount, par value, or stated value of each class and series of security issued, assumed, retired, or refunded and the accounting for premiums, discounts, expenses, and gains or losses relating to the securities. Set forth the facts of the accounting clearly with regard to redemption premiums, unamortized discounts, expenses and gain or losses relating to securities retired or refunded including the accounting for such amounts carried in the respondent's accounts at the date of the refunding or refinancing transactions with respect to securities previously refunded or retired.</p> | <p>3. Include in the identification of each class and series of security as appropriate, the interest or dividend rate, nominal date of issuance, maturity date, aggregate principal amount, par value or stated value and number of shares. Give also the issuance of redemption price and name of the principal underwriting firm through which the security transactions were consummated.</p> <p>4. Where the accounting for amounts relating to securities refunded or retired is other than that specified in General Instruction 17 of the Uniform System of Accounts, cite the Commission authorization for different accounting and state the accounting method.</p> <p>5. For securities assumed, give the name of the company for which the liability on the securities was assumed as well as details of the transactions whereby the respondent undertook to pay obligations of another company. If any unamortized discount, premiums, expenses and gains or losses were taken over onto the respondent's books, furnish details of these amounts with amounts relating to refunded securities clearly earmarked.</p> |
|---|---|

NJNG and Trustee, entered into the Mortgage Indenture, dated September 1, 2014, which secures all of the outstanding First Mortgage Bonds issued by NJNG. The Mortgage Indenture provides a direct first mortgage lien upon substantially all of the operating properties and franchises of NJNG (other than excepted property, such as cash on hand, choses-in-action, securities, rent, natural gas meters and certain materials, supplies, appliances and vehicles), subject only to certain permitted encumbrances. The Mortgage Indenture contains provisions subjecting after-acquired property (other than excepted property and subject to pre-existing liens, if any, at the time of acquisition) to the lien thereof.

NJNG's Mortgage Indenture no longer contains a restriction on the ability of NJNG to pay dividends. New Jersey Administrative Code 14:4-4.7 states that a public utility cannot issue dividends, without regulatory approval, if its equity to total capitalization ratio falls below 30 percent. As of September 30, 2018, NJNG's equity to total capitalization ratio is 56.7 percent and has the ability to issue up to \$1 billion of FMB under the terms of the Mortgage Indenture.

NJNG has variable rate EDA Bonds with a total principal amount of \$97 million and maturity dates ranging from September 2027 to August 2041. The EDA Bonds are not subject to optional tender while they bear interest at a LIBOR index rate. As of September 30, 2018, the interest rate on the EDA Bonds was 2.03 percent.

As of September 30, 2018, NJNG's long-term debt consisted of \$575 million in fixed-rate debt issuances, with maturities ranging from 2024 to 2048, and \$97 million in secured variable rate debt, with maturities ranging from 2027 to 2041, which are both secured by the Mortgage Indenture, and \$26.4 million in capital leases with various maturities ranging from 2019 to 2025.

On May 31, 2017, the BPU approved a petition filed by NJNG requesting authorization over a three-year period to issue up to \$400 million of medium-term notes with a maturity of not more than 40 years, for up to five years with an option for two additional one-year extensions; enter into interest rate risk management transactions related to debt securities and redeem and refinance or defease any of NJNG's outstanding long-term debt securities.

On April 15, 2015, NJNG issued \$50 million of 2.82 percent senior notes due April 15, 2025, and \$100 million of 3.66 percent senior notes due April 15, 2045, in the private placement market pursuant to a note purchase agreement entered into on February 12, 2015. The notes are secured by an equal principal amount of NJNG's FMB (Series SS and TT, respectively) issued under NJNG's Mortgage Indenture. The proceeds of the notes were used for general corporate purposes, to refinance or retire debt and to fund capital expenditure requirements. The notes are subject to required prepayments upon the occurrence of certain events. NJNG may at any time prepay all or a portion of the notes at a make-whole prepayment price.

In June 2016, NJNG entered into a Note Purchase Agreement, under which NJNG issued \$125 million of its 3.63 percent senior notes due June 2046. The notes are secured by an equal principal amount of the Company's FMB (series UU) issued under NJNG's Mortgage Indenture. The proceeds of the notes will be used for general corporate purposes, including, but not limited to, refinancing or retiring short-term debt and funding capital expenditures.

On January 17, 2017, NJNG completed the purchase of three FMBs in lieu of redemption with an aggregate principal amount totaling \$35.8 million. The FMBs bore interest at rates ranging from 4.5 percent to 4.9 percent. The bonds purchased in lieu of redemption are being held by NJNG to provide an opportunity to evaluate remarketing alternatives.

On May 11, 2018, NJNG entered into a Note Purchase Agreement, under which NJNG issued \$125 million, 4.01 percent senior notes due May 11, 2048. The interest rate includes the quoted March 9, 2018, 30-year treasury rate, plus a market based credit spread. The notes are secured by an equal principal amount of NJNG's FMB (series VV) issued under the NJNG's Mortgage Indenture.

In June 2015, NJNG entered into a treasury lock transaction to fix a benchmark treasury rate of 3.26 percent associated with a \$125 million debt issuance that was finalized in May 2018. This debt issuance coincided with the maturity of the \$125 million, 5.6 percent notes that came due May 15, 2018. This treasury lock was settled on March 13, 2018, which coincided with the pricing of the new debt being issued. Settlement of the treasury lock resulted in a \$2.6 million loss, which is recorded as a component of regulatory assets on the Balance Sheets and will be amortized in earnings over the term of the May 11, 2018 debt issuance, discussed above.

NJNG Variable-Rate Long-Term Debt

In August 2011, NJNG completed a refunding of its outstanding Auction-Rate Securities whereby the EDA issued a total of \$97 million of Natural Gas Facilities Refunding Revenue Bonds (New Jersey Natural Gas Company Project) composed of three series of bonds. EDA Bonds are special, limited obligations of the EDA payable solely from payments made by NJNG pursuant to a Loan Agreement and are secured by the pledge of \$97 million principal amount of the FMB issued by the Company.

EDA Bonds accrue interest at a variable rate determined monthly, which rate was initially calculated as .55 percent plus 70 percent of one month LIBOR, subject to earlier redemption or conversion to another interest rate mode. The maximum interest rate on the EDA Bonds is 12 percent per annum. NJNG's obligations under the Loan Agreement, and its corresponding obligations under the FMB, match the respective principal amounts, interest rates and maturity dates of the EDA Bonds. The weighted average interest rate on the EDA Bonds as of September 30, 2018, was 2.0 percent.

The interest rate on the EDA Bonds may vary based upon market conditions. Sudden increases in the interest rate could cause a change in interest expense and cash flow for NJNG in the future.

Short-term Debt

NJNG has a \$250 million, five-year, revolving, unsecured credit facility, which expires in May 2019. The NJNG Credit Facility permits the borrowing of revolving loans and swing loans, as well as the issuance of letters of credit. It also permits an increase to the facility, from time to time, with the existing or new lenders, in a minimum of \$15 million increments up to a maximum of \$50 million at the lending banks' discretion.

As of September 30, 2018, NJNG has two letters of credit outstanding for \$731,000. NJNG's letters of credit are used as collateral for remediation projects and expire in August 2019. These letters of credit reduce the amount available under NJNG's committed credit facility by the same amount. NJNG does not anticipate that these letters of credit will be drawn upon by the counterparty and will be renewed as necessary.

LONG -TERM DEBT (ACCOUNTS 22, 222, 223 AND 224) (Continued)

5. In a supplemental statement, give explanatory details for Accounts 223 and 224 of net changes during the year. With respect to long-term advances, show for each company: (a) principal advanced during year (b) interest added to principal amount, and (c) principal repaid during year. Give Commission authorization numbers and dates.

6. If the respondent has pledged any of its long-term debt securities, give particulars (details) in a footnote, including name of the pledgee and purpose of the pledge.

7. If the respondent has any long-term securities that have been nominally issued and are nominally outstanding at end of year, describe such securities in a footnote.

8. If interest expense was incurred during the year on any obligations retired or reacquired before end of year, include such interest expense in column (f). Explain in a footnote any difference between the total of column (f) and the total Account 427 Interest on Long-Term Debt and Account 430. Interest on Debt to Associated Companies.

9. Give details concerning any long-term debt authorized by a regulatory commission but not yet issued.

RECONCILIATION OF REPORTED NET INCOME WITH TAXABLE INCOME FOR FEDERAL INCOME TAXES

1. Report the reconciliation of reported net income for the year with taxable income used in computing Federal Income Tax accruals and show computation of such tax accruals. Include in the reconciliation, as far as practicable, the same detail as furnished on Schedule M-1 of the tax return for the year. Submit a reconciliation even through there is no taxable income for the year. Indicate clearly the nature of such amount.

2. If the utility is a member of a group that files consolidated Federal tax return, reconcile reported net income with taxable net income as if a separate return were to be filed, indicating, however, intercompany amounts to be eliminated in such a consolidated return. State names of group members, tax assigned to each group member, and basis of allocation, assignments, or sharing of the consolidated tax among the group members.

TAXES ACCRUED, PREPAID AND CHARGED DURING YEAR

1. Give details of the combined prepaid and accrued tax accounts and show the total taxes charged to operations and other accounts during the year. Do not include gasoline and other sales taxes which have been charged to the accounts to which the taxed material was charged. If the actual or estimated amounts of such taxes are known, show the amounts in a footnote and designate whether estimated or actual amounts.
2. Include on this page, taxes paid during the year and charged directly to final accounts, (not charged to prepaid or accrued taxes). Enter the amounts in both column (d) and (e). The balancing of this page is not affected by the inclusion of these taxes.
3. Include in column (d) taxes charged during the year, taxes charged to operations and other accounts through (a) accruals credited to taxes accrued, (b) amounts credited to the portion of prepaid taxes charged to current year and (c) taxes paid and charged direct to operations or accounts other than accrued and prepaid tax accounts.
4. List the aggregate of each kind of tax in such manner that the total tax for each State and subdivision can readily be ascertained.

TAXES ACCRUED, PREPAID AND CHARGED DURING YEAR (Continued)

5. If any tax (exclude Federal and State income taxes) covers more than one year, show the required information separately for each tax year, identifying the year in column (a).
6. Enter all adjustments of the accrued and prepaid, tax account in column (f) and explain each adjustment in a footnote. Designate debit adjustments by parentheses.
7. Do not include on this page entries with respect to deferred income taxes or taxes collected through payroll deductions or otherwise pending transmittal of such taxes to the taxing authority.

8. Show in columns (i) thru (p) how the tax accounts were distributed. Show both the utility department and number of account charged. For taxes charged to utility plant, show the number of the appropriate balance sheet plant account or subaccount.
9. For any tax apportioned to more than one utility department or account, state in a footnote the basis (necessity) of apportioning such tax.
10. Item under \$250,000 may be grouped.

INVESTMENT TAX CREDITS GENERATED AND UTILIZED

1. Prepare this page regardless of the method of accounting adopted for the investment tax credits. By footnote state the method of accounting adopted, and whether the company has consented or is required by another Commission to pass the tax credits on to customers.
2. As Indicated in column (a) , show each year's activities from 1962 through the year covered by this report, identifying the data by the indicated percentages.
3. Report in columns (b) and (e) the amount of investment tax credits generated from properties acquired for use in utility operations. Report in columns (c) and (f) the amount of such generated credits utilized in computing the annual income taxes. Also explain by footnote any adjustments to columns (b) through (f) such as corrections, etc., or carry back of unused credits. Such adjustments should be carried back or forward to the applicable years.
4. Report in column (d), the weighted-average useful life of all properties used in computing the investment tax credits in column (b). Also, show in this column for the year 1971 and thereafter, the option exercised [(1) rate base treatment, (2) ratable flow through, or (3) flow through] for rate purposes in accordance with section 46 (f) of the Internal Revenue Code.
5. Show by footnote (page 551, Footnotes) any unused credits available at end of each year for carrying forward as a reduction of taxes in subsequent years.

UNDELIVERED GAS OBLIGATIONS UNDER SALES AGREEMENTS

1. Report below the information called for concerning obligations to customers under take or pay clauses of gas sale agreements. If any of the obligations are included in an account other than 253, Other *Deferred Credits*, show the account in which included and on page 266 of this report show the aggregate dollar amount with notation that details are reported on this page. Explain why any take or pay obligations were not included in Account 253.

2. If any obligation at the beginning of year (or which arose during the year) was cancelled, forfeited by the customer, or applied to another purpose, state in a footnote gas volume and dollar amount, period when such obligation arose, accounting entries, and give a concise explanation

Monthly Quantity & Revenue Data by Rate Schedule

1. Reference to account numbers in the USofA is provided in parentheses beside applicable data. Quantities must not be adjusted.
2. Total Quantities and Revenues in whole numbers
3. Report revenues and quantities of gas by rate schedule. Where transportation services are bundled with storage services, reflect only transportation Dth. When reporting storage, report Dth of gas withdrawn from storage and revenues by rate schedule.
4. Revenues in Column (c) include transition costs from upstream pipelines. Revenue (Other) in Column (e) includes reservation charges received by the pipeline plus usage charges, less revenues reflected in Columns (c) and (d). Include in Column (e), revenue for Accounts 490-495.
5. Enter footnotes as appropriate.

- (1) Includes \$50,074,557.89 unbilled revenues for 2018 and \$62,590,507 unbilled revenues for 2017.
(2) Includes 5,525,903 unbilled dekatherms for 2018 and 6,640,710 unbilled dekatherms for 2017.
(3) Includes \$5,147,821 unbilled revenues for 2018 and \$7,546,992 unbilled revenues for 2017.
(4) Includes 1,445,377 unbilled dekatherms for 2018 and 1,835,264 unbilled dekatherms for 2017.
(5) Totals of columns J & K include 56,599,120 and 65,982,693 dekatherms for 2018 and 2017, respectively, (see page 301C) of Co-Generation Lakewood, in addition to total dekatherms of gas sold for 2018. (see page 301-A.)
(6) The totals of lines f & g - 1 & 7 ties to Line (b) & (c) 20 on page 301A.

NAME OF RESPONDENT New Jersey Natural Gas Company	This Report is: <input checked="" type="checkbox"/> An Original <input type="checkbox"/> A Resubmission	Date of Report March 31, 2019	Year of Report Dec. 31, 2018
---	---	---	--

GAS OPERATION REVENUES (Account 400) (Continued)

1. Report number of customers, columns (f) and (g), on the basis of meters, in addition to the number of flat rate accounts; except that where separate meter readings are added for billing purposes, one customer should be counted for each group of meters added. The average number of customers means the average of twelve figures at the close of each month.

2. If increases or decreases from previous year (columns (c), (e) and (g) are not derived from previously reported figures, explain any inconsistencies in a footnote.

3. Commercial and Industrial Sales, Account 481, may be classified according to the basis of classification (small or Commercial, and Large or Industrial) regularly used by the respondent if such basis of classification is not generally greater than 200,000 Mcf per year or approximately 800 Mcf per day of normal requirements. (See Account 481 of the Uniform System of Accounts. Explain basis of classification in a footnote.)

4. Provide a reconciliation of the total amounts on line 20 and the amounts on lines 1,5,6,7, and 8 of page 301 in the area provided for notes.

SALES FOR RESALE NATURAL GAS (Account 483)

1. Report particulars (details) concerning sales of natural gas during the year to other gas utilities and to pipeline companies for resale. Sales to each customer should be subdivided by service classifications, identified in column (c) where applicable, by rate schedule designation contained in the company's tariff.

2. Natural gas means either natural gas unmixed, or any mixture of natural and manufactured gas.

3. In either column a or b, provide separate subheadings and totals for each State in addition to a grand total for all sales to other gas utilities.

4. Enter in column b, point of delivery, the name of city or town and State, and such other designation necessary to enable identification on maps of respondent's pipeline system.

5. Designate with an asterisk and footnote any sales which are other than firm sales, i.e., sales for storage, etc.

6. Monthly billing demands, as used in column (g) are the number of Mcf in the respective months actually used in computing the demand portion of the customer's bills; such quantity of Mcf is multiplied by the demand portion of the tariff rate. Report in column (g) the sum of the monthly billing demands for the number of months the customer received service or was subject to demand changes.

7. Where consolidated bills for more than one point of delivery are rendered under a FERC rate schedule, indicate the several points of delivery in column (b) and report the remainder of the columns on a consolidated basis corresponding to the billing. Where, however, consolidated bills for more than one point of delivery are not rendered under a

SALES FOR RESALE-NATURAL GAS (Account 483) (Continued)

FERC rate schedule, the required information (columns) shall be furnished for each point of delivery.

8. Designate in a footnote if Btu per cubic foot of gas is different for any delivery point from that shown in the heading of column d.

9. For each firm sale of \$25,000 or more for the year at each point of delivery, shown in column (i) peak day volume of gas, at pressure base indicated in column (d), and in column (h) show the date of such peak delivery. If an estimate is used for any peak day delivery and date thereof for each delivery point if billing is on a non-conjunctive basis, and show the total for

each such customer if billing is on a conjunctive basis.

10. Summarize total sales as follows: A Field sales subdivided by deliveries to (i) interstate pipeline companies and (ii) others; B. Transmission system sales divided by deliveries to (i) interstate pipeline companies, (ii) intrastate pipeline companies and gas utilities for resale under FERC rate schedules, and (iii) others. "Field sales" means sales made from wells, from points along gathering lines in gas field or production areas or from points along transmission lines within fields or production areas. "Transmission sales" means sales made from points along transmission lines not within gas fields or production areas.

11. Enter Mcf at 14.73 psia at 60°F.

EXPLORATION AND DEVELOPMENT EXPENSES (Accounts 795, 796, 798)
(Except Abandoned Leases, Account 797)

1. Report below exploration and development costs for the year, exclusive of Account 797, *Abandoned Leases*, according to the prescribed accounts shown by the column headings.
 2. Provide subheadings and subtotals for exploration and development costs for each State.

3. Explain in a footnote any difference between the amounts reported in column(f) and the amount shown on page 231, Preliminary Survey and Investigation Charges, for clearance to Account 796 during the year from Account 183.1, *Preliminary Natural Gas Survey and Investigation Charges*.

ABANDONED LEASES (Account 797)

1. Report below particulars (details) concerning the provision for the year to cover probable loss on abandonment of natural gas leases included in Account 105, Gas Plant Held for Future Use which have never been productive.
 2. Explain the basis of determining the year's provision and state whether the basis is the same as that used for the preceding year.

If the year's total provision is comprised of separate determinations with respect to certain groups or classes of leases. Show separately the determinations for each such group or class. If the provision was so determined that component amounts may be identified by territories, fields, or counties, show the component amounts identified as such.

Depreciation is computed on a straight line basis at the end of each fiscal year by applying rates approved by the BPU to the average annual balance of each plant account. The schedule at page 338A lists approved rates for all plant accounts effective October, 2016. in accordance with Board Order in Docket # GR1606.

INCOME FROM UTILITY PLANT LEASED TO OTHERS (Account 412 and 413)

1. Report below the following information with respect to utility property leased to others constituting an operating unit or system.

2. For each lease show; (1) name of lessee and description and location of the leased property; (2) revenues; (3) operating expenses classified as to operation, maintenance, depreciation, rents, amortization; and (4) net income from lease for year. Arrange amounts so that deductions appear as a

subtraction from revenues, and income as the remainder.

3. Provide a subheading and total for each utility department in addition to a total for all utility departments.

4. Furnish particulars (details) of the method of determining the annual rental for the property.

5. Designate with an asterisk associated companies.

PARTICULARS CONCERNING CERTAIN INCOME DEDUCTIONS AND INTEREST CHARGES ACCOUNTS

Report the information specified below, in the order given, for the respective income deduction and interest charges accounts.

(a) Miscellaneous Amortization (Account 425)-Describe the nature of items included in this account, the contra account charged, the total of amortization, charges for the year, and the period of amortization.

(b) Miscellaneous Income Deductions-Report the nature, payee, and amount of other income deductions for the year as required by Accounts 426.1, Donations: 426.2. Life Insurance; 426.3, Penalties; 426.4, Expenditures for Certain Civic, Political and Related Activities; and 426.5, Other Deductions, of the Uniform System of Accounts.

Amounts of less than \$250,000 may be grouped by classes within the above accounts.

(c) Interest on Debt to Associated Companies (Account 430)-For each associated company that incurred interest on debt during the year, indicate the amount and interest rate respectively for (a) advances on notes, (b) advances on open account, (c) notes payable, (d) accounts payable, and (e) other debt, and total interest. Explain the nature of other debt on which interest was incurred during the year.

(d) Other Interest Expense (Account 431) - Report details including the amount and interest rate for other interest charges incurred during the year.

FIELD AND MAIN LINE INDUSTRIAL SALES OF NATURAL GAS

- | | |
|--|--|
| 1. report below particulars (details) concerning sales of natural gas to industrial customers served other than from local distribution systems operated by the respondent. Classify between field sales and transmission sales and further subdivide these sales between sales subject to FERC certification and sales not requiring a FERC certificate. Include also any field and mail line sales, classified as Other Sales to Public Authorities and indicate such inclusion in a footnote. Field sales means sales made from wells, from points along gathering lines in gas field or production areas or from points along transmission lines within field or production areas. Transmission sales means sales made from points along transmission lines not within gas fields or production areas. | 2. Natural gas means either natural gas unmixed, or any mixture of any natural and manufactured gas. Designate with an asterisk, however, any sales of mixed gas. In a footnote state the component of mixed gas, i.e., natural and refinery gases, natural and coke oven gases etc., and specify the approximate percentage of natural gas in the mixture.
3. Report separately sales to each field and mail line industrial consumer to which sales of 50,000 Mcf or more were made during the year, grouped and totaled by State. Report other sales in total for each State, showing number of sales grouped.
4. Provide separate grand totals for each State in addition to a grand total for all field and main line industrial sales. |
|--|--|

Line No.	Name of Customer (Designate associated companies with an asterisk) (a)	Latest Effective Docket Number in Which Delivery Was Authorized (b)	Point of Delivery (State and county, or city) (c)	Type of Sale (See instr. 6) (d)	Approx. Btu Per Cu. Ft. (e)

FIELD AND MAIN LINE INDUSTRIAL SALES OF NATURAL GAS (Continued)

<p>5. designate the entries in point of delivery, column (c), that they can be readily identified on map of the respondent's pipe line system.</p> <p>6. For column (d), use the following codes to designate type of sale: Firm 1: Off peak 2: Interruptible 3: Other 4. Define by appropriate footnote, the meaning of each term in describing the type of sale, indicating specifically any order of priority in service between types of sale and among sales of the same type.</p> <p>7. On each line following an entry in column (h), itemize separately the adjustment portion of the entry in column (h) (for example, purchased gas, tax, Btu or other rate adjustments). The difference between columns (g) and (h) should be the revenues resulting from the base contract rate named in the docket number entered in</p>	<p>column (b). Show the effect of purchased gas, tax, Btu, or other rate adjustment provision as the quotient of the total annual revenues received for the year from the application of each rate adjustment provision divided by the annual volume of gas delivered.</p> <p>8. For each sale of 50,000 Mcf or more per year at each point of delivery, show (a) in column (l) the noncoincidental peak day volume of delivery at pressure base indicated, (b) in column (m) the coincidental system peak day volume of delivery at pressure base indicated and (c) in column (k) the dates of the noncoincidental peak day deliveries. In a footnote state the date of the entire system peak day coincidental delivery. If an estimate is used for any peak day delivery, state the basis for such estimate in a footnote.</p>

NATURAL GAS RESERVES AND LAND ACREAGE

- 1 Report below particulars (details) concerning the remaining recoverable saleable gas reserves and natural gas land acreage at end of year. Designate gas reserves on acreage acquired before October 8, 1969, and reserves on acreage acquired after October 7, 1969.
- 2 Classify the gas reserves and related land and land rights and costs under the sub-headings; (A) Producing Gas Lands, and (B) Non-producing Gas Lands. Provide a total for each classification.
3. For producing gas lands, report the required information alphabetically by State, County, or offshore area, and field.

If the field name is not assigned, report as "unnamed." identify offshore fields according to their location in State or Federal domains by using the letter "S" for State domain, and "F" for Federal domain in column (a). For column (b), enter the zone number if applicable. The land, household, and gas rights costs so reported should agree with the amounts carried under Account 101, *Gas Plant in Service*, and as reported for Accounts 325.1, 325.2, and 325.3 on pages 204-205. In column (e) show for each field the year and remaining recoverable saleable gas reserves available to respondent from owned lands, leaseholds and gas rights.

NATURAL GAS RESERVES AND LAND ACREAGE

4. For non-producing gas lands, report the required information alphabetically by State, County, or offshore area by blocks. Report offshore lands in the same manner as producing gas lands. The land, leasehold, and gas rights costs reported should agree with the amounts carried under Accounts 105, Gas Plant Held for Future Use, and 105.1, Production Properties held for Future Use, and reported in total on pages 214 and 215. Do not report estimates of gas reserves (column (e)) for unproven fields; however, if the company made estimates for such lands and normally includes such estimates in stating its reserve position in connection with proposed financing and for managerial and other purposes, include such estimates on this page.

5. Report the cost of lands, leaseholds, and gas rights in accordance with the provisions of the Uniform System of Accounts for Natural Gas Companies.

6. For columns (j) and (k), do not duplicate acreages reported for owned lands and leaseholds. Designate with an asterisk royalty interests separately owned.

7. Indicate by footnote whether acres reported are gross acres or net acres based on proportion of ownership in jointly owned tracts.

8. Do not include oil mineral interests in the cost of acreage reported.

9. Report volumes on a pressure base of 14.73 psia at 60°F.

CHANGES IN ESTIMATED NATURAL GAS RESERVES

1. Report below changes (made during the year) in estimated recoverable natural gas reserves of the respondent on acreage acquired before October 8, 1969.

2. In explanations of revisions of basic reserve estimates, identify the changes with the production areas, fields, and horizons as shown on pages 500-501, natural gas reserves. State the type of studies by which change in the reserve estimates was determined, and furnished such other pertinent explanations as appropriate.

3. For any important changes in the estimated reserves due to purchases, sales, or exchanges or natural gas lands, leaseholds, or gas rights, furnish below a brief explanation of the transactions and the Mcf of gas reserves involved.

4. The gas reserves and changes therein to be reported in column (d) are those associated with lands, lease holds, and gas rights included in Account 105, Gas Plant Held for Future Use. (See Gas Plant Accounts instruction 7Gof the U.S. of A.). Do not report estimates of gas reserves for unproven fields; however, if the company has made estimates for such lands and normally includes such estimates in stating its reserve position in connection with proposed financing and for managerial and other purposes, include such estimates on this page and on pages 500-501. Indicate in a footnote the inclusion of such reserve estimates.

5. If the respondent submitted estimates of natural gas reserves to the Commission during the year in connection with any proceeding, such as an application for certificate of convenience and necessity, state in a footnote the amount of such reserve estimate, date of submission and docket number of case with respect to which submitted. Explain that the estimates submitted may differ in amount with the reserves shown on this page and state the estimated amount of difference and the reasons for the difference.

6. Submit each additional information as may be appropriate concerning the size and dependability of natural gas reserves associated with lands, leaseholds, and gas rights owned by the respondent for which reserve estimates are not reported on this page or on pages 500-501.

7. Report pressure base of gas volumes at 14.73 psia at 60°F.

CHANGES IN ESTIMATED HYDROCARBON RESERVES AND COSTS, AND NET REALIZABLE VALUE

1. Report changes during the year in recoverable saleable reserves of the respondent located on acreage acquired after October 7, 1963. Have the reported reserves attested to every three years by an independent appraiser. File the attestation with the Commission along with this report. If the reserves, at the time the reserve determination is made, significantly differ from those reported on this page, file a reconciliation and explanation of such differences along with the attestation.

2. For any important changes in the estimated reserves due to purchases, sales, or exchanges of land, leaseholds, or rights, furnish on page 505 a brief explanation of the transactions and

reserves involved. Also, explain the criteria used to estimate the net realizable value of reserves.

3. For column (d), report the reserves and changes associated with lands, leaseholds, and rights included in Account 105.1, Production Properties Held for Future Use. (See Gas Plant Accounts Instruction 7G of the U.S. of A.)

4. Report pressure base of gas volumes at 14.73 psia at 60°F.

5. For line 16 base the net realizable value of hydrocarbon reserves on the current selling price of the hydrocarbon reserves less estimated costs of extraction, completion, and disposal.

Explain below items for which explanations are required on page 504, Changes in Estimated Hydrocarbon Reserves and Costs, and Net Realizable Value. For line 16 on page 504, explain the criteria used to estimate such value and provide an explanation of any significant revision in the value of the reserves, other than from the addition of new reserves.

NOT APPLICABLE

GAS AND OIL WELLS

1. Report below the particulars (details) concerning gas and oil wells of the respondent which are either producing or capable of production.

2. Report the required information alphabetically by states. List wells located offshore separately.

3. For column (a), under separate headings, list gas wells first, oil wells second, and combination wells third. Combination wells are wells producing or capable of production from one or more oil reservoirs and also from one or more gas reservoirs. Enter totals for each of the headings (gas wells, oil wells, combination wells). Designate any wells not operated during the past year, and in a footnote state whether the book cost of such wells, or any portion thereof, has been retired in the books of account, or what disposition of the wells and their book cost is contemplated.

4. In column (f), report wells reclassified during the year as oil wells, gas wells, or combination wells. Show additions in black and deductions enclosed in parentheses. The total additions equal the total deductions.

LIQUEFIED PETROLEUM GAS OPERATIONS

1. Report the information called for below concerning plants which produce gas from liquefied petroleum gas (LPG).
2. For column (a), give city and State or such other designation necessary to locate plant on a map of the respondent's system.
3. For columns (b) and (c), the plant cost and operation and

maintenance expense of any liquefied petroleum gas installation which is only an adjunct of a manufactured gas plant, may include or exclude (as appropriate) the plant cost and expenses of any plant used jointly with the manufactured gas facilities on the basis of predominant use. Indicate in a footnote how the plant cost and expenses for the liquefied petroleum plant described above are reported.

Transmission System Peak Deliveries

1. Report below the total transmission system deliveries of gas (in Dth), excluding deliveries to storage, for the period of system peak deliveries indicated below, during the 12 months embracing the heating season overlapping the year's end for which this report is submitted. The season's peak normally will be reached before the due date of this report, April 30, which permits inclusion of the peak information required on this page. Add rows as necessary to report all data. Number additional rows 6.01, 6.02, etc.

GAS ACCOUNT - NATURAL GAS

1. The purpose of this schedule is to account for the quantity of natural gas received and delivered by the respondent.
2. Natural gas means either natural unmixed or any mixture of natural and manufactured gas.
3. Enter in column (c) the Dth as reported in the schedules indicated for the items of receipts and deliveries.
4. Indicate in a footnote the quantities of bundled sales and transportation gas and specify the line on which such quantities are listed.
5. If the respondent operates two or more systems which are not inter-connected, submit separate pages for this purpose. Use copies of pages 520.
6. Also indicate by footnote the quantities of gas not subject to Commission regulation which did not incur FERC regulatory costs by showing (1) the local distribution volumes another jurisdictional pipeline delivered to the local distribution company portion of the reporting pipeline (2) the quantities that the reporting pipeline

transported or sold through its local distribution facilities or intrastate facilities and which the reporting pipeline received through gathering facilities or intrastate facilities, but not through any of the intrastate portion of the reporting pipeline, and (3) the gathering line quantities that were not designed for intrastate market or that were not transported through any interstate portion of the reporting pipelines.

7. Also indicate in a footnote (1) the system supply quantities of gas that are stored by the reporting pipeline, during the reporting year and also reported as sales, transportation and compression volumes by the reporting pipeline during the same reporting year (2) the system supply quantities of gas that are stored by the reporting pipeline during the reporting year which the reporting pipeline intends to sell or transport in a future reporting year, and (3) contract storage quantities.

8. Also indicate the volumes of pipeline production field sales that are included in both the company's total sales figure and the company's total transportation figure. Add additional rows as necessary to report all data, numbered 14.U1, 14.U2, etc.

Name of Respondent	This Report Is: (1) <input checked="" type="checkbox"/> An Original (2) <input type="checkbox"/> A Resubmission	Date of Report (Mo, Da, Yr) 3/31/19	Year/Period of Report End of 2018
--------------------	---	--	--------------------------------------

Shipper Supplied Gas for the Current Quarter

1. Report monthly (1) shipper supplied gas for the current quarter and gas consumed in pipeline operations, (2) the disposition of any excess, the accounting recognition given to such disposition and the specific account(s) charged or credited, and (3) the source of gas used to meet any deficiency, the accounting recognition given to the gas used to meet the deficiency, including the accounting basis of the gas and the specific account(s) charged or credited.
2. On lines 7, 14, 22 and 30 report only the dekatherms of gas provided by shippers under tariff terms and conditions for gathering, production/ extraction/processing, transmission, distribution and storage service and the use of that gas for compressor fuel, other operational purposes and lost and unaccounted for. The dekatherms must be broken out by functional categories on Lines 2-6, 9-13, 16-21 and 24-29. The dekatherms must be reported in column (d) unless the company has discounted or negotiated rates which should be reported in columns (b) and (c).
3. On lines 7, 14, 22 and 30 report only the dollar amounts of gas provided by shippers under tariff terms and conditions for gathering, production/ extraction/processing, transmission, distribution and storage service and the use of that gas for compressor fuel, other operational purposes and lost and unaccounted for. The dollar amounts must be broken out by functional categories on Lines 2-6, 9-13, 16-21 and 23-29. The dollar amounts must be reported in column (h) unless the company has discounted or negotiated rates which should be reported in columns (f) and (g). The accounting should disclose the account(s) debited and credited in columns (m) and (n).
4. Indicate in a footnote the basis for valuing the gas reported in Columns (f), (g) and (h).
5. Report in columns (j), (k) and (l) the amount of fuel waived, discounted or reduced as part of a negotiated rate agreement.
6. On lines 32-37 report the dekatherms and dollar value of the excess or deficiency in shipper supplied gas broken out by functional category and whether recourse rate, discounted or negotiated rate.
7. On lines 39 through 51 report the dekatherms, the dollar amount and the account(s) credited in Column (o) for the dispositions of gas listed in column (a).
8. On lines 53 through 65 report the dekatherms, the dollar amount and the account(s) debited in Column (n) for the sources of gas reported in column (a).
9. On lines 66 and 67, report forwardhaul and backhaul volume in Dths of throughput.
10. Where appropriate, provide a full explanation of the allocation process used in reported numbers in a footnote.

Name of Respondent	This Report is: (1) <input checked="" type="checkbox"/> An Original (2) <input type="checkbox"/> A Resubmission	Date of Report (Mo, Da, Yr) 3/31/19	Year/Period of Report 2018
System Maps			

1. Furnish five copies of a system map (one with each filed copy of this report) of the facilities operated by the respondent for the production, gathering, transportation, and sale of natural gas. New maps need not be furnished if no important change has occurred in the facilities operated by the respondent since the date of the maps furnished with a previous year's annual report. If, however, maps are not furnished for this reason, reference should be made in the space below to the year's annual report with which the maps were furnished.
2. Indicate the following information on the maps:
 - (a) Transmission lines.
 - (b) Incremental facilities.
 - (c) Location of gathering areas.
 - (d) Location of zones and rate areas.
 - (e) Location of storage fields.
 - (f) Location of natural gas fields.
 - (g) Location of compressor stations.
 - (h) Normal direction of gas flow (indicated by arrows).
 - (i) Size of pipe.
 - (j) Location of products extraction plants, stabilization plants, purification plants, recycling areas, etc.
 - (k) Principal communities receiving service through the respondent's pipeline.
3. In addition, show on each map: graphic scale of the map; date of the facts the map purports to show; a legend giving all symbols and abbreviations used; designations of facilities leased to or from another company, giving name of such other company.
4. Maps not larger than 24 inches square are desired. If necessary, however, submit larger maps to show essential information. Fold the maps to a size not larger than this report. Bind the maps to the report.
